

Opportunities for Continuing Education

The mission of the Huntington's Disease Society of America (HDSA) is to improve the lives of everyone affected by Huntington's disease and their families. To accomplish this, HDSA offers several options for continuing education units (CEUs) for the HD multidisciplinary care team. Below is a list of available courses. Please contact Denny Cone (dccone@HDSA.org) at HDSA with any questions.

Courses Available at HDSA.org

Visit www.hdsa.org/healthcarepro for additional details and to register for the CEUs courses listed below.

OCCUPATIONAL THERAPY CONTINUING EDUCATION - HDSA has partnered with the American Occupational Therapy Association (AOTA) to provide a free continuing education course for occupational therapy providers. Please go to https://myaota.aotas.org/shop_aota. You must have an account at AOTA to register for any of the free modules. The account is also free.

SOCIAL WORKER CONTINUING EDUCATION - These online courses are designed to offer expert knowledge about Huntington's disease to social workers who care for people with HD. They are recorded webinars by instructors that have been chosen for their expertise in HD and/or their knowledge of a particular subject pertinent to the field of HD. [Click here to register](#)

RESOURCES FOR SOCIAL WORKERS - This section contains helpful guides, documents and videos for Social Workers caring for people with HD. Subjects range from long-term care, behavioral issues, support groups, and genetic testing and guidelines among other topics. [Click here to register](#)

RESOURCES FOR PHYSICAL THERAPISTS - This section contains helpful guides and videos for Physical Therapists caring for people with HD. [Click here to register](#)

PT CONTINUING EDUCATION - This course is offered in partnership with the Neurology Section of the American Physical Therapy Association (APTA). The purpose of the course is to provide information about HD to the physical therapy community in order to increase the number of therapists available to HD families for consultations and active therapy sessions. [Click here to register](#)

GENETIC COUNSELOR CONTINUING EDUCATION - This course educates genetic counselors about the intricacies of Huntington's disease so they are better able to apply their knowledge and skills about hereditary diseases when counseling a person at risk who is seeking predictive testing or a symptomatic individual seeking confirmatory testing.
