<b>Free Play</b>	Free Play is a very important part of your child's daily routine. This is the time when children choose their own activities and interact with their classmates. A lot of social development occurs as children discover the ins-and-outs of sharing, who has the same interests as them, and how to verbalize their wants in a manner that is most effective in getting those needs met.
<b>Circle Time</b>	Circle Time is when the children will learn good listening and observation skills. They will also learn about respect for those talking, turn taking, and patience. During Circle Time, children will sing songs, be introduced to letters and numbers, and learn about the various themes we will study. Little People's Preschool will try to provide children with as many different opportunities as possible to learn educational concepts. We plan to explore math, language arts, fine arts (drama, drawing, and painting), science, physical education, health and well being to name a few.
<b>Gym Time</b>	Gym time aids in the development and improvement of gross motor skills. The students play games, explore the gym equipment, practice listening, following directions and taking turns.
<b>Library Time</b>	Library time offers a new location of learning within the school community. We will at times visit the school library for story time.
<b>Snack Time</b>	Snack time provides the opportunity for children to practice their table manners and for social interaction in a relaxed atmosphere. <ul style="list-style-type: none"> <li>• <b><i>Please be sure to only send 1 or 2 items AND a leak proof water bottle <u>(no juice boxes)</u></i></b></li> </ul>
<b>Table Time/ Craft Time</b>	Table time is when the students work on building their fine motor skills. Activities include: <ul style="list-style-type: none"> <li>• Table Top Toys</li> <li>• Pre-printing</li> <li>• Scissor skills</li> <li>• Puzzles</li> <li>• crafts</li> </ul>
<b>Star Student</b>	Star Student is the perfect opportunity for students to take center stage. This is a special time for students that they enjoy very much. A child's self-expression, as well as their social awareness are awakened during this time. Star Student also offers the student audience the opportunity to formulate questions about the Star Student's likes or dislikes or to give compliments to the Star of the day. <i>A schedule for Star Student will be posted monthly on class Dojo. (there is no star student in the months of September, December and June)</i>
