

Construction of upgrades and improvements to Landis Sewerage Authority for the Little Robin Sanitary Sewage Pump Station Upgrades at 315 N. Mill Rd., Vineland, NJ for \$1,050,000 were financed by the New Jersey Water Bank (NJWB). The NJWB is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Infrastructure Bank (NJIB) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the NJIB to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will provide water quality benefits by rehabilitating and replacing several key components of the pump station to ensure its operation for residents and businesses in Vineland, NJ particular those along Mill Road, surrounding neighborhoods, and in the City's Industrial Park.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
