**Certified Buildings:** require proper anchors to meet wind load requirements as per your local building code, Anchors are not included, but are available for an additional cost, ask your local dealer for more details.

**DISCLAIMER:**  
Land must be leveled before installation

**NOTE:** frame work is 1' shorter than roof length on ALL styles (ex. 21' length becomes 20' long on frame work). We highly recommend the Vertical Roof Option (available on a-frame style buildings only)

### IMPORTANT:

- An Extra Frame Bow is required for any Frame Opening larger than 4ft wide and for EACH Roll Up Door or Overhead Door installed on the side of the building.
- All prices in this literature are solely meant for Risk Category I, if a Risk Category II is needed, a 10% of the Subtotal must be added as an additional cost to achieve this Category.
- INSTALL LEAD TIMES: For customers who are getting a permit (including engineering), getting foundation or groundwork done, the lead time on these cases will start once the permitting and surface is ready.

### Things You Should Know

- ✓ Prices are subject to change Without Notice.
- ✓ Quality Carports is not responsible for impenetrable rocky soil (rocky soil anchors available upon request).
- ✓ We highly recommend the vertical roof option on buildings longer than 36', which is available for an extra cost on a-frame style buildings only.
- ✓ Return service fee of \$150 if order is less than \$1,000.
- ✓ \$250 Return service fee for gable end addition.
- ✓ If ordering (1) garage door: bldg. height must be 1' taller than garage door.
- ✓ If ordering (2) garage doors on the same end: bldg. height must be 2' taller than garage door.
- ✓ Frame work is 1' shorter than the length of the roof (ex. 21' Length becomes 20' long on frame work).
