

Adding Value Production Sale

Angus, Braunvieh, and Simmental Cattle

Friday, April 26, 2024 • 5 p.m. EST
Athens Stockyards
Athens, TN

THE 7th ANNUAL ADDING VALUE SALE

To our Cattlemen Friends,

Welcome to this year's Adding Value Production Sale. To our longtime customers and friends, thank you for your continued support. We greatly appreciate hearing from past customers about how our genetics have influenced their programs and are so glad you are looking to add more. For those who have not purchased before, or are new to the Adding Value Sale offering, we are ecstatic that you are interested. If you're studying our programs, come to the sale, evaluate the cattle, and make your decision about what our genetics can do for you.

The quality of cattle in this sale will certainly make it worth your time to examine them online or in person, and then put your bids in on sale day.

Cattle will be displayed at the sale barn beginning Thursday afternoon. This will be a good time to get in the pens and evaluate the offering before the sale day crowd arrives.

- You can bid online through www.LiveAuctions.TV
- You can join our conference call to bid over the phone.
- Contact any of the consignors for assistance with buying.

The Adding Value Sale Consignors have set a quality standard to bring you superior cattle for both the purebred and commercial cattlemen. With industry input cost escalating, few traits are more important than efficiency, fertility, and growth. We feel this offering embodies these traits and will add value to your herd.

Join us April 26th for a complimentary pre-sale dinner prior to the auction. We look forward to sharing a conversation about our cattle with you.

Thank you,
The Adding Value Consignors

Friday
April 26, 2024
5 p.m. EST

Athens Stockyard
723 County Road 225
Athens, TN

From Chattanooga:

- Take I-75 North to Mr. Verd Road, Exit #52, turn left

Online Bidding Details

The sale will be broadcast live online at www.LiveAuctions.tv. For assistance please call Brooklyn Graham (812) 530-0748

Sale Day Conference Line for Bidding

We encourage everyone possible to use the Online Bidding Service. However, if you don't have adequate internet service for bidding you may call the conference call line to listen to the auction and place bids. **Please call Julie at (785) 313-2328 at least 1 hour prior to the sale** to register to bid and obtain the conference call phone number, access code, and a buyer number. The conference call line will open 10 minutes prior to the sale start and remain open during the entire sale, as long as there are bidders on the call.

Sale Accommodations

Comfort Inn (423) 252-8030
Holiday Inn Express (423) 649-0003
Fairfield Inn & Suites (423) 507-0870
Hampton Inn (423) 745-2345

Auctioneer

Carroll T. Cannon (229) 881-0721

Terms & Conditions

Terms of the sale are cash or check (payable to 4 Spigot Marketing) with proper I.D., and settlement must be made sale day and/or before anything is loaded or leaves the sale facility. Every lot will be sold to the highest bidder, with the auctioneer settling any bidding disputes. Announced changes in catalog information sale day will take precedence over printed material in the catalog.

Absentee Bids

If you wish to make purchases but are unable to attend this sale, please contact one of the consignors.

EPDS and Supplemental Information

All cattle data, EPDs, and supplemental information was current at the time of catalog printing. Ratios of WW and YW are from contemporary groups within the respective breed associations. It is inappropriate to compare ratios of bulls from different consignors because of differences in management and environment. Feed conversion ratios represent all sale bulls for the 2023-2024 trial, during the time for which the test was conducted. Additional information will be provided as a supplement available sale day.

Insurance

All animals become the property of the purchaser and will be at purchaser's risk at the time of sale. Insurance will be available should buyers wish to purchase it.

Registrations

A certificate of registry and transfer will be furnished for each animal at no cost to the buyer within 45 days after settlement of animals purchased.

Health

All cattle will have proper health certificates for shipment. If your state requires TB tests, please contact individual consignors prior to sale regarding testing.

Liability

All persons attending this sale and related functions do so at their own risk. The sale consignors and Athens Stockyard assume no liability, legal or otherwise, for any accidents or illness that may occur.

Guarantees

All bulls have passed breeding soundness examinations. All bulls sold herein are guaranteed to be breeders. Replacement, credit, or refunds, will be offered by bull seller if bulls are certified by a licensed veterinarian to be sterile. Physical damage incurred by bull(s) subsequent to the sale are not covered. The cattle sold in the sale are guaranteed to be free of genetic defects as outlined in the Braunvieh Association of American and the American Angus Association Approved Sale Rules and Regulations, or duly noted by lot number.

Trucking

Delivery cost guaranteed to be performed at lowest cost. All cattle must leave the facility by noon, Saturday April 27th.

Carcass EPDs and % Ranks

CW: Carcass Weight
 MARB: Marbling
 REA: Ribeye Area

Performance Info & EPDs

- Calving Ease Direct (CED):** A higher CED EPD predicts a sire that will have a higher percentage of unassisted calves.
- Birth Weight (BW):** Compares the differences in the weight of calves at birth. It is measured in pounds, and cattle with higher BW EPDs are predicted to produce heavier calves.
- Weaning Weight (WW):** The WW EPD is expressed in pounds and predicts differences in weaning weight of a sire's calves. Bulls with higher WW EPDs predict heavier calves across the scale at weaning.
- Yearling Weight (YW):** Just like WW, only at the next stage of life. The YW EPD is expressed in pounds. Higher YW EPDs are likely to produce heavier yearlings
- Milk (MK):** The hardest trait to measure, since we don't measure milk production in beef cows. The MK EPD is measured in pounds of calf weaning weight due to his mother's milking ability. A higher MK EPD predicts that a bull will sire daughters who raise heavier calves due to their milk production.
- Total Maternal (TM):** Total Maternal EPD is a simple formula. TM= MK EPD + ½ WW EPD. It measures impact on calf weaning weight due to both milk production and the cow's genetics for growth. Bulls with a higher TM EPD should sire daughters with a bigger impact on their calves' weaning weight.
- Calving Ease Maternal (CEM):** Measures the ability of a bull's daughters to calve unassisted as two year olds. The higher the CEM EPD, the easier calving should be when a bull's daughters have that first calf.
- Carcass Weight (CW):** The CW EPD is all about pounds of beef on the rail. Higher CW EPDs mean that a bull is more likely to sire feeders with heavier carcass weights.
- Ribeye Area (REA):** REA is measuring the size of the muscle that gives us the ribeye in square inches. Higher REA EPDs indicate a bull is expected to produce larger ribeyes in their offspring.
- Marbling (MB):** The MB EPD is in units of percentage of intramuscular fat within the ribeye. Higher MB EPD bulls should sire higher marbling (and grading) feeder calves.
- All Purpose Index (API):** Evaluates sires for use on the entire cow herd (bred to both first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold in quality-based marketing scenarios. Combines traits of importance for both maternal characteristics, as well as traits of importance in the fed cattle market. Commercial customers who raise their own replacement heifers should consider API as their index of choice.

OFFERED BY: JERNIGAN FARMS

This bull checks a lot of boxes for a Fullblood herdsire. L301 posted an actual birthweight of 68 lbs. on a short 280 day gestation with solid weaning and scan data. There is power in the blood as he is an own son of our long time donor RS 113H which was the foundation of our Helga tribe. L301 is a maternal brother to JF Bond H007 who has done a tremendous job for JN Braunvieh in Wyoming and is now being sampled nationally.

If you are looking for a bull that will add pounds to your calf crop, look no further. L303 weaned off an actual 808lbs and was over 1250 lbs. at yearling. Sired by XC Bar's Calgary 71D out of a JF Gage L103 dam, L303 is a nearly complete outcross polled herdsire that follows in a long line of high performance cattle produced by his dam, JF Helga A304.

OFFERED BY: JERNIGAN FARMS

This powerful, high growth open heifer is the best heifer born on the place in 2023. She represents so much of what we strive to produce in our breeding program. L307 is the result of stacked cow families being the own daughter of the Bethli son Tennessee and a product of our Chispita cow family. Bethli was considered by many as the greatest cow imported to North America from Switzerland. The Chispita/Madonna cow family was chosen by Golden Link in Mexico to anchor an infusion of outcross genetics into their storied herd. L307 is not just a paper princess, she has the look, power and performance to match her pedigree.

OFFERED BY: JAY H FARMS

The genetics are here on this fullblood Braunvieh and the look is too. Her mom has raised many heifers for me that have done well in the show ring. Almost all my show calves are from her sire, and one recently just won a National Show. Sells heavy bred to Angus bull, Reg # 20023479 – AML Turning Point 024, due to calve early May 2024.

BRAUNVIEH

Heterosis

Profitable

Maternal

Braunvieh is a versatile breed that improves growth, maternal abilities, feed efficiency, and performance on the rail. The breed specializes most in the heterosis aspect of crossbreeding, which allows the addition of bone, structural development, and hybrid vigor to any purebred or commercial herd. This breed is docile and easy to get along with.
