

Addendum to the T.C.S.S.A Rules and Regulations Rules on Pool Players effective 12-13-2021

(Substitute players on standby)

TCSSA policy/rules require team managers having less the 15 players for any game to request one or more players from the POOL.

The TCSSA player pool contains:

- Players not assigned to a team.
- Players that cannot meet all of the seasons scheduled dates.
- All pool players must wear the TCSSA assigned shirts and hat at games.

The Pool Coordinator will be a member of the Board of Directors (impartial) and will assign players from a list only known by Board members that are not managers in the round robin style. This list will be scrambled in player ranking. Bill Schmidt will be the coordinator to contact.

Assignment of Pool Players. Note: (PL will be situated for pool player)

1- The manager knows of the need of a PL prior to a game day, must call the Pool Coordinator for a PL to fill the slot.

2- Managers are never allowed to call up a desired PL of his liking.

3- When several managers or more are in need to fill the required team maximum, the objective will be to balance the team's first starting with the next PL from the list.

4- If the manager or managers prior to the start of a game are short of players, then the pool coordinator may select a PL from the stands. Again, the selection will be the next PL from the list in hand.

5- When a PL is assigned, managers must follow the same rules set for team players.

6- When two opposing teams request a PL the PL coordinator will try to have both teams with equal number of players.

7- During the season the BOD may need adjustments to these rules.
