

Divisional Exercise Final Planning Meeting

May 17, 2021

Operation Great Lakes 2021

Exercise Scenario

- ▶ *A multi-phased complex coordinated attack targeted a Lake Michigan cruise ship operating within the shores of Chicago Illinois. An IAD detonated on board the cruise ship while it was returning from a lunch cruise. Numerous passengers were injured from the initial blast which left the cruise liner powerless on Lake Michigan. The initial response of Chicago Fire Department was quickly overwhelming as they attacked onboard fire suppression and evacuated passengers. As a result, CFD - MABAS Division 9 requested a MABAS response for watercraft resources to assist in passenger evacuation.*
