New Yorkers are boosting their home values by an average of \$23,989

Our solar marketplace has helped thousands of homeowners calculate their potential solar savings and according to a recent Zillow report<sup>1</sup>, solar-powered homes in the New York City metropolitan area increased their property value by \$23,989.

Our solar experts are here to help you get the most out of your home:

- We'll design a solar system to meet your home's energy needs
- Get connected to a trusted local installer
- Maximize your savings throughout the project
