COMING UP

We have lots of great projects coming up this year and we are currently looking for:

- Electricians
- Testers
- Comms installers
- Supervisors
- Fibre splicers

In Wessex (across the South West England) and in the North West of England we have projects across stations in and around Manchester and also across Mersey Rail.

We also have a number of opportunities for the following with experience in Electrical/Comms and previous Rail experience:

- P6 Planners
- Quantity Surveyors
- Estimators
- Project Managers

Contact us on 0208 6556900 to get involved!

PROJECT NEWS

CRITICAL INCIDENT MANAGEMENT INSTALLATION

Started in September 2021 and we are now in the final stages of completing the Critical Incident Management (CIM) Installation in 55 London TFL Stations. This project included installing CIM PA, Gateline Interface cabling, power connection and the install of CMS.

With around 750 shifts worked, this project has been well managed and is on target to be completed by May 2022. Excellent work!

FOOTBALL SPONSORSHIP UPDATE

Our sponsored team 'East Grinstead Meads' are doing excellent this Season in the U15 Div B, second in the table currently and having only lost to one team twice. With only 3 games to go, there is a possibility of getting promoted back into Div A next season. (good luck boys)

Top goal scorer is Emilio who scored 23 goals for the season so far.

They also won Second place in the Horsham League FUTSAL Competition. Great Job Boys!

WHAT WE DO?

At ISource Solutions Ltd, we supply labour only teams to numerous M&E, Communications and Civils projects across Railway infrastructure. We also work with our clients as delivery partners where we supply vehicles and access equipment.

CONGRATULATIONS

DEAN SALMON

Star Contractor

Dean has been working tirelessly to successfully deliver the Marylebone project on time. Your efforts haven't gone unnoticed. Thank you Dean

▶ A little Thank you treat will be dropping in your mailbox soon ◀

REFERRAL SCHEME

At ISource Solutions we are always looking to identify and develop new talented trades individuals and engineers to join our growing teams nationwide.

We are currently looking for highly skilled candidates with or without rail certifications/experience.

If you refer an individual to us and we place them into work, once they complete 150 consecutive hours of work we will gift you £150.

Remember – we can book their PTS Rail courses!
