STEM ADVENTURES BUILD & DISCOVER

Explore & Create

Ignite your imagination and curiosity with our brand-new after school program! This isn't just a "building club"—it's a high-energy journey through the worlds of Science, Technology, Engineering, and Math. Each week, students embark on a new "hands-on" mission, designing incredible structures and conducting experiments. From engineering mega-structures to producing digital movie magic, each week is a truly unforgettable experience!

Weekly Highlights

- 🏗️ MEGA-STRUCTURE CHALLENGE
- 🌋 EPIC SCIENCE ERUPTIONS
- 🎢 MARBLE ROLLER COASTERS
- 🎬 FX MOVIE CREATIONS
- 🏙️ ULTIMATE LEGO CITIES
- 🎁 WEEKLY MYSTERY SURPRISE

THURSDAY AFTER SCHOOL PROGRAM

April 30 - June 11

3:10PM - 4:10PM

Grades: 6-8 \$168+HST

REGISTER NOW

VIDEO GAME DESIGN & CODING

Step into the shoes of a creator and transition from gamer to game developer! This high-energy program challenges students to design and code up to four unique, fully playable video games! Throughout this creative journey, students master digital world-building, program custom characters, and levels with "cheat codes" and high-score boards. At the end of the program, every student takes home their library of creations on a brand new USB key!

Weekly Highlights

-  CHARACTER CREATOR
-  2D WORLD BUILDING
-  LEVEL DESIGN CHALLENGES
-  CODE CUSTOMISATION
-  BETA TESTING LAB
-  THE GRAND FINALE
