

## Introducing Mobile Hope

### A New Community Outreach Project

Mobile Hope is a newly launched outreach project created to bring hope directly to people—community by community. This mobile mission provides hot coffee, fresh meals, and genuine human connection to individuals in need, meeting people where they are with dignity and care.

As we begin this project, support helps establish our first community stops, cover food and fuel costs, and build a sustainable foundation for ongoing outreach.

### Ways to Get Involved

- Donate to help launch and sustain Mobile Hope
- Sponsor an early community stop
- Volunteer or partner as a church, business, or organization
- Share this mission with others
