Description

2010 MacGregor 26M FOR SALE in St. Catharines

Versatile Trailerable Cruiser with Fresh 2022 Power & Solar Upgrade

MacGregor Yacht Corp; Pioneer of Accessible, Multi-Purpose Cruising

Founded by Roger MacGregor, MacGregor Yacht Corp built an international reputation by rethinking what a production sailboat could achieve. For decades, the builder focused on opening up the water to families and adventurous sailors who wanted the freedom of shallow-draft exploration without sacrificing transportability. Built with lightweight, durable fiberglass construction and engineered to sit easily on a standard road trailer, MacGregor vessels were designed to simplify ownership, reduce slip costs, and expand cruising horizons far beyond a single home port.

That innovative ethos culminated in models like the 26M, where lightweight water-ballast systems replaced heavy fixed keels. This engineering choice allowed MacGregor to produce boats that trail effortlessly behind a standard tow vehicle, launch easily at local ramps, and provide dynamic performance under both canvas and outboard power. Recognized for their longevity, straightforward maintenance, and vibrant owner communities, MacGregor yachts remain highly sought after by sailors across North America who value versatility, accessibility, and pure practical fun.

Model Overview; The Ultimate Balance of Sail, Power, and Mobility

The 2010 MacGregor 26M occupies a unique sweet spot for buyers searching for an affordable, adaptable cruiser on the Great Lakes and beyond. Designed around the concept of "trailer-sailing," this model bridges the gap between a spirited day-sailor, an overnight pocket cruiser, and a functional powerboat. For anyone looking to minimize recurring slip fees or explore different bodies of water around Lake Ontario, the Niagara region, or further afield, the 26M offers an unbeatable entry point into flexible boat ownership.

Under sail, the rotating mast and efficient rig provide responsive handling and light-air agility, making it a joy to tack through coastal bays or open lakes. When the wind drops or you need to make quick tracks home, the high-thrust Yamaha 60hp four-stroke engine converts the hull into a capable motor cruiser capable of reaching speeds well beyond traditional auxiliary sail displacement. The water-ballast system drains easily when pulling onto its single-axle Trailer Buddy trailer, significantly dropping tow weight for effortless highway transport.

Stepping below deck reveals a light, open interior designed to maximize every inch of usable volume. The intelligent layout includes a forward V-berth, a dedicated head area, a well-placed galley with a slide-away counter assembly, and an expansive queen-size berth tucked neatly under the cockpit. Large cabin ports flood the salon with natural light, creating a welcoming atmosphere for weekend getaways, anchorages in quiet coves, or extended road trips to new cruising grounds.

For buyers comparing options in the under-30-foot market, this particular 26M stands out due to its exceptionally modern mechanical and electrical inventory. Equipped with a low-hour 2022 Yamaha 60hp engine, solar charging capacity, updated navigation electronics, and a complete high-output inverter system, it delivers the convenience of a modern pocket yacht without the complex overhead or heavy operating costs of a larger vessel.

Key Features & Highlights

Performance & Propulsion

- 2022 Yamaha 60hp 4-Stroke Outboard: Low-hour reliable power (only 16 hours) delivering effortless motoring speeds, quiet operation, and exceptional fuel efficiency.
- Modernized Sail Control: Sportec roller furling jib (New 2024), rotating mast, and lines led aft through Spinlock clutches (New 2024) ensure smooth single-handed or shorthanded sailing.

- Trailer Buddy Trailer Included: Single-axle surge-brake trailer featuring new wheels and tires (2024) offers true road-to-water mobility without heavy transport costs.

Electronics & Navigation

- 2024 Hummingbird 7" Helm Chartplotter: Mounted on a custom bracket at the wheel for clear visual navigation, depth monitoring, and route planning.
- Updated VHF & Instruments: Standard Horizon Eclipse VHF radio (New 2024) and bulkhead compass provide reliable communication and directional awareness.

Off-Grid Electrical & Off-Dock Comfort

- Solar & Inverter Package: ECO Worthy 200W solar panel mounted on a custom arch (New 2024) paired with a Lyman 3000W inverter (New 2024) to run modern onboard appliances away from shore power.
- Upgraded Battery Bank: Fresh house and engine start batteries (New 2025) managed via a remote digital battery monitor (New 2024).
- Modern Galley Conveniences: Attitude 110V mini fridge (New 2024) running seamlessly via solar and inverter power, paired with a versatile sliding counter assembly to maximize salon layout.
- Cockpit Amenities: Sun-blocking bimini, full cockpit cushions, custom pedestal drink holder (New 2024), and a transom swim ladder with platform (New 2024) for easy water access.

Specifications Recap

- Length Overall (LOA): 25' 10"
- Beam: 7' 9"
- Draft (Daggerboard Up): 1' 0"
- Draft (Daggerboard Down): 5' 9"
- Displacement: 2,250 lbs (Dry)
- Ballast: 300 lbs permanent solid; 1,150 lbs water ballast
- Fuel Capacity: 100 gal
- Fresh Water Capacity: 50 gal pressure system with fresh water bladder (New 2024)
- Accommodations: 1 Cabin / Queen Aft Berth + Forward V-Berth (Sleeps up to 4)
- Head: Dedicated compartment with Dometic Porta Potti
