zona receptie & holuri

zona scara & lifturi sc. 1:100

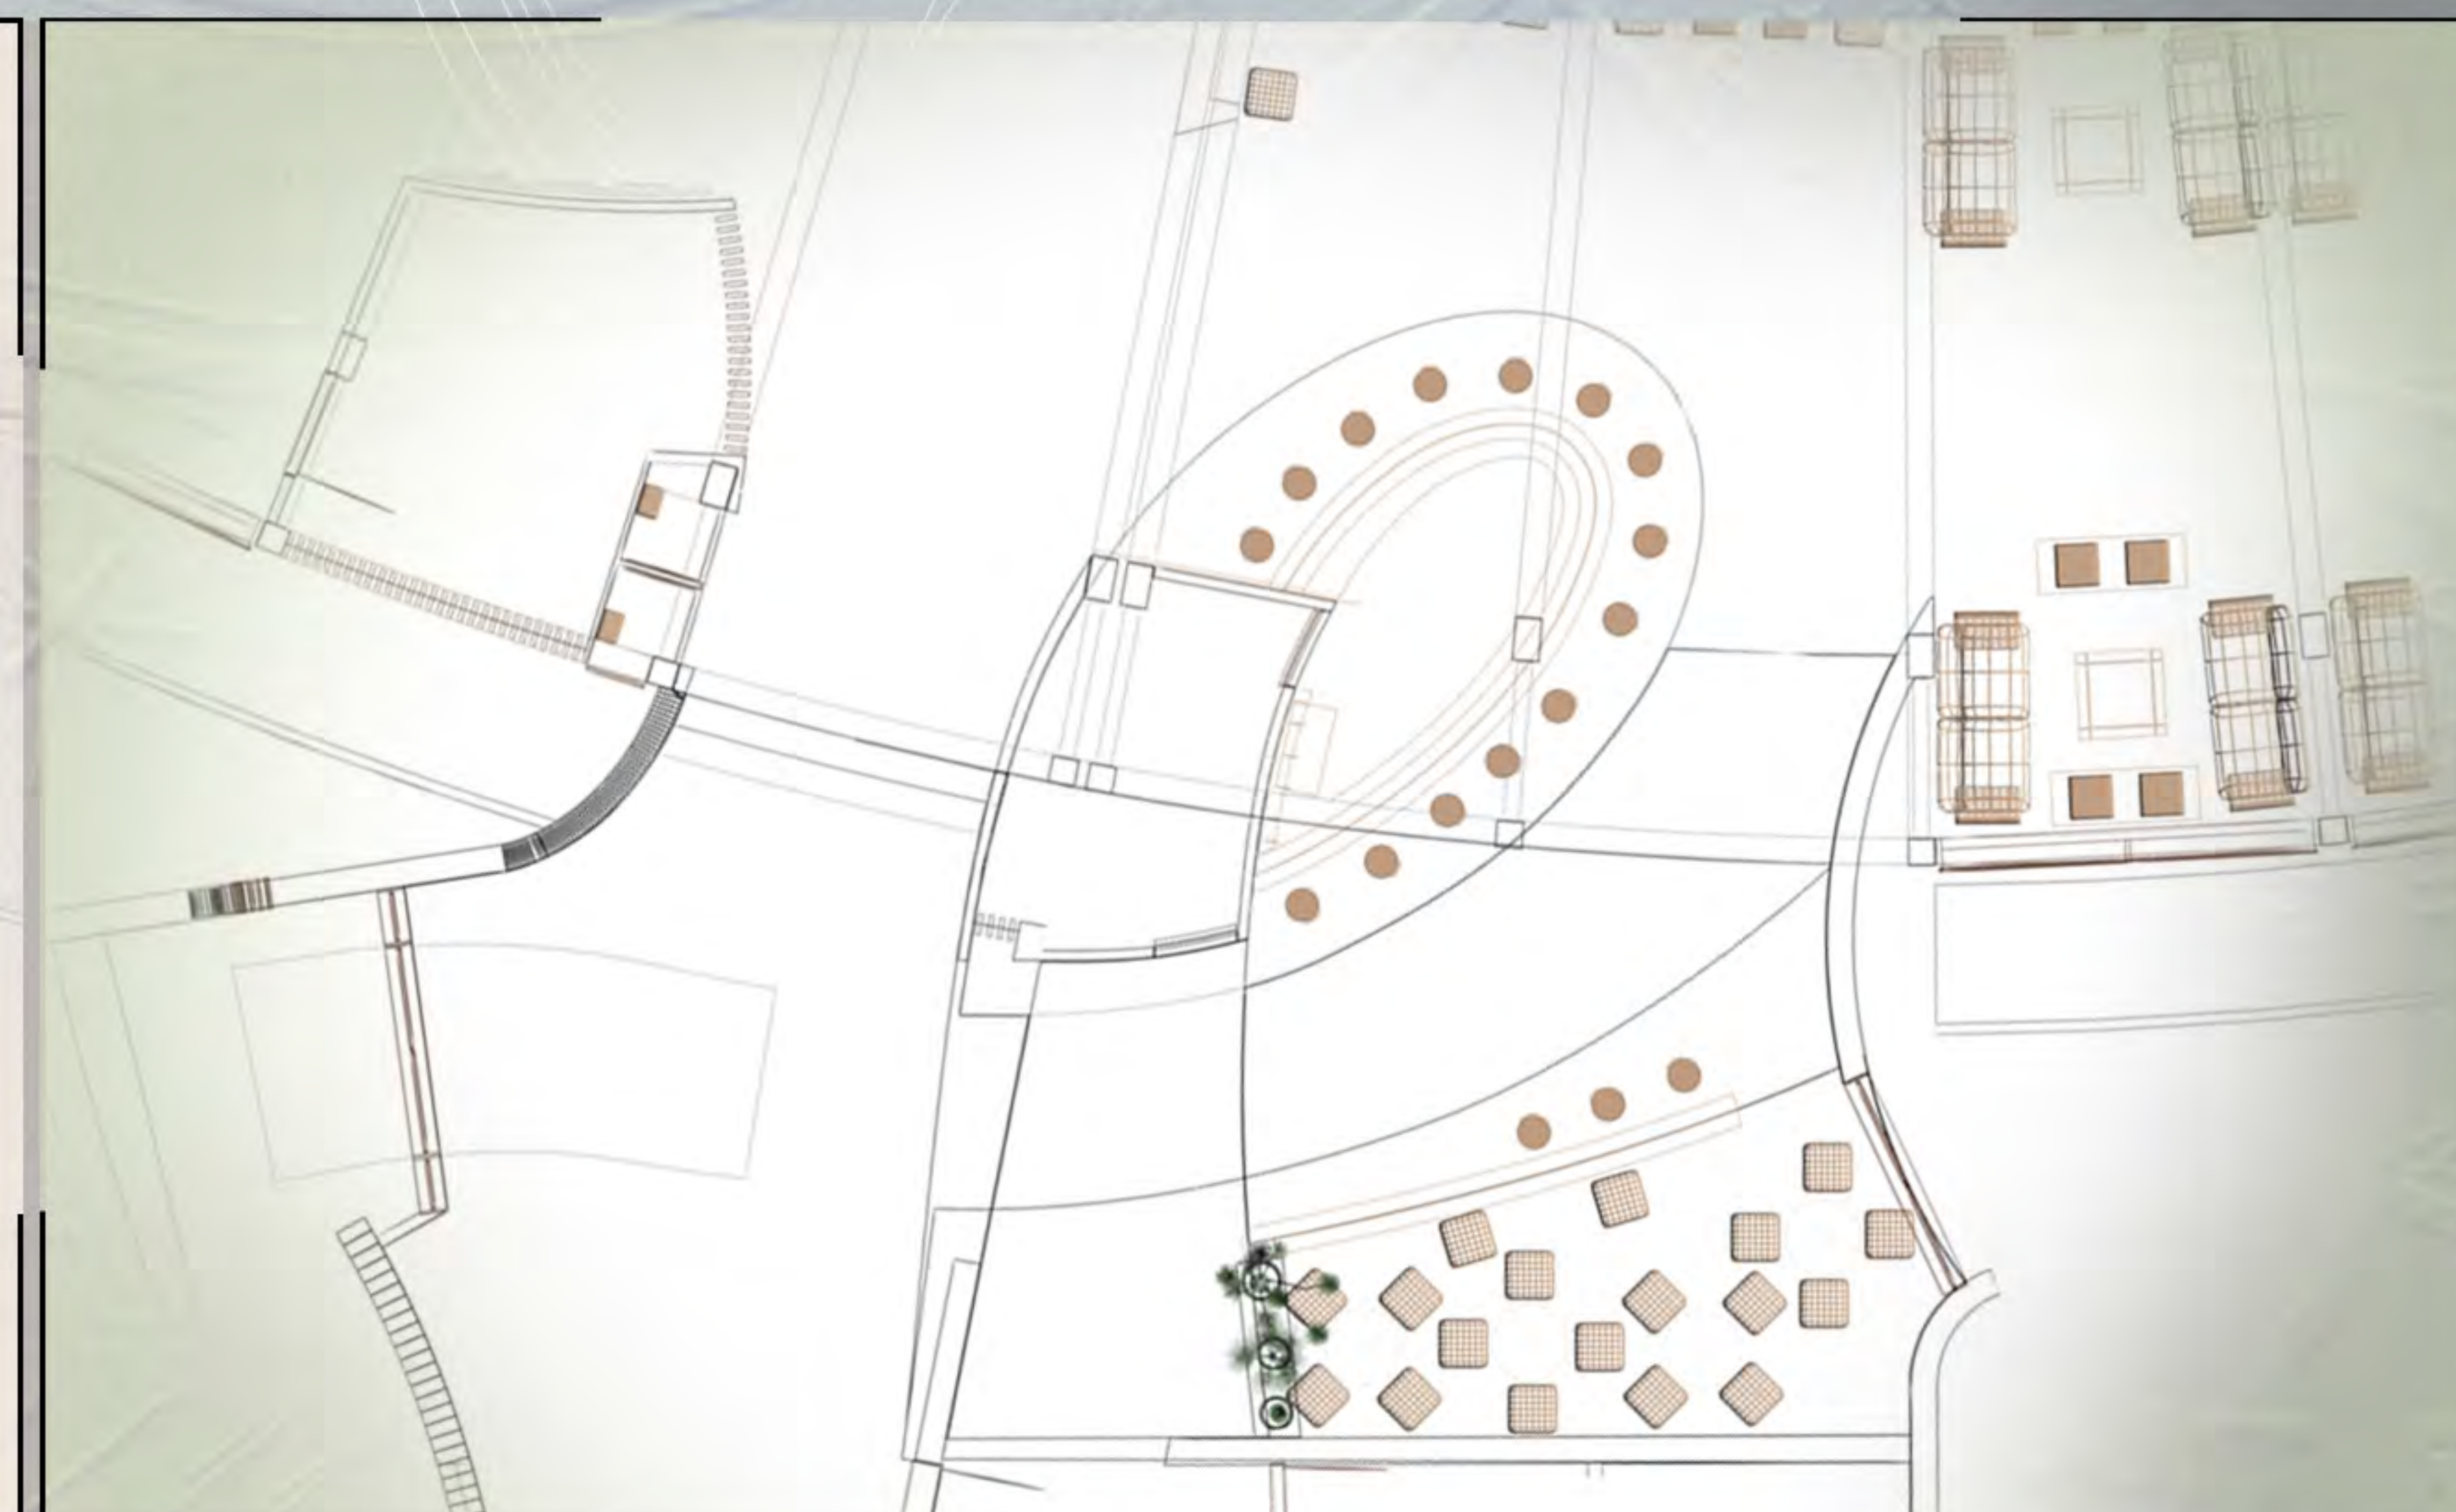

parter sc. 1:200 (partial)

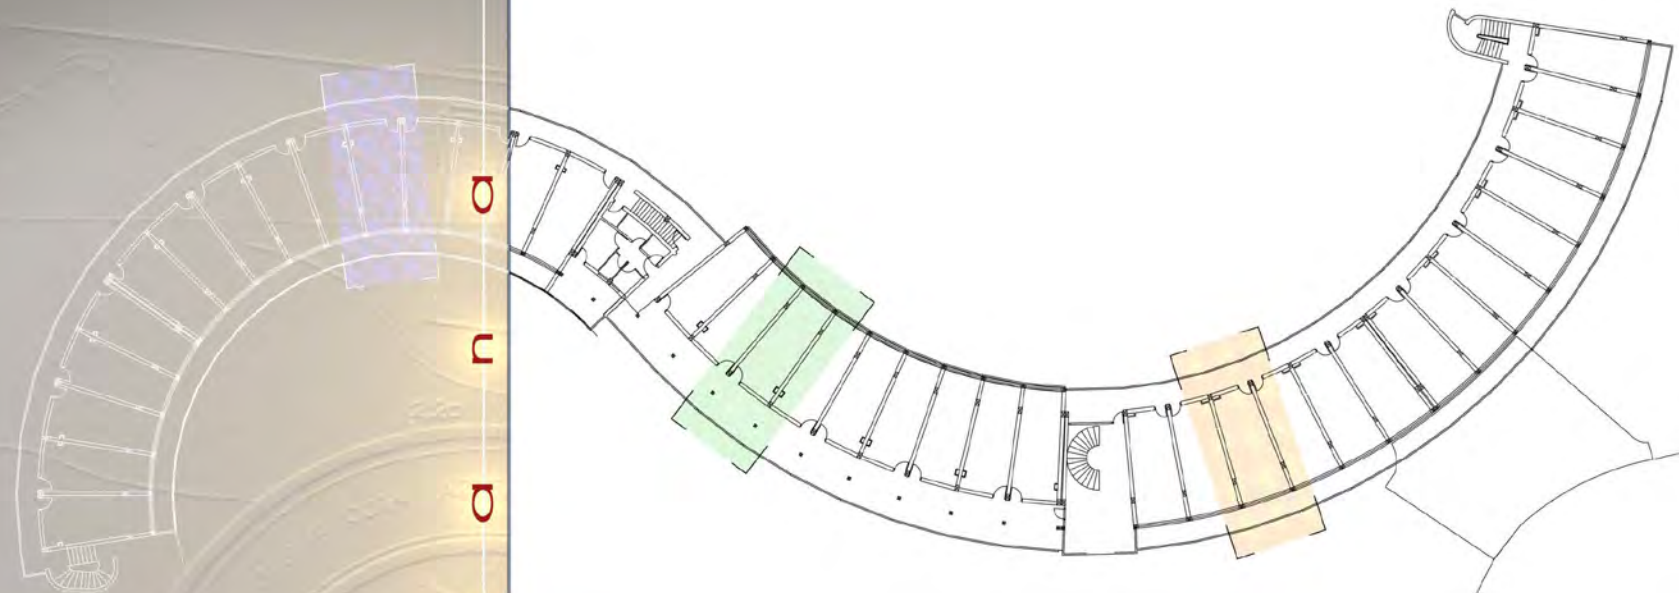

zona bar & holuri (secundar & asteptare) sc. 1:100

* zona accesului principal (podest primire + copertina - vezi perspective) impreuna cu receptia realizeaza un element polarizator care - prin forma + iluminare & finisaje - se extinde si guverneaza (de la evident catre subtil) in intreaga zona studiata.

* zona nodurilor principale de circulatie verticala primeste in vecinatatea scarii semi-elicoideale 2 ascensoare panoramice si modificari (structurale - formale) ale podestului comun si treptelor de acces (+ lift special pt. handicapati - peretele comun cu incinta pt. bagaje din zona receptiei)

* zona de receptie cu cea de hol asteptare (reorganizata) si cea a holului secundar sunt conectate de zona de bar & mese cafenea - care se constituie astfel ca un element de filtru si deschidere a spatiilor adiacente)

camere tip

HOTEL

etaj 1 & 2

camera tip A (tronson 1 & 2) sc. 1:100

camera tip B (tronson 3) sc. 1:100

camera tip C (tronson 4) sc. 1:100

plan etaj 1/2 sc. 1:250

* camera de tip A (tronson 1 & 2) beneficiaza o extindere de 1.5 m spre fatada spate (spre mare) + balcon de 1.5m adancime.

* camera de tip B (tronson 3) este extinsa atat cu 1.5 m lungime in camera (pe directia fatadei de la strada acces) cat si un spatiu (separeu) de aceeasi adancime cu orientare catre mare si piscina (pe fatada opusa)

* camera de tip C (tronson 4) capata o extindere de 1.5 m + 1.5m balcon pe aceeasi directie - fatada spate (similar cu camera tip A, doar ca extinderea se produce pe latura ingusta)

apartamente

HOTEL

etaj 3

plan etaj sc. 1:250

* apartamentul mare are la baza 3 module de camera tip B (tronsoan 3) extinse cu o travee de 1.5m + balcon (terasa - 1.5m adancime) (catre zona piscina & mare)

* apartamentul mic grupeaza 2 module de camera tip A (tronsoan 1 & 2) extinse cu o travee de 1.5m + balcon (terasa - 1.5m adancime) (catre zona piscina & mare)
