

Embedded Conceptors

COMPANY PROFILE

Embedded Conceptors, a growing company, is specialized in Electro-Mechanical Design, Fabrication & Integration. We support the development of innovative products, deliver high-quality services and render high-performance embedded computing solutions to the various target-markets.

We offer full range of intelligent systems including Mini PCs, industrial panel PCs, and multi-touch displays, customized solutions catering for the different markets like Automation, Digital Signage, Machinery & Robotics, Railways, Medical, Automotive and Defense.

Our Product portfolio includes Electro-Mechanical Connectors, Fiber Optic Solutions, Cables, Cable Assemblies, Motherboards, SBCs, Backplane Solutions (VME, VXS, VPX, cPCI, MTCA & ATCA), Ind/ Mil Grade Monitors, Rackmount PCs, Box PCs, Panel PCs, Customized Racks, Test jigs, Cabinets, Consoles, SS, MS and Aluminum Sheets of different grades, etc.

Connectors

Fiber Optic Solutions (Adapters, Terminal Box, Attenuator, Fiber Optic Cables, Patch Cable and Splitters etc.)

RF BNC Adaptors & CO-axial Cables

Wire Harness & Cable Assembly Services

Embedded & Networking Boards

Intel Atom, Pentium, Celeron, Xeon & Latest Generation Core™ U Series Processor Boards

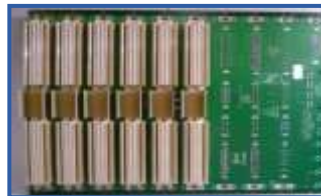

ARM Based SBCs

Pico ITX, Mini-ITX, ATX, Micro-ATX, 3.5" SBCs, etc.

Wide-Range Operating Temperature

Rich I/O Interfaces

VME, VXS, VPX, cPCI, MTCA & ATCA Backplanes & Associated Systems

Rack Mount Solutions & Compact Embedded Systems

Industrial Monitors & Panel PCs

Solutions with Intel® Atom, Celeron & Core™ U-Series

Different display sizes & touch type like Resistive, Capacitive etc.

Flat bezel & Fanless Design

Low power consumption

Support Linux, Windows & Android OS

EN50155 Certified for Railways

EN60601 Certified for Medical Application

BIS Certified Systems

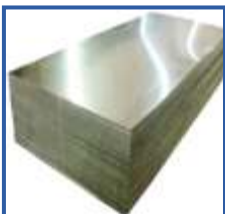

Customized Solutions

SS, MS and Aluminum Sheets of different grades

SS 304, SS316 and MS Pipes

Customized Fabrication Services
