Innovative profile solutions

To achieve great results we set our focus on product development and using unique solutions that would meet the most demanding needs of our customers. Our aluminium profile AL 29 BLIND is simple but significant. This integrated solution combines in itself several possibilities.

VECTA DESIGN sets the focus on quality and design, this is why our profiles are well thought out for easy and comfortable mounting and they are strong and stable. If uniqueness and individual solutions are important to You, then let us fulfill Your design dreams.

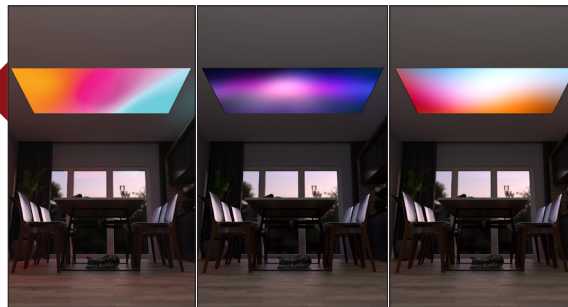

ENDLESS LIGHT DESIGN POSSIBILITIES

Installer: Luba Systems

You don't need additional lamps in the room anymore. Vecta Design has a better solution for You. Our light ceilings can be used as the main source of light or as exclusive decorative addition. Create special effect and distinctive expressions in the space due to the light integrated in the ceilings.

VECTA MAGNIFICENT MODULES

ACOUSTIC WALL AND CEILING SOLUTIONS

Installer: Vervol

Whenever there is a need to improve room acoustics, Vecta Design soundproofing ceiling solutions are an easy, elegant and effective way to make any space acoustical quality better. We can offer different types of sound absorbing materials and integrated solutions.
