

PROFESSIONAL EXPERIENCE:

Negative Underwear, New York, NY

Associate Designer

February 2025-Current

- Support the design and development process from concept through production, ensuring design intent and brand identity are upheld across all styles.
- Own creation of CADs, tech packs, and BOMs, managing updates throughout development and communicating directly with factories and vendors.
- Manage fit samples, weekly fit lists and fittings, directing corrections and approving final garments for production.
- Support seasonal color, fabric, and trim development, collaborating cross-functionally to align creative direction with production capabilities.
- Own and manage print development and creation
- Conduct and present trend, silhouette, and market research to inform upcoming collections.
- Partner with cross-functional teams on seasonal line planning and design strategy.
- Manage design workflow, ensuring clear communication between design, technical, and production teams.
- Review samples for quality and accuracy, ensuring final production meets brand standards.
- Contribute to internal line reviews and creative presentations, preparing visual materials and communicating design rationale.

Assistant Designer/Technical Designer

September 2023-January 2025

- Assisted putting styles into production from initial sketches, demonstrating a strong design-to-production pipeline
- Create detailed tech packs for manufacturing for each season.
- Generate CADs for upcoming seasons and promptly update them to reflect any design changes.
- Assist in providing fit comments implementing necessary design and fit changes.
- Assist in fabric and color selections for new seasons.
- Create prints, foil patterns, and embroidery designs.
- Contribute to trend research and design development for upcoming seasons.
- Conduct thorough checks on sample sewing and specs, ensuring quality standards were maintained.
- Manage all fit samples and ongoing fit list, efficiently preparing fits to ensure correct and accessible samples.
- Facilitate smooth workflow by effective communication with factories, vendors, and teams.
- Complete quarterly BOM scrubs for accurate material placements for production.

Glorious Apparel, Technical Design Intern- Sweaters, New York, NY

February 2023 - May 2023

- Support product development from concept to production for clients, brands, and designers.
- Develop tech packs, spec sheets, and pattern make knit garments.
- Assist with the fit process, taking notes of adjustments.
- Conduct knitting, washing, steaming, and merrowing of garments and swatches, while assisting in linking and hand-finishing
- Maintain Shima Seiki Knitting machines, including cleaning, threading, and needle replacement.
- Organize and maintain yarn cards and inventory.

Real NYC, Design & Creative Intern- Sweaters, New York, NY
