SPRING

LUNCHTIME PROGRAMS

REGISTER NOW

MONDAY

6 CLASSES

APRIL 27 - JUNE 8

GRADES: 1-3 & 4-6

FUN WITH SCIENCE & ENGINEERING

Get ready to explode with curiosity through live demonstrations and hands-on experiments like volcano eruptions, lava lamps, and fizz inflators! Students will design custom LEGO creations and tackle high-energy engineering challenges, from tower building contests to the ultimate tin foil marble boat challenge. It's a one-of-a-kind experience packed with several science experiments, exciting team-building challenges, and educational exploration!

TUESDAY

7 CLASSES

APRIL 28 - JUNE 9

GRADES: 1-3 & 4-6

HD TOY ANIMATION "MOVIE & TRAILER"

Bring your favourite toys and action figures to life as you direct your own cinematic masterpiece! Using our massive collection of characters, students master the art of storytelling and stop-motion technology while adding custom voices, music, and special effects. Best of all, every student will receive their finished movie projects to take home on a brand-new USB key!

WEDNESDAY

7 CLASSES

APRIL 29 - JUNE 10

GRADES: 1-3 & 4-6

SPHERO ROBOTICS & CODING

Explore the limitless possibilities of robotics with over 5 different Sphero Robots, including BOLT, INDI, OLLIE, and R2-D2! New and returning students will use the Lighting Lab, Sphero INDI, and Sphero Play apps to tackle incredible challenges like the Mega-Obstacle Course, Robot Soccer, Golf, and an exciting new Battle Bot robotics activity. From basic commands to advanced coding, this high-energy program is an exclusive lunchtime adventure!

THURSDAY

7 CLASSES

APRIL 30 - JUNE 11

GRADES: 1-3 & 4-6

ULTIMATE MOVIE MAKING 101

Experience the ultimate multimedia adventure! Direct, star in, and edit three unbelievable projects! Students will act in their own "Special Effects & Superpowers" feature film, create a Mega Photo Slideshow, and produce a professional movie trailer. Using specialized apps, students take centre stage around the school to bring the "WOW" factor to their own cinematic starring roles.

FRIDAY

6 CLASSES

MAY 1 - JUNE 12

GRADES: 1-3 & 4-6

POTTERY & PAINTING CREATIONS

Students will explore their imagination by hand-building 6 unique pottery projects! Become a master pottery maker! You'll learn cool sculpting and painting tricks to detail and polish your very own gallery of pottery treasures. Best of all, you get to take your whole collection home in bubble wrap to show off to your friends and family!

SPRING LUNCHTIME PROGRAMS FOR JK & SK

REGISTER NOW

MONDAY
APRIL 27 - JUNE 8
6 CLASSES

STEM ADVENTURES "BUILD & DISCOVER"

Ignite your curiosity each week with exciting engineering challenges and hands-on science! From building LEGO skyscrapers and marble roller coasters to creating fizzing volcanoes and special effects movies, students will explore STEM through unique take-home projects and weekly surprises. It's an unforgettable opportunity for little innovators to build, discover, and create!

THURSDAY
APRIL 30 - JUNE 11
7 CLASSES

LEGO ANIMATION "MOVIE & TRAILER"

Put your imagination to the test by building LEGO stories and bringing them to life with HD cameras and stop-motion technology! Young animators will edit their films with music, titles, and voiceovers, and even create a professional movie trailer. Every student takes home their cinematic masterpieces on a brand new USB key!

WEDNESDAY
APRIL 29 - JUNE 10
7 CLASSES

SPHERO ROBOTICS & CODING

Perfect for new and returning coders, this high-energy adventure features an impressive fleet of robots including Sphero INDY, BOLT, SPRK+, and the trick-defying Ollie & Darkside! Students master logic-based puzzles and obstacle courses using intuitive apps. It's a fun, non-competitive environment built to boost confidence and spark a lifelong curiosity for STEM!

FRIDAY
MAY 1 - JUNE 12
6 CLASSES

POTTERY & PAINTING CREATIONS

Students will explore their imagination by hand-building 5 unique pottery projects, while learning fun clay sculpting and painting techniques along the way! This high-sensory program encourages little artists to get messy and build artistic confidence through tactile play. At the end of the session, each student takes home all their finished treasures safely wrapped in bubble wrap!
