

### Q. Is your website secure?

I have secured my web site using the latest 256 bit SSL (secure socket layers) security features, which means that all data, either viewed or entered on any of these pages, has been encrypted before it has been transferred. You will know the page is secure when you see the padlock icon on your browser or alternatively anytime the web site address begins with https://.

#### A. Since January of 2017 this site has been made fully secure. This means that all pages under my domain name are now fully secured. You will now see a padlock next to the name dahutcreations.com
