

FOCUS ON LAWYERING

STAY TRUE TO YOUR FOCUS

We help you focus on the practice
of law by taking care of the rest,
providing you with the professional
support you need to grow your
legal business.

WE ARE

A company that provides professional support to start-up, small and medium-sized law firms. We give you access to the level of professional support formerly only available to larger firms. Our prices are competitive and our service is bespoke, with a personal touch rarely found elsewhere.

Our team comprises former Magic Circle lawyers, support professionals, paralegals and non-practising freelancers. Our fees are fixed. You will always know how much our services cost before we start any project for you.

This means that you can now call upon experienced lawyers and support professionals to assist you at a price that is surprisingly affordable. We are responsive to your needs, with fast project turnaround and quality par excellence.

SERVICES

Legal Writing & Ghostwriting

Bespoke Projects

WITH YOU

We take pride in providing the best service we can to every client, as shown by the testimonials on our website.

Whilst we aim to offer all the support services that a growing and ambitious law firm would need, we can also call upon our partner businesses and network of contacts to provide any services that fall outside our remit.

In addition to the services we offer, we can recommend providers of services such as law firm coaching, legal and regulatory compliance (including COLP and COFA services), legal cashiering, legal technology and marketing support.
