We loved working with Gary! He was extremely helpful in our 2 home inspections! We had him come check out our first home and he did such a spectacular job we called him back for the inspection on a second home! He gives a VERY full detailed report of everything that he finds and made sure all of our questions were answered. If we ever need an inspection in the future, we already know who to call. Thanks again, Gary!

Home Inspection

I could not have asked for a better home inspection experience. This is my first time buying a home and I am so grateful that I chose Vets Home Inspection. Gary was punctual, courteous, and extremely meticulous. He spent well over two hours inspecting every aspect of the home, inside and out. Each time he came across something that was unsatisfactory, he explained the problem thoroughly and gave his best opinion on how serious the issues were and what it would take to fix them. He answered all of my questions and made sure that I understood each problem before he moved on to the next task. The report he sent me was extremely detailed and had many pictures of the home and the places that needed attention. Gary is honest, professional, and clearly takes pride in his work. There is no one else that I would want to inspect a home for me and I can not emphasize enough what a tremendous job he did. Thank you, Gary!
