

Aggregate & Mining

Specialized Crusher Repair

Qualified **Capital City Machine Shop** technicians can disassemble, inspect, evaluate, and repair your crusher back to OEM specifications.

All crusher components are machined, repaired and welded back to industry standards in our machine shop and expertly reassembled prior to delivery to your site.

Quality Crusher Parts

Capital City Machine Shop is an authorized repair/parts center for **Metso, Astec, JCI, KPI and Telsmith.**

Capital City Machine Shop also repairs all other manufacturers equipment. We use only OEM quality parts for all makes and models of crushing equipment.

All repairs undergo final inspection to meet OEM Specifications.
