POOLS & WELLPOINT SERVICES

Covid 19 Measures

We are committed to protecting the health and safety of our workers and clients during these unprecedented times.

We take the safety of all our stakeholders seriously and follow industry-specific guidelines designed to keep our clients and workers safe to help reduce the risk of exposure to the corona-virus:

- **All of our employees are tested at regular intervals and we encourage workers to stay home if they are not feeling well.**
- **All our workers wear masks and visors to cover their nose and mouth to prevent them from spreading or contracting the virus.**
- **We Continue to use other normal control measures, including personal protective equipment (PPE), necessary to protect workers from other job hazards associated with construction activities.**
- **We encourage our workers to follow strict social distancing protocols and avoid physical contact with others and direct employees/contractors/visitors to increase personal space to at least 1.5M, where possible.**
- **Staff are continuously trained on how to properly put on, use/wear, and take off protective clothing and equipment.**
- **We Promote personal hygiene, by providing alcohol-based hand sanitizers containing at least 60 percent alcohol.**
- **To the extent tools or equipment must be shared, workers use alcohol based wipes to clean tools before and after use.**
- **Keep in-person meetings (including toolbox talks and safety meetings) as short as possible, limit the number of workers in attendance, and use social distancing practices.**
- **We Encourage workers to report any safety and health concerns.**
