Requires Salt	No	Yes	No
Monthly Maintenance	No	Yes	No
<i>Potential Savings</i>			
<i>per year for a family of four</i>	\$1,600.00	\$855.00	\$455.00
<sup>1</sup> A water softener removes hardness minerals from the water, replacing them with sodium, and is therefore somewhat more efficient at reducing scale buildup.			
<sup>2</sup> Some minerals, i.e., calcium, are reduced or removed.		NA = Not Applicable.
