## MUBEEN MUHAMMED

“Success of person should not be measured by his materialistic achievements like car, home, lifestyle, but it should be measured by the number of people who became successful because of his touch”. I learnt this from my parents at a very young age. I took Direct Selling as career because my dreams were big and the opportunities were Limited.

I took pains to learn the business by attending seminars, trainings etc. I had to face many challenges initially and with lots of hard work, sacrifice I started realising my dreams one by one and today my goal is to create one million success stories worldwide! My earliest dream was to build a small and good home for my parents today, I own many properties including a beautiful villa in Kerala. Initially to increase my productive hours I dreamt of having a 2-wheeler and today I maintain many cars including a BMW 5 Series sedan and a Brand New Mercedes GLS-350. I have visited many countries with my entire family. However my best accomplishment is a powerful team of determined leaders and I express my heartfelt gratitude for all of them. Now with Harvest Success Academy associating itself with Mi Lifestyle the potential for an ordinary person to become successful is very high. Positive action combined with positive thinking team Mi Lifestyle and Harvest can take you to unimaginable heights. Wishing you all a fabulous career in Mi Lifestyle.

With Winning regards.

Winter often brings dry air, blocked noses, and irritated skin. Cold winds and indoor heating can make it harder to breathe comfortably and keep your skin feeling soft and healthy. This is where the right daily care can make all the difference. Elements Wellness ProNasika is a specially formulated nasal spray that helps open up a blocked nose and supports easier breathing during the colder months. With herbal ingredients like Anant-mool, Eucalyptus, Mint, and Tea Tree Oil, it not only clears congestion but also provides anti-microbial protection, helping reduce the entry of harmful microbes and viruses into the lungs.
