

# Adding Value Production Sale

Angus, Braunvieh, and Simmental Cattle

**Friday, April 28, 2023 • 7 p.m. EST**  
**Athens Stockyards**  
**Athens, TN**

# THE 6th ANNUAL ADDING VALUE SALE

To our Cattlemen Friends,

Welcome to this year's Adding Value Production Sale. To our longtime customers and friends, thank you for your continued support. We greatly appreciate hearing from past customers about how our genetics have influenced their programs and are so glad you are looking to add more. For those who have not purchased before, or are new to the Adding Value Sale offering, we are ecstatic that you are interested. If you're studying our programs, come to the sale, evaluate the cattle, and make your decision about what our genetics can do for you.

The quality of cattle in this sale will certainly make it worth your time to examine them online or in person, and then put your bids in on sale day.

Cattle will be displayed at the sale barn beginning Thursday afternoon. This will be a good time to get in the pens and evaluate the offering before the sale day crowd arrives.

- You can bid online through [www.LiveAuctions.TV](http://www.LiveAuctions.TV)
- You can join our conference call to bid over the phone.
- Contact any of the consignors for assistance with buying.

The Adding Value Sale Consignors have set a quality standard to bring you superior cattle for both the purebred and commercial cattlemen. With industry input cost escalating, few traits are more important than efficiency, fertility, and growth. We feel this offering embodies these traits and will add value to your herd.

Join us April 28th for a complimentary pre-sale dinner prior to the auction. We look forward to sharing a conversation about our cattle with you.

Thank you,  
The Adding Value Consignors

**Friday**  
**April 28, 2023**  
**7 p.m. EST**

**Athens Stockyard**  
723 County Road 225

## **Online Bidding Details**

The sale will be broadcast live online at [www.LiveAuctions.tv](http://www.LiveAuctions.tv). For assistance please call Brooklyn Graham (812) 530-0748

## **Sale Day Conference Line for Bidding**

We encourage everyone possible to use the Online Bidding Service. However, if you don't have adequate internet service for bidding you may call the conference call line to listen to the auction and place bids. **Please call Julie at (785) 313-2328 at least 1 hour prior to the sale** to register to bid and obtain the conference call phone number, access code, and a buyer number. The conference call line will open 10 minutes prior to the sale start and remain open during the entire sale, as long as there are bidders on the call.

## **Sale Accommodations**

Comfort Inn (423) 252-8030  
Holiday Inn Express (423) 649-0003  
Fairfield Inn & Suites (423) 507-0870  
Hampton Inn (423) 745-2345

## **Auctioneer**

Carroll T. Cannon (229) 881-0721

## **Terms & Conditions**

Terms of the sale are cash or check (payable to 4 Spigot Marketing) with proper I.D., and settlement must be made sale day and/or before anything is loaded or leaves the sale facility. Every lot will be sold to the highest bidder, with the auctioneer settling any bidding disputes. Announced changes in catalog information sale day will take precedence over printed material in the catalog.

## **Absentee Bids**

If you wish to make purchases but are unable to attend this sale, please contact one of the consignors.

## **EPDS and Supplemental Information**

All cattle data, EPDs, and supplemental information was current at the time of catalog printing. Ratios of WW and YW are from contemporary groups within the respective breed associations. It is inappropriate to compare ratios of bulls from different consignors because of differences in management and environment. Feed conversion ratios represent all sale bulls for the 2022-2023 trial, during the time for which the test was conducted. Additional information will be provided as a supplement available sale day.

## **Insurance**

All animals become the property of the purchaser and will be at purchaser's risk at the time of sale. Insurance will be available should buyers wish to purchase it.

## **Registrations**

A certificate of registry and transfer will be furnished for each animal at no cost to the buyer within 45 days after settlement of animals purchased.

## **Health**

All cattle will have proper health certificates for shipment. If your state requires TB tests, please contact individual consignors prior to sale regarding testing.

## **Liability**

All persons attending this sale and related functions do so at their own risk. The sale consignors and Athens Stockyard assume no liability, legal or otherwise, for any accidents or illness that may occur.

## **Guarantees**

All bulls have passed breeding soundness examinations. All bulls sold herein are guaranteed to be breeders. Replacement, credit, or refunds, will be offered by bull seller if bulls are certified by a licensed veterinarian to be sterile. Physical damage incurred by bull(s) subsequent to the sale are not covered. The cattle sold in the sale are guaranteed to be free of genetic defects as outlined in the Braunvieh Association of American and the American Angus Association Approved Sale Rules and Regulations, or duly noted by lot number.

## **Trucking**

Delivery cost guaranteed to be performed at lowest cost. All cattle must leave the facility by noon, Saturday April 30th.

**Carcass EPDs and % Ranks**

CW: Carcass Weight  
 MARB: Marbling  
 REA: Ribeye Area

## Performance Info & EPDs

**Calving Ease Direct (CED):** A higher CED EPD predicts a sire that will have a higher percentage of unassisted calves.

**Birth Weight (BW):** Compares the differences in the weight of calves at birth. It is measured in pounds, and cattle with higher BW EPDs are predicted to produce heavier calves.

**Weaning Weight (WW):** The WW EPD is expressed in pounds and predicts differences in weaning weight of a sire's calves. Bulls with higher WW EPDs predict heavier calves across the scale at weaning.

**Yearling Weight (YW):** Just like WW, only at the next stage of life. The YW EPD is expressed in pounds. Higher YW EPDs are likely to produce heavier yearlings

**Milk (MK):** The hardest trait to measure, since we don't measure milk production in beef cows. The MK EPD is measured in pounds of calf weaning weight due to his mother's milking ability. A higher MK EPD predicts that a bull will sire daughters who raise heavier calves due to their milk production.

**Total Maternal (TM):** Total Maternal EPD is a simple formula.  $TM = MK EPD + \frac{1}{2} WW EPD$ . It measures impact on calf weaning weight due to both milk production and the cow's genetics for growth. Bulls with a higher TM EPD should sire daughters with a bigger impact on their calves' weaning weight.

**Calving Ease Maternal (CEM):** Measures the ability of a bull's daughters to calve unassisted as two year olds. The higher the CEM EPD, the easier calving should be when a bull's daughters have that first calf.

**Carcass Weight (CW):** The CW EPD is all about pounds of beef on the rail. Higher CW EPDs mean that a bull is more likely to sire feeders with heavier carcass weights.

**Ribeye Area (REA):** REA is measuring the size of the muscle that gives us the ribeye in square inches. Higher REA EPDs indicate a bull is expected to produce larger ribeyes in their offspring.

**Marbling (MB):** The MB EPD is in units of percentage of intramuscular fat within the ribeye. Higher MB EPD bulls should sire higher marbling (and grading) feeder calves.

**All Purpose Index (API):** Evaluates sires for use on the entire cow herd (bred to both first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold in quality-based marketing scenarios. Combines traits of importance for both maternal characteristics, as well as traits of importance in the fed cattle market. Commercial customers who raise their own replacement heifers should consider API as their index of choice.

We sure were excited last year when we acquired his dam at this very same sale and what an addition she has been! We have wrestled with the idea of what to do with such a special offering and have decided to offer him at 100% walking rights and 50% semen rights. Its very rare to see an own son of Uree ET come thru the ring and is definitely an outcross to most fullblood programs in the country. His sire Uree ET sold for \$15,000 for half interest and Uree's mother sold for \$20,000 in the late 1990's. What an opportunity here!

Homo Polled. RDF Teddy Bear 1237K is another result from our calving ease bull "Teddy Bear" and a Flagstaff 604D 1st calf heifer. WW Flagstaff 604D was 2022-2023 reserved Beef Builder show sire of the year. Teddy Bear 1237K's dam, Ms RDF Polled Rummie 1102H, is a full sister to Ms RDF Linda, who was National Champion Heifer in Fort Worth this year. The Teddy Bear-Flagstaff cross has become a great cross in our herd. 1237's posted BW ratio of 112.0.

**OFFERED BY: HARVESTER FARM**

He's a young bull but study him hard. We purchased his dam from Brink's Herd Reduction Sale, and we are proud to have her walking the pastures at our place. A lot of thought was put in if we wanted to keep this bull for ourselves. This bull is homo polled and ranks in the top 20% for both WW and YW.

**OFFERED BY: R&D FARMS**

Homo Polled. Heres an own son of Flagstaff 604D, who was 2022-2023 reserved Beef Builder Show Sire of the Year. RDF 1243 is a grandson of one of the most influential purebred cows in this great breed, Ms Premium Plus. Flagstaff 1243 is a big footed, deep bodied, moderated bull that has shown good performance on test. Due to an unfortunate death, this will be 1 of the 2 last bulls R&D Farms will be offering in the near future out of 604D. If we didn't have so many Flagstaff females, we would keep this bull to use ourself.

**OFFERED BY: R&D FARMS**

Homo Polled Herdsire Prospect. Polar Bear was a true standout from birth. This bull had an actual BW of 68lbs, out of a 1st calf heifer, and weaned off with no creep feed at 714lbs. Polar Bear has a huge spread from birth to weaning, is deep bodied, big hipped, along with a "Teddy Bear" disposition. R&D Farms would like to retain in herd semen use on this exciting up and coming herd sire! With Flagstaff 604D, who is 2022-2023 reserved Beef Builder Show Sire of the Year and the sire of the National Champion Heifer at Fort Worth this year, Ms RDF Linda, on the bottom side of his pedigree, this bulls pedigree is full of "Adding Value" genetics. If there ever has been a replacement for Teddy Bear, here he is.

**OFFERED BY: R&D FARMS**

Fall Bred Fullblood Bred Heifer. RDF Helga 1221 has a stacked pedigree of great fullblood genetics that included Silverwood Dragon, TLC Anna, Northstar Vernon, WSR A97/1, and Hari. When we breed our fullbloods R&D likes to "look outside the box" so to speak. Helga is sired by our still producing fullblood herdsire TLC Vigor Z2119, co-owned with Windy Valley. Here grandsire Silverwood Dragon ranks in top 4% for WW and top 2% for YW resulting in Helga rank in top 15% for WW and top 15% for YW. AI'd bred on 12/9/2022 to our homo polled calving ease bull PDJC Teddy Bear (PB81753) and exposed to BLC Adventure 424H (PB98991) a homo polled Toronto son from 12-21-2022 to 3-23-2023. Updated pregnancy status before sale day.

**OFFERED BY: R&D FARMS**

Choice of Halter Broke Show Heifer Prospect-Flushmates. When R&D Farms purchased the remaining braunvieh cows Mr. Ted Jones of Double J Farms owned 11 year ago, there was only 2 purebreds in the group and 13 fullblood cows that were from his extensive and very selective embryo program. One of the 2 purebred cows was JJJ R538, little did we know the impact she would leave in our herd. Remedy R538 remained in our herd until she was shy of 18 years old. In the 11 years we had the privilege to own her between ET and natural calves she left a legacy of just shy of 30 progeny in R&D Farms herd, along with many other programs across the nation. These two halter broke heifers will be maternal sibs to Ms RDF Milly 1086H ET. Milly left her mark in the show ring being named Reserved Grand Champion at Texas State Junior Show, Junior Nationals, Ozark Empire Open Show, and Grand Champion in both Junior and Open Show at NAILE in 2021, and also Grand Champion Cow-Calf at Texas State Show in 2022. Mating this phenomenal cow to Teddy Bear was a no brainer. These flushmates are destined to follow their siblings previous success. When we are selecting what we think are show quality heifers, we choose the ones we would want to purchase ourselves, Selling choice. You pick which one R&D keeps.

**OFFERED BY: R&D FARMS**

Purebred Fall Bred Heifer. Little Darling is sired by, MCB 3111, which is a MCB 304W son, that was a former top selling bull at Mr. Ron McBee's sale a few years back. This past sale a MCB 3111 son was the top seller at Mr. McBee's fall bull sale in 2022. When you put 304W, WW Cornerstone 921W, BZB 1L, and Bonina Silverado 9911, you get a great female with her whole life ahead of her. Due to a breeding injury to MCB 3111, R&D Farms has limited semen and a limited amount of females. So here is a chance to own one that has "proven" wrote all over her. Pasture exposed to our homo polled herdsire Deacon 452, owned with WW Cattle, from 11/30/2022 to 3/20/2023. Updated pregnancy status before sale day.

"Peaches" is a red brindle female that is a true testimate of the versatility and adaptabilty of what braunvieh cow can do. When purchased, B421, transitioned from improved forages and prairie grass to the not so forgiving fescue in a summer drought and heat wave, like a champ. This docile, easy keeping, good milking cow, weaned her heifer calf at 190 days with no extra offerings or creep feed at 628lbs. With the rapidly increasing feeder cattle market here in the Southeast or if you decide to keep her heifer as a replacemen, this female will absolutely "Add Value" and make yourself and your cattle operation money for years to come. Pasture exposed to our son's young homo black Flagstaff son, RDF 1145 (BC101224) from 1/18/2023 to 3/20/2023. We are just about to wean the 1st set of calves along with having the 2nd set now. Flagstaff 1145 is doing everything that we projected him to do and more. We can't be anymore excited by what this young herdsire is doing and will do to help further "Add Value" to our program! Updated pregnancy status before sale day.

Lot 66- PFRC Ozzies Peaches B421

**OFFERED BY: R&D FARMS**

Braun-Angus - Spring calving Cow/Pair. Here is a good producing Braun Angus cow that is a very fertile, "breeds back", good producing cow. 579 is out of one of the best fullblood cows we purchased from Double J Farms several years back and a good Angus bull. As many have said "the golden cross" is very true. Whether you AI, put an embryo in, or just turn out with a bull, this cow takes whatever you put in her and raises a dang good calf. Due approximately 4-13-2023 to RDF 1145 (BC101224), an homo black son of the now deceased WW Flagstaff 604D. Only reasoning for selling this female is she has fell to the end of our spring calving season. Should have a calf by sale.
