Time of Incident: _____ IC _____

Level of Alarm _____ Report to I/C & PASSPORT In _____

Incident Information

Action Plan	OFFENSIVE	MARGINAL	DEFENSIVE
Significant Incident Events	Rescue(s)	Flashover	Backdraft
	Master Streams How Long Operating	Primary Search Secondary Search	Collapse
		Ventilation	Forcible Entry
Primary Functions	Complete 360 size-up	Evaluate & remove imminent hazards	Advise IC of potential hazards
			Evaluate assignments & effectiveness

Construction Information		
Dimensions:		
Stories:		Basement: Y / N
Lightweight / Truss	Wood Frame	Ordinary
Noncombustible	Fire Resistive	Installed Systems
Collapse Potential Evaluation		
Likely	Questionable	Unlikely
EVALUATE THE POSITIONS OF COLLAPSE DANGER ZONE (HEIGHT + 1/2)		
<input type="checkbox"/> Structural degradation	<input type="checkbox"/> Excessive loads	<input type="checkbox"/> Water applied
Utilities		
Gas	Electric	Water
Incident Termination Activities		
CO Monitoring <i>Issue all clear from SCBA</i>	RIT Demobilized <i>All companies advised</i>	Debrief with IC

Operations Evaluation	
Flashover / Backdraft potential	
Traffic control	
Smoke evaluation (color, velocity)	
% of building involved in fire	
Estimate of required water flow	
Ladders to upper floors for escape	
Exposures protected	
Tactical assignments effective	
Overall PPE use	
Slip/fall hazards	
Communications within span of control	
Accountability system usage	
Environmental conditions	
Rehab & EMS on standby	
Operational benchmarks completed
