Description

The vessel sails well in all conditions, it is very easy to handle as a couple or single handed. Once Around is the perfect vessel for two. She has been purely a freshwater boat.

The galley is very efficient. The stove gimbal works really well. It's easy to cook a meal/snack while underway. Two pot stabilizers for surface cooking. There are storage compartments everywhere and they are spacious.

Ted Brewer set out to design a boat that would be fast enough for fun in local club races but kept the cruising family in mind in laying out the accommodations. Aloha's were built for rugged use and with beautiful interior woodwork.
