ABOUT US

We are Geoff & Cindy, a creative, artistic husband and wife team.

Geoff is typically behind the camera while Cindy directs the scene, helping to make minor adjustments to your wardrobe, hair and pose.

We bounce ideas off each other and help each other to create stunning images for you.

We're ALWAYS open to new ideas, new posing and trying new things and we want you to be as involved and interactive as you can, because this is YOUR session and we want to make it special and fun for YOU.

So, whether you are doing this for an anniversary, wedding present for your soon-to-be, Valentine's day gift for a special someone .. or just doing this for yourself, we promise you are going to have a blast, you're going to be blown away by your pictures and you'll walk out a more confident woman.

”

THANK YOU!

*I had so much fun
and I am glad I had
this opportunity. It
really showed me
that I can be
beautiful in my own
skin which is a big
struggle for most
women. I love the
shots you got and
some of the photos
were stunning.*

- GODDESS J.

THE *playful* GODDESS COLLECTION

Our boudoir photography, dubbed "The Playful Goddess Collection" is a private session held right here in our gorgeous portrait studio. Our loft studio is entirely yours to roam during your session, with a spacious private changing room and full length mirrors.

We welcome ALL
shapes and sizes.

We're here to prove that
EVERY woman is
beautiful,
just the way you are.

Are you a
Playful Goddess? ...

THE EXPERIENCE

From the moment you book your session to the moment you walk out with your album, our focus is all about you. We understand the nerves that go along with this type of photography, so rest assured that by your shoot day you'll be ready.

While planning your session we'll provide all the resources you need to be ready and guide you through choosing your wardrobe as well as tips you can do to enhance the images.

We highly suggest you schedule a hair and makeup appointment with your favorite salon the morning of your shoot. This is a special event, so treat it as such! We also have a few stylists we work with if you would prefer an unforgettable experience.

Worried you're not a model? Don't be! We'll pose you down to your fingertips and coach you throughout the entire shoot.

Finally, shortly after your session, when your images are edited and ready to view, we'll work on creating a one of a kind, insanely gorgeous album of YOU!

WHAT TO WEAR

Boudoir wardrobe doesn't always mean lingerie. We'll shoot multiple looks during your session, so you want to have a variety of looks to choose from. Wardrobe can range from a simple off the shoulder sweater, to more exotic lingerie, or nothing at all.

What you choose to wear or not wear should be a reflection of you. Don't be afraid to step outside your comfort zones because those images many times become the ones women love the most.

Don't forget this is another chance to pamper yourself. Go shopping and get something new, don't only bring what you've had sitting in the dresser forever.

Boudoir is a luxury experience and how your final images are displayed should reflect that same level of luxury.

HER STORY

GODDESS J.

A friend asked if I wanted to do a boudoir shoot with her. She was going to surprise her husband with the album as a welcome home gift; our husbands were deployed together, and 13 months is a long time apart, so this was the perfect welcome home gift. I thought it could be a fun experience and I'd get some sexy photos to give to my husband ...

I had recently lost some weight but haven't yet hit my goal. I was excited about picking the outfits but nervous about how I looked in them.

I was amazed at how comfortable I felt in such little clothing during the shoot! Seeing the pictures Geoff took and how beautiful I looked, gave me such confidence ...

Not only had I been losing weight, and was still getting comfortable with my new body, but about 6 months prior to the shoot I was diagnosed with thyroid cancer and had to have my thyroid surgically removed. To me, my scar was still very noticeable and made me self-conscious.

Once I realized it was a strong scar that proved I beat cancer, I wanted to capture the beauty behind it. Geoff took some beautiful pictures that allowed me to better embrace my scar and the reason behind its existence. I left the shoot with more confidence than I had upon arriving. I was pleased with how the photos turned out ... even raw and unedited. This experience made me see and feel my true beauty.

T I M E L I N E

1 THE BOOKING

First, book your photo session with us. You'll want to find a day you can set aside two to three hours. We can schedule during our regular hours and close the doors or, for added privacy, we can host a private session after hours.

2 THE SESSION

On the day of the session, you just have to show up and we'll take it from there. You'll have your own private changing room with full length mirrors and free range of the entire studio. Feel free to bring friends, food and drink. Make it a girls day!

3 THE PREMIERE

Shortly after, we'll have your images edited and ready to view. We can either host a premiere showing right here in our studio on our big screen tv and/or we can post the images to an online viewsite for you to see from the privacy of your home. This is where you would narrow down your selections for the album and order any additional printed art.

4 THE DELIVERY

Once you have selected your images, we do a deep, full retouch of the images and design the album. Once we have full approval of the album, we send it to print. When it's ready, we'll notify you to schedule a time to pick it up!

THE ALBUM

A perfect way to showcase YOU is with an 8x8 album. Both of our packages include this stunning album. It's the perfect size. Not too big, not too small. Your chosen images are printed directly onto the pages for a modern, luxurious look.

Shown here is the fabric wrapped album that comes with the 'playful' package. The 'goddess' package includes a photo wrapped around the front and back cover.

PRINTS, CANVAS & METAL

After investing in yourself to celebrate and capture your beauty, you deserve to be displayed in fine art. A framed print is a classic and timeless option for photography. Traditional canvases or the more modern metal print are a more contemporary way to showcase your images. Creating a custom piece of art that is a reflection of you is the ultimate way to celebrate who you are as a woman. Beautiful wall art pieces allow you the opportunity to create your own personal gallery wherever you may choose.

PHONE APP

Our 'goddess' package includes a phone app loaded with the fully retouched images printed in your album. Incredible photos of you are literally at your fingertips.

packages
