President's message

**Peter
Favaro**

As many of you know, we lost our good friend and Club President Gerri Lundergen in February. As we go through this time of grief, no words can truly express our sympathy for her family in this dark time. As a club, we send our healing thoughts to them. There is a GoFundMe drive to help Gerri's family with funeral arrangements and other needs. Please take a look at Gerri's memorial page in this Geode for more information on how you can help.

We will be dedicating the rock pile which she regularly fed with goodies that everyone ooh-ed and ahh-ed about. If anyone knows a wood carver, we would be interested of having a horse head sculpture commissioned as part of the dedication to Gerri. She was very active in the equestrian field. Feel free to reach out to any board member with this information.

As for the club moving forward, please be patient with me while I find my bearings after taking over the role of president. Thankfully there are many past presidents and vice presidents that are on the board to help guide me. I will do my best to ensure that we move forward in ways that would make Gerri proud.

For each shop, nothing will be changing except for the lapidary instructor, which will be me until I can get our wonderful volunteers Kathy Reid, Linda Collins and Lyra Solochech who will be alternating days to monitor the lapidary shop. I am working on the details so, again, please be patient. We have some great plans

that Gerri was hoping to get started after the show. We are going to do our best to make them a reality.

We have the show coming up the first weekend of April and we need as many of you as possible to help. Please come to the March 18 volunteers meeting for information. Let our Show Chairman Greig Lundergan know on when and how you can help. At this meeting, we will also be preparing sluice bags for the kids area and will be going over the plans for loading, unloading and setting up at the fairgrounds. I know you all will help ensure this is another great show for us and all who will be a part of it.

Thank you all again and rest assured we are a club that will endure and go on to be a envy of many of the other rock clubs across the country.

Remembering Gerri Lundergan

By Greig Lundergan

Gerri Lundergan, the absolute love of my life, died Friday evening Feb. 24, 2023, in a tragic auto accident. She had just turned 63, and we were headed toward the best times of our lives together. She will be fondly remembered by all those whose lives she touched, both human and animal alike.

She was raised by her parents, Wayne and Beatrice Kenny, in Chico, California, where her love of horses began. She is an ARIA certified riding instructor. She devoted 45+ years to all things horse: the proper care, training and rehabbing she felt were her life's work. She was a great mentor, teacher and trainer to all. You only needed to want to learn, and she became an open book.

She was a member of the Tampa Bay Mineral & Science Club for over a decade and was President for the past 3+ years. She also was the foreman of the Lapidary department, where she put in the time and effort to become an expert of all things rock. She was considered the club's rock, slab and cab expert. She created amazing wire wrapped jewelry pieces with lapidary cabs, as well as broken china pieces.

Her willingness to share her knowledge (horse, lapidary and life in general) to anyone who was willing to learn, was one of the reasons she was put here on this earth, she firmly believed.

She is survived by her husband Greig Lundergan, her son Cody Gibson, stepdaughter and son-in-law Cory & Patrick Cothron, stepdaughter Samantha Lundergan, stepson Justin Lundergan, her Australian Shepherd – SON – Mooch, her grandchildren Jaden, Vanessa and Evan, and her countless friends everywhere. With her passing she is able to join her oldest son Bobby, who also died in a tragic auto accident Feb. 25, 2011.

Her Celebration of Life Ceremony will be held Saturday, April 22 from 2-5pm, at Dun Painted Farm, 4040 Gallagher Road, Plant City, Florida. Everyone affected by this tragedy, any and all, are invited to visit and share your favorite Gerri stories, or just visit with others also deeply affected by her tragic loss of life.

Please follow Gerri's personal Facebook page @gerrilundergan for more info about the ongoing criminal case and other updates. Go to bit.ly/3ZQ6wMe for more details about the ceremony.

Note from Greig

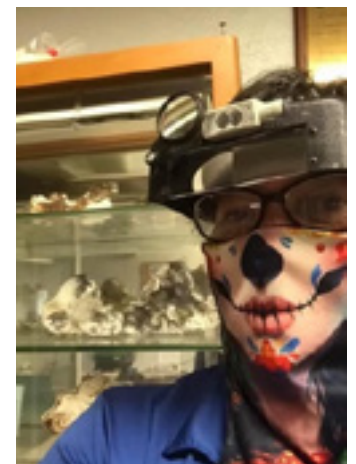

Thanks to everyone who donated cash, sent cards and/or offered condolences. Plus a special thanks to Linda, Lyra and Jeff who stopped by to help sort through Gerri's two office/workshops.

LAPIDARY

Busy months ahead in the lapidary shop

Two more CabKings have arrived and waiting to be set up.

For much of the month of April, the shop will be shut down for inventory, cleaning, painting and setting up of the two new CabKing machines we ordered. We will be working hard to try to not take up the whole month and open back up as soon as we can.

For the next series of Beginners Cabochon class, please contact Peter Favaro as he is starting the next list of students. We already have two slots filled. Dates will be coming as soon as we get a better idea of how long we will be shut down.

Lastly as a reminder, the week starting March 27, we will be closed for final show preparations.

Lapidary contact: Peter Favaro, hawk_doc@hotmail.com

FACETING

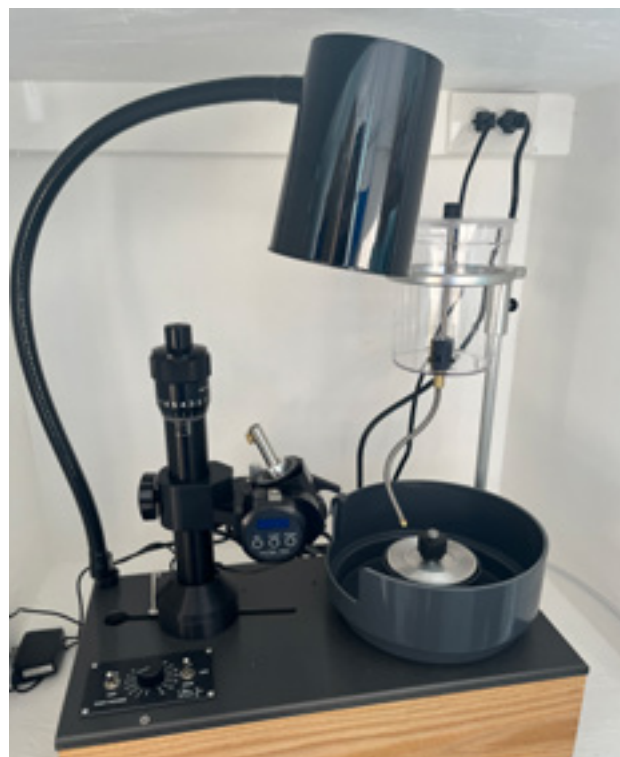

Two new Ultra-Tecs will offer flexibility

Tom will be recovering from another surgery, sadly, so please keep him in your thoughts. While he's gone, Peter Favaro will be the only instructor for now as we are in the process of training a new faceting instructor.

Since Peter also took over the role of lapidary foreman, no new classes for faceting will start until the end of April. But if you interested in taking a faceting class, please reach out so you can be put on the list.

We now have two new faceting machines that can have the stones be changed out, so we can have classes on different days with different students. Each new student class or open shop time will be tailored to the number of students who have signed up.

Faceting contact: Peter Favaro, hawk_doc@hotmail.com

Ultra-Tec faceting machines are some of the best on the market. This model is the VL.
