Weather policy

These rules are in place every season and for every grade, while we do our best to let you know of changes that will impact either the games or training. Feel free to message you coach if you have any questions regarding this, just don't be surprised if you get a message saying wait until 4.30pm.

Winter Policy

If at anytime there is a storm predicted it will be up to Leadership to come to the right choice and if it is deemed to be unsafe players messages will be sent out no later than 5pm. However, we will remind players that we do play in the rain on game nights. Coaches will try and bring an umbrella to hide under where possible.

ENA wet weather policy complies as well, therefore if it is heavy rain/thunder/lighting all games are cancelled but that is made on the ENA's committee members who then will let each club know of the out by 4pm.

Hot Weather

Tuesday night training

When the temperature is 37 degrees training will be cancelled for juniors, when it comes to seniors the coaches will decide no later than 5pm and will do their best to get a message out in time.

Wednesday Night Competition

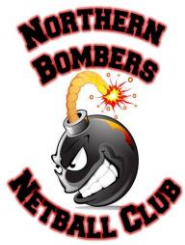

When temperature is 37 degrees or higher at 4pm all matches will be cancelled, however if it is between 34-36 degrees quarters will be reduced to 12 minutes. Drink brakes will also be allowed. The clock will not be stopped, and no coaching will be allowed in that time.

Friday Night Competition

When temperature is 37 degrees or higher at 4pm all matches will be cancelled, however if the weather is between 34-36 degrees matches will start 15mins later than normal E.g. 630pm will start at 645pm

Thank you
Bombers Committee
