Fresh Water Tanks Capacity: 120 gal
Holding Tank Capacity: 40 gal
Number of Cabins: 2
Number of Heads: 2

Propulsion

Engine #1

Engine Make: Cummins
Engine Model: 6 CTA 8.3L 450
Primary Engines: Inboard
Power: 450 hp
Propeller Type: 4 Blade

Engine #2

Engine Make: Cummins
Engine Model: 6 CTA 8.3L 450
Primary Engines: Inboard
Power: 450 hp
Propeller Type: 4 Blade

Overview

The 2018 survey had these findings:

"...it is clear that the owner has developed an extensive preventative maintenance plan to maintain the vessel at or near pristine condition."

"Overall, this is one of the finest examples of a Sea Ray Flybridge cruiser with a number of add-ons outside of that offered by the manufacturer."

Stepping aboard from the side or the extended swim platform, there is easy access to the large cockpit that has a full cover.

Molded stairs allow you to comfortably reach the fly bridge. Here you will enjoy the U-shaped lounge and table aft that converts to a sun pad. Additionally there is a companion seat to port and centerline helm seat with full view of electronics and instrumentation and great all round visibility.

You enter into the salon from the cockpit through a large sliding glass door. Portside is a full size settee that converts to a double sleeping berth, and to starboard is a double settee. This space is great for entertaining or watching the LCD TV. All interior seating is tan ultra-leather and interior trim is cherry. The salon flooring has been updated to hardwood flooring.

Forward to port is the raised dinette seating that gives a great view of your surroundings while dining. There is ample storage under the seat bases of the dinette and in the couches.

The galley is down a few steps to starboard and features everything the chef needs - molded counter tops, three burner electric cook top, microwave oven, upright refrigerator/freezer and single sink. Galley sole is cherry laminate for easy clean up and there is a large storage pantry in the floor.

The Sea Ray 400 Sedan Bridge interior features two staterooms and two heads.

The Guest cabin is down the companionway to port and features two side by side berths (filler converts into king-size bed), The guest stateroom has lots of storage with a hanging locker, mirror and small settee. Portside off the companionway is the guest/day head complete with a stall shower, Vaccuflush toilet and molded vanity with sink.

The Master is forward in the bow and features a raised centerline berth with lots of storage in cupboards, floor storage and a cedar lined hanging locker. The full size master head is accessed privately from the master stateroom and features an enclosed stall shower, Vaccuflush toilet, molded vanity with sink and medicine chest.
