HAPPY NEW YEAR!

Wishing everyone a happy and healthy year.

We hope to continue working with you all for another successful year.

PROJECT NEWS

EARLS COURT

Fantastic work by the iSource Team for completing the new CIS installation at Earls Court Station.

We have successfully Installed 8 x new double sided VIDs displays, new cms , new power & comms cabling and commissioning of new CIS displays.

Well done to the Team who got the job completed within timescale.

MANAGED STATIONS WIFI PROJECT

The new, unlimited WiFi service is being rolled out across Network Rail managed stations nationwide.

We have recently successfully completed:

- Clapham Junction
- Liverpool Street
- Bristol Temple Meads
- Birmingham New Street

We are in the final stretch of Manchester, Leeds and Reading.

Congratulations to our Teams!

CONGRATULATIONS

IAN TAYLOR & MOSES UTHMAN

Star Contractor

We received fantastic feedback and noticed Ian's efforts in going above and beyond on our Wifi Projects nationwide. Thank you Ian

Moses scaled the country and sacrificed a shift due to unforeseen delays and snow. Thank you for your great spirit and fantastic attitude.

➤ A little Thank you treat will be dropping in your mailbox soon ◀

FOOTBALL SHIRT CAMPAIGN

Thank you to everyone who donated to our JustGiving page back in November for the Football Shirt campaign. We raised a total of £120 for the Bobby Moore fund.

Unfortunately, we didn't hit our target so for now the Directors are safe!!

Thank you again, every little helps.

COMING UP

We have lots of great projects coming up this year and we are currently looking for:

- Electricians
- Testers
- Comms installers
- Supervisors
- Fibre splicers

In Wessex (across the South West England) and in the North West of England we have projects across stations in and around Manchester and also across Mersey Rail.

We also have a number of opportunities for the following with experience in Electrical/Comms and previous Rail experience:

- P6 Planners
- Quantity Surveyors
- Estimators
- Project Managers

 Contact us on 0208 6556900 to get involved!

PROJECT NEWS

CRITICAL INCIDENT MANAGEMENT INSTALLATION

Started in September 2021 and we are now in the final stages of completing the Critical Incident Management (CIM) Installation in 55 London TFL Stations. This project included installing CIM PA, Gateline Interface cabling, power connection and the install of CMS.

With around 750 shifts worked, this project has been well managed and is on target to be completed by May 2022. Excellent work!

FOOTBALL SPONSORSHIP UPDATE

Our sponsored team 'East Grinstead Meads' are doing excellent this Season in the U15 Div B, second in the table currently and having only lost to one team twice. With only 3 games to go, there is a possibility of getting promoted back into Div A next season. (good luck boys)

Top goal scorer is Emilio who scored 23 goals for the season so far.

They also won Second place in the Horsham League FUTSAL C competition. Great Job Boys!

WHAT WE DO?

At ISource Solutions Ltd, we supply labour only teams to numerous M&E, Communications and Civils projects across Railway infrastructure. We also work with our clients as delivery partners where we supply vehicles and access equipment.

PROJECT NEWS

WESSEX SISS RENEWAL PROJECT

We are now a few months in on this large Project working for our partner Telent Technology Services Ltd which involves the installation of replacement Public Address (PA) and Customer Information Systems (CIS) at 174 Network Rail stations across the South West Trains network.

The Project is due for completion in November 2023.

The project is focused on resolving system non-compliances and asset obsolescence, while modifying the existing deployed asset sets and infrastructure, providing modern and up to date assets with the aim of improving the passenger experience whilst meeting the day to day demands of running the stations, and maintainability.

We currently have multiple teams assisting Telent with their intrusive surveys for Telent to produce their Detailed Designs from the current GRIP 4 Outline Designs as well as rodding, roping and cabling in this early phase.

We will be commencing installation of the PA and CIS assets early in the New Year.

REFERRAL SCHEME

If you refer an engineer who ends up working for us, you will be able to claim a £ 100 amazon voucher before Christmas!

Send us in their CV or get them to mention your name when calling up and the rest will take care of itself.

Link to register below:

<https://isource.postfield.co.uk/android/onboarding.php>

Small Print:

- Candidates would need to be new registrations or not have worked for us in over 12 months.
- Candidates would need to complete at least 6 weeks work to qualify.

PROJECT NEWS

SCADA Milestone Achievement

We have had a very busy few months on SCADA and our client has contacted us to highlight the great work our team has carried out leading to us achieving some key milestones on the TPCMS SCADA programme!

In the last few weeks, we have successfully commenced with the migration of the Selhurst area into Brighton ECR, which has been a key milestone for the Project.

Our client said the teams we are supplying are "really good guys, trustworthy and hardworking" and all have "played and are playing their part. We would not have got to where we are with Canterbury migrations or been able to go into Selhurst migrations without Tony Pearson and Heinrich Nienaber where it is already widely recognised across both Telent and Network Rail Project teams that their roles are critical to the success of what Telent are trying to achieve."

Thank you to all the teams hard work as we move to the next phase of the project!

Christmas Shutdown

Please be advised that the ISource Office will be closed from 23 December 2022 until 03 January 2023

An email has been sent, however, please can you ensure that you are all aware of the deadlines for timesheets.
