HD LEGO ANIMATION
MOVIE & TRAILER CREATIONS

This program puts student's imaginations to the test! Working solo or with a partner, students will create a story out of LEGO and learn how to use HD cameras, and stop motion technology, to bring their LEGO creations to life! Then the students will move on to the editing process, where they get to add titles, sub-titles, credits, music and their own voice recordings, to truly bring out the WOW factor! After their LEGO movie is complete, they will also create a high quality movie trailer of their LEGO animation movie. At the end of the program each student will receive both projects to take home on a BRAND NEW USB KEY!

Weekly Action Highlights

- Storyboarding & Set Building
- Stop-Motion Mastery
- Lego Cinematic Stunts
- Voiceover Studio
- Digital Editing
- The Movie Trailer
