Description

Classic Performance Meets Quality Craftsmanship: 1983 CS 33 for Sale in Toronto

Are you searching for a cruiser that perfectly balances performance, safety, and comfort? **Breezeway Yachts** is proud to present this well maintained **1983 CS 33**, located right here in **Toronto, Ontario**. Whether you are looking to navigate the Great Lakes or head down the coast, this vessel represents the gold standard of Canadian boat building.

The Legacy of CS Yachts

CS Yachts holds a legendary status in the North American sailing community. Founded by Paul Shore in Brampton, Ontario, the company became synonymous with high-quality construction and "over-engineered" durability. During the 1970s and 80s, CS Yachts set the benchmark for production sailboats, utilizing premium materials and advanced layout techniques that have allowed these vessels to stand the test of time far better than many of their contemporaries.

The builder's philosophy was simple: create a boat that could handle the rigors of the Great Lakes while maintaining a sleek, modern aesthetic. By employing world-class designers like Tony Castro, CS Yachts produced a fleet that appealed to both the serious racer and the weekend cruiser. Today, owning a CS is considered a badge of honor among sailors who value structural integrity and timeless Canadian maritime heritage.

The CS 33: A Modern Classic

The **CS 33** is widely regarded as one of the most successful designs in the CS lineup. Launched as a follow-up to the popular CS 27 and 36, the 33-footer hit the "sweet spot" for many sailors. It features a sleek profile with a relatively high ballast-to-displacement ratio, making it incredibly stiff and capable in heavy weather. It's a boat that inspires confidence when the wind picks up, yet remains light and responsive on the helm during gentle summer breezes.

Below deck, the CS 33 shines with an interior layout that feels much larger than its footprint suggests. With a generous beam and clever use of space, it offers a comfortable salon, a functional galley, and a dedicated navigation station—all finished with the rich teak joinery that CS is famous for.
