

**Representing Innovative, Efficient and Economical
Products & Solutions Throughout the Mid-Atlantic.
Serving Construction, Industry, OEM'S and Municipalities.**

AIR & WATER PURIFICATION

- Customized design & manufacturing based on project analysis
- American Conference of Governmental Industrial Hygienists certified, (ACGIH)
- Veteran-owned small business, established in 1991
- All Air Dynamics products are designed and manufactured in the USA
- State of the art in air and material moving systems

- Microwave powered equipment: UV generating equipment
- Pure Pulse UV disinfectant equipment
- Air sterilization equipment
- Cold Pasteurization
- Custom built per application

INDUSTRIAL PRODUCTS

- Teflon, Halar, Tefzel Applications and Powder Coating
- Nadcap Accredited. Robotic applications
- Aerospace, Industrial, Packaging, Food Service Coatings
- Applications to military and industrial certifications

- High hygienic quality 304 & 316 stainless steel, cable trays.
- Cable separation, cable clamp and cable lock trays need no cable ties.
- More effective wash downs, heat dissipation capabilities.
- Over \$2Million of US based inventory - Everett, WA
- Strongest stainless cable tray on the market

ROOF SUPPORT & SECURE SYSTEMS

- Minimally invasive, effective and economic securing for wind concerns.
- Each application custom designed to match roof system material.
- Designs available with P.E. Stamp, on request.
- Developed in Texas by a roofer.
- Integrates with roof system OEM's warranty

- Non-penetrating, polycarbonate bases - 20 year warranted
- Piping, duct, plumbing, unit supports, service platforms, crossovers.
- Custom systems designed to meet wind & seismic concerns.
- Engineered, P.E. Stamped designs and Delegated Designs, on request.

VENTILATION

- Commercial, industrial & institutional sheet metal duct
- York, PA & Wilson, NC manufacturing facilities
- Rectangular, round, spiral, oval, stainless, welded
- Complete takeoff and estimating services provided
- Specialty stainless and aluminum fabrications.

- Stationary/adjustable louvers.
- Dynamic and static fire dampers
- Air control dampers, backdraft dampers and shutters
- Roof curbs and penthouses

DIGITAL, CONTRACTING & INDUSTRIAL SERVICES

- Full service CAD, BIM, Shop drawings and 3D scanning services
- Based out of Schwenksville, PA
- Available for full coordination services.
- Estimates for projects available on request

- A leading provider of high-quality fabrication and equipment installation services to a broad range of industry-leading manufacturing, OEM and contracting organizations.
