

# **MABAS DIVISION 2 SPECIAL TEAMS FIELD OPERATIONS GUIDE**

**EFFECTIVE 02/01/10**

## **Introduction**

**It is the goal of the MABAS Division 2 Field Operating Guides (FOG) to provide a consistent division template for all levels of response to effectively work together in preparation, response, and recovery from local incidents. The FOG manuals provide a foundation of concepts, principles, terminology, and organization that when used properly enables the effective management of any type of incident, natural or manmade, accidental or acts of terror.**

**The focus of the FOG manuals is to provide some basic prompts and reminders of tasks and positions within the ICS and NIMS that should be considered. These manuals provide a set of standardized organizational structures to increase interoperability among responders from various disciplines and jurisdictions while allowing for maximum flexibility by providing an adjustable foundation based upon the needs of the host agency. The incident commander may make specific adjustments to the FOG manuals to suit the jurisdiction and meet the incident needs.**
