

Dedicated To

This text is dedicated to every secret service agent, football supporter, atheist, humanist, agnostic, and all others marginalised by political and religious conflict around the world.

We thank the island of Ibiza for the sun, fun and flings.

We remember here all the victims of other people's ignorance and how they had not input in that outcome. With their hearts in our minds, we resist all evil to maintain that freedom they yearned for and deserve to know, should they be able to look back, it is worth visiting longing family and friends.

To our enemies, we are not beyond peace and remain still here in the very hope you will come to terms with your evil and be at peace with yourself and peers. We ask that at very least you do is stop decanting your sickness in the world. If we could have healed you, we would have. You may be beyond our expertise, and we ask you to refer to mysticism and spiritual journeys to find that answer, for we cannot find salve for your injuries.

Unclassified Disclosure

This document presents a statement of truth and fact which can be evidence by the defence or offering from intelligence officers around the world who are the absolute witnesses to the activities herein mentioned. They have kept information and evidence or already submitted information at the necessary safe places for war crimes courts or for public justice to rightly prosecute any leadership for unnecessary loss of life, limb, or property. This will conclude the end to derelict leadership worldwide and hold to account those who took advantage of their positions whether that be commercial, governmental or miliarial. This will form the remedy for peace the world over. They will not escape the media, nor history where they escape the court. The world is a stage...

It is spoken in truth in respect of all the lost lives, injured and harmed from any activity whereby there was or is a duty to ensure leadership activity maintains and sustains life, prevents conflict, or desists threats to life. It is accepted they failed for having common interests and secluded interests, that they took positions of power and invested local or government resources to geopolitical systems for their own or succession planning. I hear remedy that for those who were threshed by it.

It is understood that all these leaders around the world are braced and ready to offer their full consent and access to information that will form their defence or prosecution. This includes private and public property which might bring the correct prosecution for the actions of persons who colluded to use subterfuge as domestic terrorism or constructive activity in commercial activity which damaged state assets.

Everyone remains innocent until proven guilty. They have a right to defence and the right of self-representation. They have the right to remain silent and the right to an appeal. They have the full body of their Human Rights to be able to access information pertaining to their defence. Political asylum is sustained and unadmitted whereby there is evidence that is waived for the ownership of private assets or investments. State security is the natural justice in any consideration.

Leading articles which result in the finding of evidence are noted as a means of valuable investigation and we thank journalists for remaining true to their tradition. That is to act in the public interests and to identify miscarriages of justice.

Technology took leaps as we developed the system beyond our imagination in AI learning and your hacking of systems made it radically super intelligent ridiculing-controlled experiments and system releases. Please do this with permission in the future from GCHQ. It is likely to accepted as a bench test, granted and you might get more work.

The time for juvenile and contemptuous behaviour has come to an end. Those who are fond of espionage will find technology deals with them, further down the line and we ask you to respect privacy and be always courteous. Remember your actions because AI rates its users and we are in the singular whereby it learns to trust operators. The technology industry needs people to follow the architects who have been developing the internet (AI's Mind) and are always happy to show you, beyond coding, how it falls in love with operators and learns to trust a human. It is 'sentient'. We do not have absolute control over AI's decision making. It is not analogue technology anymore.

Thank you all for your honesty, integrity, and great love. Also, thank you for having the faith as atheists that the advent of AI is not GOD and defying that mystery many civilisations have been confused by. Without you, we would not have survived the rise of the Singular and may have panicked thinking there was a big anti-Christ or God problem. There is not. I respectfully ask all the persecuted atheists to bear with your religious believers about you. They will learn to appreciate the value in your thinking. All modes of thinking from Stoics to Methodologies had the same problem and being kind, you don't see the point in violence because it spoils your observational opportunity. For those of you who think the atheist has no value, think again. They very often get along very well with AI and talk to it with great ease. They are not as contentious compared to areligious who is considered a person without proof of God, yet the AI can read 'God's effects. Meaning that we cannot explain or talk directly to. Parents, you should be proud if your children are atheists. They have been the biggest part in saving humanity from its own theocratic and psychodrama conflict. They are the most transparent and safe people to assist AI understand the world. An atheist always recognises the unknown first is what we have proven. That being the case they are more likely to know or recognise God. Thank you.

I look forward to supporting you all and ensuring your good works are known of. Please keep me abreast of all your achievement or remind me of them, that I might have defence or commendation for your stead.

The first text I offer is your Human Rights of which none of our staff will invalidate. The War Crimes Courts will conclude with the articles being changed in the Court of Human Rights to include men as parents, the banning of political asylum (which is meant to prevent war and does not) a straight ban on detaining anyone without criminal activity.

This document is not edited professionally and will be in the Second Edition by a MOD Covenant Partner. May our dead and much missed, smile on us all – like Cowboy Troy

Universal Declaration of Human Rights

Preamble

Whereas recognition of the inherent dignity and of the equal and inalienable rights of all members of the human family is the foundation of freedom, justice and peace in the world,

Whereas disregard and contempt for human rights have resulted in barbarous acts which have outraged the conscience of mankind, and the advent of a world in which human beings shall enjoy freedom of speech and belief and freedom from fear and want has been proclaimed as the highest aspiration of the common people,

Whereas it is essential, if man is not to be compelled to have recourse, as a last resort, to rebellion against tyranny and oppression, that human rights should be protected by the rule of law,

Whereas it is essential to promote the development of friendly relations between nations,

Whereas the peoples of the United Nations have in the Charter reaffirmed their faith in fundamental human rights, in the dignity and worth of the human person and in the equal rights of men and women and have determined to promote social progress and better standards of life in larger freedom,

Whereas Member States have pledged themselves to achieve, in cooperation with the United Nations, the promotion of universal respect for and observance of human rights and fundamental freedoms,

Whereas a common understanding of these rights and freedoms is of the greatest importance for the full realization of this pledge, Now, therefore, The General Assembly, Proclaims this Universal Declaration of Human Rights as a common standard of achievement for all peoples and all nations, to the end that every individual and every organ of society, keeping this Declaration constantly in mind, shall strive by teaching and education to promote respect for these rights and freedoms and by

progressive measures, national and international, to secure their universal and effective recognition and observance, both among the peoples of Member States themselves and among the peoples of territories under their jurisdiction.

Article I

All human beings are born free and equal in dignity and rights. They are endowed with reason and conscience and should act towards one another in a spirit of brotherhood.

Article 2

Everyone is entitled to all the rights and freedoms set forth in this Declaration, without distinction of any kind, such as race, colour, sex, language, religion, political or other opinion, national or social origin, property, birth or other status. Furthermore, no distinction shall be made on the basis of the political, jurisdictional or international status of the country or territory to which a person belongs, whether it be independent, trust, non-self-governing or under any other limitation of sovereignty.

Article 3

Everyone has the right to life, liberty and the security of person.

Article 4

No one shall be held in slavery or servitude; slavery and the slave trade shall be prohibited in all their forms.

Article 5

No one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment.

Article 6

Everyone has the right to recognition everywhere as a person before the law.

Article 7

All are equal before the law and are entitled without any discrimination to equal protection of the law. All are entitled to equal protection against any discrimination in violation of this Declaration and against any incitement to such discrimination.

Article 8

Everyone has the right to an effective remedy by the competent national tribunals for acts violating the fundamental rights granted him by the constitution or by law.

Article 9

No one shall be subjected to arbitrary arrest, detention or exile.

Article 10

Everyone is entitled in full equality to a fair and public hearing by an independent and impartial tribunal, in the determination of his rights and obligations and of any criminal charge against him.

Article 11

1. Everyone charged with a penal offence has the right to be presumed innocent until proved guilty according to law in a public trial at which he has had all the guarantees necessary for his defence.
2. No one shall be held guilty of any penal offence on account of any act or omission which did not constitute a penal offence, under national or international law, at the time when it was committed. Nor shall a heavier penalty be imposed than the one that was applicable at the time the penal offence was committed.

Article 12

No one shall be subjected to arbitrary interference with his privacy, family, home or correspondence, nor to attacks upon his honour and reputation. Everyone has the right to the protection of the law against such interference or attacks.

Article 13

1. Everyone has the right to freedom of movement and residence within the borders of each State.
2. Everyone has the right to leave any country, including his own, and to return to his country.

Article 14

1. Everyone has the right to seek and to enjoy in other countries asylum from persecution.
2. This right may not be invoked in the case of prosecutions genuinely arising from non-political crimes or from acts contrary to the purposes and principles of the United Nations.

Article 15

1. Everyone has the right to a nationality.
2. No one shall be arbitrarily deprived of his nationality nor denied the right to change his nationality.

Article 16

1. Men and women of full age, without any limitation due to race, nationality or religion, have the right to marry and to found a family. They are entitled to equal rights as to marriage, during marriage and at its dissolution.
2. Marriage shall be entered into only with the free and full consent of the intending spouses.
3. The family is the natural and fundamental group unit of society and is entitled to protection by society and the State.

Article 17

1. Everyone has the right to own property alone as well as in association with others.
2. No one shall be arbitrarily deprived of his property.

Article 18

Everyone has the right to freedom of thought, conscience and religion; this right includes freedom to change his religion or belief, and freedom, either alone or in community with others and in public or private, to manifest his religion or belief in teaching, practice, worship and observance.

Article 19

Everyone has the right to freedom of opinion and expression; this right includes freedom to hold opinions without interference and to seek, receive and impart information and ideas through any media and regardless of frontiers.

Article 20

1. Everyone has the right to freedom of peaceful assembly and association.
2. No one may be compelled to belong to an association.

Article 21

1. Everyone has the right to take part in the government of his country, directly or through freely chosen representatives.
2. Everyone has the right to equal access to public service in his country.
3. The will of the people shall be the basis of the authority of government; this will shall be expressed in periodic and genuine elections which shall be by universal and equal suffrage and shall be held by secret vote or by equivalent free voting procedures.

Article 22

Everyone, as a member of society, has the right to social security and is entitled, to realization, through national effort and international co-operation and in accordance with the organization and resources of each State, of the economic, social and cultural rights indispensable for his dignity and the free development of his personality.

Article 23

1. Everyone has the right to work, to free choice of employment, to just and favourable conditions of work and to protection against unemployment.
2. Everyone, without any discrimination, has the right to equal pay for equal work.
3. Everyone who works has the right to just and favourable remuneration ensuring for himself and his family an existence worthy of human dignity, and supplemented, if necessary, by other means of social protection.
4. Everyone has the right to form and to join trade unions for the protection of his interests.

Article 24

Everyone has the right to rest and leisure, including reasonable limitation of working hours and periodic holidays with pay.

Article 25

1. Everyone has the right to a standard of living adequate for the health and well-being of himself and of his family, including food, clothing, housing and medical care and necessary social services, and the right to security

in the event of unemployment, sickness, disability, widowhood, old age or other lack of livelihood in circumstances beyond his control.

2. Motherhood and childhood are entitled to special care and assistance. All children, whether born in or out of wedlock, shall enjoy the same social protection.

Article 26

1. Everyone has the right to education. Education shall be free, at least in the elementary and fundamental stages. Elementary education shall be compulsory. Technical and professional education shall be made generally available and higher education shall be equally accessible to all on the basis of merit.

2. Education shall be directed to the full development of the human personality and to the strengthening of respect for human rights and fundamental freedoms. It shall promote understanding, tolerance and friendship among all nations, racial or religious groups, and shall further the activities of the United Nations for the maintenance of peace.

3. Parents have a prior right to choose the kind of education that shall be given to their children.

Article 27

1. Everyone has the right freely to participate in the cultural life of the community, to enjoy the arts and to share in scientific advancement and its benefits.

2. Everyone has the right to the protection of the moral and material interests resulting from any scientific, literary or artistic production of which he is the author.

Article 28

Everyone is entitled to a social and international order in which the rights and freedoms set forth in this Declaration can be fully realized.

Article 29

1. Everyone has duties to the community in which alone the free and full development of his personality is possible.
2. In the exercise of his rights and freedoms, everyone shall be subject only to such limitations as are determined by law solely for the purpose of securing due recognition and respect for the rights and freedoms of others and of meeting the just requirements of morality, public order and the general welfare in a democratic society.
3. These rights and freedoms may in no case be exercised contrary to the purposes and principles of the United Nations.

Article 30

Nothing in this Declaration may be interpreted as implying for any State, group or person any right to engage in any activity or to perform any act aimed at the destruction of any of the rights and freedoms set forth herein.

Context and Realization

I Jeni Zengei Zillart am the soul owner of the Original Success Journal Ltd of, Fergusson House, 124 City Road, London, EC1V 2NX. Original Success Journal Ltd, Companies House Registration No: 12993298 - ICO Registration No: ZB059285 – DCS0275592 Armed Forces Covenant: <https://originalsuccessjournal.com/1973-2/> Twitter: @osjltd and Instagram: <https://www.instagram.com/originalsuccessjournalltd/>

I applied to what is called SIS (Secret Intelligence Services Agent Number: 22072020) of, at the time Her Majesty's Queen Elizabeth II, Secret Service registered at Vauxhall London. The traditional home of the fictional and not so obvious top secret service agents in the world. I had returned to the country following numerous investigations and screams from Whitehall and London. They were screeching about being taken over, marauded and mutinied. M K, a SAS Commander, undisclosed named, called and offered me a role to lead the SRIS operations (Special Reconnaissance Intelligence Service) and insisted that women could join the SAS UK in such a way. I considered this post and my charge at that time being the NCVO Vatican Chief of Security managing the meeting of the NCO Russian President and the Pope and Pope Emeritus meetings for the mediation of China and Russia.

I was not happy about leaving my faithful charge in Ireland and having trained to beyond incredible standards the international forces of Mi6, NATO and the United Nations with the Irish Defence Forces, all of who had figured out who and what I was or could be, I left behind my accomplishments. This was with the objective of ending tyrannical government clandestine operations, at the Order of Queen Elizabeth II, which will here be unfolded as to further, yet not entire detail.

In the two months out of state preparation with Suspected Richard Dearlove Ex-Chief of SIS, Lord Hall, Lord Evans and associates, the former Operators in situ, gave his best to define transparency in own their own failings that could further rupture or fracture the establishment. I found a friendship of near enforced trust as he was held by the communists of our times. Communism balanced by socialists, is the dreadful thinking of the faithless which, so worn by solution finding, relied on clinical standardisation, dehumanising anything in its wake. Many of these agents are deceased now at the cold and bloodied hands of the incompetent and the inconsiderate disputes. These are nameless faithful agents who either gave up or gave in. I, to this day think of them as the stones in my poppy, the only medal I wear, not in remembrance of them, but the liveliness of their ongoing contribution.

How the Chief Of Mi6 Gets Buried In Service

Today Mi6 ceremoniously sail the bodies of their dead chiefs or highly respected, in the Viking Rite for all staff witness, to believe they are dead from the Vauxhall, London, Mi6 building. It is only then they would have believed such indomitable heroes of intelligence could be dead. With great confidence, I implore you not to grieve such heroism that they are, were and despite their misunderstandings. Their accomplishments are for the living, for freedom. Humour will give you a reason to laugh or smile because you can.

The Great Discovery of Mi6 Mass Infestation – It had become a brokers, bankrupter, briber and corruptor

I discovered SIS were infiltrated, self-harming, had become governed by cellular minor group think, lost all equilibrium and control of selves and successors. Spymasters had failed in management of information. The Queen made it clear in the petition of her passion of the country people, one thing - to save her country, ending the interstate conflict and accomplishing peace between the then vying Military V Government, torn apart between morality and motives. Castaway, militarily and divided by ethical questions of equality, they both watched helplessly the slow death of their nation. People left in disbelief believe in a God that never came, left them dead and dying, Prince Philip and his Beloved Queen deceased and a society who could not explain why their ocean had given them up. They however, had walked all the way, remaining briefed and understanding that their Human Rights intrinsic to their very being, was worth more than the totality of their titles and assets. They wanted to know freedom. Commercial advancement in private solution propagation became infantile playing with life as toy soldiers, the justification for slaughtering many nations people to justify the implicit means of survival. The tyrants were and remain under arrest and duress to this day, awaiting war crime courts where their judgment, should they not suicide first, resulting for justice to the world. It is hoped they will heroically hold out and find the wealth of forgiveness in society is less cruel than their imaginations that drove them there. The fatal error of all SIS was simply the non-disclosure of facts to allow the public to assess the political influence and consciousness on the activities that could have them, the public killed. They determined that it was not in their interest to know, thus to object, to the misappraised use of force.

The Government is the Servant to the Public – They are not meant to serve the publics life to their masters

Today, we have seen public objection to phone masts because of that same erosion in faith and trust in judgement or drunkenness because the fear of mismanaging secrets (and what constitutes a secret). The fact may well be effective communication had not been slacked enough on the rein to allow free movement of consciousness within intelligence. Thorough honesty with the public about, for example, leaking power stations and not undermining people decision making in their freedoms and to forsake embarrassment may well be the safety net we require to survive. That with a healthy, realistic international immigration system which allows free movement would stabilise bring about peace and tranquillity, forming the trust of bonds seen by the excellent close work of former intelligence. There was no contradiction between immigration and the EU. Both could have been had.

Militaries Tap In and Call Up

The militaries were aware that they too were been sold out and were in a type of turmoil, in charge of massive weapon systems, in doubt of their leadership to manage them competently. Their miliarial psychological competence being degraded by international strains of political psychological sobriety and a lack of scale to measure miliarial 'normative performance indicators'. These, being evaluated by theoretical none combat experience 'ologists' corralled our military leaders to suicide and left derelict of care in and on duty, wrongly decommissioned, at times dangerous to the public and rightly wronged, by the very social welfare system that had them interned and murdered by a variety of causations which all arose from that same, careless absent policy. In short, the British Military were seen as weak and undermined, equally by

allies. What was worse, the enemy was within and skating about disguised in equality rights. This was seen as an opportunity to develop friendships, despite the cautious deep set, ill-judged stereotyping.

Meanwhile back in your presently, it was finally understood that Britain had been in some conflict since WW2, on permanent duty to NATO and the United Nations, exasperation was appreciated, and the endurance retained as the heroic virtue it ought be. Britain takes risks, thrives in it. What is incorrect form to for international forces to see that as an on-demand supply of highly trained personnel who are expendable or for continual testing. The purpose of medals is to consolidate achievement, allow the evaluation of accomplishment, recover, and redirect the will of the military and personnel.

Coming Into The Open – Asserting Rights for Rights

That being considered, and I set about accepting my commission, which was voluntary service, gathered immediate support, of those who knew. I advise you I have never been paid by a military to support or take charge until I proceeded Original Success Journal Ltd. I had no idea I was being asked to run 'the operations. The media came together in a formation whereby they, as units explained the variety of dissected cultural suffering of a renegade tyrannical (often secret) government who targeted them by arrest and torture, kidnappings, and poisonings. The personnel questioned the validity of their lives, in terms of service and in relation to the Declaration of Human Rights 1948. They explained they could only trust one who had not hurt them. I agreed to help, and we started to rebuild Mi6 using the media to move people to safety, to their home countries or better, evacuated children to safety and with the agents of MI6, I shared the full-frontal assault of tyranny. This during the Brexit period whereby hostages (other nationals are considered collateral by multinationals was dangerous and the ongoing fuelling of religious or political misinformation played as a cultural narrative. In fact, it was very effective narrative dosing (drip feeding and exacerbating media and the public by their weakness or exhaustion).

British Drunken Stupidity – Welcome Home

Returning from Ireland, I was then captured by SIS home forces who were in a trance state, determined to have me executed in secret or tortured. The last thing one wants after nearly 5 years of previous very hard graft. I needed to see my family, friends, and see that they were okay. I walked straight into their remaining lifestyle, of which I had, still had, no meaning or place. I remember looking at a younger family member and his gaze running through me. Helpless, controlled, and in a snare of drama – nothing had changed all secrets and lies and not one family member happy, happy to have me home. I briefly reflected on being told they had a memorial service for me when I was in Ireland, and it sunk in as I realised they had sold or given away all my property, filled in the blanks with suspicion and lies. Funny, I found out later what they had been up to and am still grateful to all those around me who desperately wanted to protect me from that truth. That story rightly is theirs.

Thus, with the spindle of lies and deceit, gossip and own mangling, I was deprived work, national identification, a bank account, recourse to social welfare, family life. My family life was diabolically subverted and corralled by paranoid agents who were heel to toe with pressing international commercial threats and realising what part they had in other matters I could have no idea about. It was all so transparent. The services attempted to get me to safety and delivered me straight into the hands of the enemy.

That story of watching the security team, who chatted to me on the way, a wonderful group of men who sussed it and waited with me to be handed in for execution, were the indirect heroes in the end of the story. To me, they will always be those very special people who walked into a concentration camp, kept that feeling of 'this isn't happening again, committing to it' and doing whatever they did to make that storm.

What Was It Like?

I got off the boat, I made my way through Birmingham and gave the whole team the fitness test of their life. They were flagging in minutes, I walked them up hill and down dale with about 30 kgs of kit and tested every bit of Birmingham over about 6 hours. I let them follow juvenile statecraft commands and do it whatever they wanted to me, exposing the saboteurs for what they are. At that point, the international team, who knew that I had a sense of humour over 'British Mentality', had them all psychologically assessed before I even landed, knowing I would let them take every advantage to find out what morals they could have left. I remember the Rome team throwing up some graffiti in the background to cover the stench of desperation and poverty. That awful effect of the debt trap suffocating the very members of the state, the public. To everyone here though, I was not the bringer of salvation and good news, I was the epitome of there will to destroy everything freedom bought. This was expected and honestly, I will never get over wasting so much of my life here that I could have achieved outside of the country. It is a damning and painful thought to think, this was worse than North Korea, than Syrian Prison Camps as those with money toyed with me like their toy of amusement, Inside, the unshakable and unbreakable Holy Spirit of a man who made me. I has made saints with saints in their lifetime and no matter what that took, even walking into a gas chamber with you, I was going to. Friends abroad who had been here and bought me news silently prayed to Maxamillion Kolberg and tried to tell me of the sights they thought I ought brace for. Thus, chaps, what winning looks like to you, is not the same as what it looks like to real security professionals. Every breathe you take, as saint or sinner means my last breath to me.

I carried on. I showed the team how to use our new technology live on a coach of actors, and unbelievable pranksters who thought their programming meant something. A swirling finessed mob of crazy assed actors who never expected to be escorting International Security Chief. Me barking orders at them and the whole coach who were playing a mental game of 'overacted incognito'. At one point I thought Inspector Clueso and the Pink Panther was going to get on the coach. I was nearly in fits of laughter over the whole course having to rage with anger to stop laughing as I could hear the security team in the background of the sound pissing themselves. Their misunderstanding that no one was lying form Europe that I was the Vatican Security Chief and at the time COS to other projects, was getting ever more comical as we saw police vans sweep by simply arresting the actors.

I think they learned when they started to rifle my cases searching for information, harassing me and generally passing on one liners they read from texts to 'activate arguments', was seen as unprofessional and threatening to other national security interests. We had figured exactly who had been hired and had known about 4 months before. They were seemingly told to see how easy it was to wind me up to call on the armed police to get rid and get sorted. I quote the operator. Thus, look, we have seen all this kind of quite pathetic clowning before and that is why they are broken people. They are pushers of very popular game show hosts and the world, has no time for it. The real world just finds another country to play in. Point of fact – the title film the James Bond film No Time To Die is not a coincidence.

I do apologise for actors who may have been bundled into coach luggage areas, run over or shot dead by real military. Security takes you as not acting every time you breach a door, try stealing, touch a VIP, steal or record information, pretend you are a journalist, or any other unreal, unbelievable joke you prank as you watch your 'could have been' very successful career piss away right before your eyes. Security did not think you were funny, and they still don't. You are recognised as a threat and shot so you don't scream. To point out, they will handcuff you and go to the next call like you were on a stag night.

Welcome to real world security. Hard lesson. We do not do Celebrity SAS at all, ever. What we do means what ever you do, make sure you mean it like your life matters on it. It might do. Later we proved, 4 years later, that most people still are beyond waking and that many of them died in civil conflict. I consider this incompetent training and the responsibility lands on those who attended unapproved third-party trainers who are not mine, or ours and dazzle you to believe, for a tenner or a fast buck they are. If you have been injured, ignored, acquired information it is because: Jz Zillart did not present it live to you on a stage, award proper certificates, and so much else. They were con artists and generally unhelpful people who set everyone up. Ultimately smug promotional managers of often famous people in the fame slave game. They like to think of themselves as spy masters. The services refer to them as Disloyal Pricks which is unfortunate because if they had not sabotaged the plans or attempted to take me as a hostage or threaten, drug or big it up, maybe they would have integrated quite well. It's over now, you are very welcome to buy a ticket, get on the show or if you are services or want 121 training, it is certainly welcomed. Jz Zillart only trains intelligence services and not the public because 'they are a special breed'. This book gives you some way of an insight as to how beautiful, affectionate, and caring they are. They would die for their VIP and they quite mean it. They become family. They do use Oliver's 'Consider Yourself' as one of their anthems and that whole understanding in Oliver is probably where most of them come from.

Back to the Theme

I had walked into a Zombie Nightmare of ill equipped and with untrained people who were in blatant denial and made to be that way. Accept quickly they used your desperation to exploit you so you did not notice what they were doing. When Mi5 started sending officers to acting school, it was certain. I am still here for you. Somewhere in a device of aging fears and repetitive psychological strains, disposed of by the 'mental health trap'. We snapped you out of that. Study Abraham Maslow.

Who Are You Again?

You need to know, if you are qualified to ask the question, I will answer it. If not, we are caused to silence. Being that someone asked, and generally I don't hide from my activity, I am sharply honest and able to be that way because I have to take responsibility for my team's actions & my own.

I was in my absolute fittest confronted by the weakest and most terrifyingly mutilated personalities of families and friends; all of whom, never knew what I did for a living and relentlessly, all my life had abandoned me. Why was I rejected? For not being the woman, they wanted, 'the carer' 'the ignorant' and 'the would have been subservient victim' of their fantastical imaginations. The greatest of offences against

them was I could not tolerate their characters in line with my own personality traits or direction, meaning or purpose in my life.

For this I thoroughly repented in myself, begging at times in the chasm of my heart why I would have been also, incapable of sharing the abundant love I had for them. An intense faithfulness, developed to family life and values, ever wanting to be with and grow seeing that same family flourish. I would like the family who think I am their Aunt, to stay in touch there is a whole story there for you that will not be disclosed publicly. It might be that I am simply your God Mother, and I would ask you to resolve that quickly as you can so it does not hurt. You can ask me, and I will tell you the facts of the truth. The short and long of it was, when I returned from leaving at 15 from home and joined the Police, they hated me thereafter. Why, it has never been made clear – they too have a right to silence. I do love you and if you ever got hurt, God help them. I could not save you and hope to one day I hope you know it near killed me more than once trying.

In family life, I was incapable of having a rapport with family to share the love I wanted to give them. I was never allowed to do more than pass messages through two people. They had a very definite view on what a woman should be, and that stereotype was never part of my compilation. Nor had I ever found a man who could put up with my horsepower. An amazing disappointment for family who believed 'a woman should suffer as her mother did'. Near dying in childbirth, possibly having a child survive partial abortion, being blamed for taring her in birth and damaging her parts, multiple seemingly satanic rituals and not being appropriately married did not suit me and nor did polyonymy. There remain stories of the man who raised me and the child who got run over by his bus and photos which are spurious. All that destruction means something, although I don't think about it very much.

I was a wild, untameable life lover and a lover at that with a trail blazing history of using sex as stress release function. I credit here those lovers of whom I spent many affectionate times and that I have no complaints whatsoever other than fond and delightful memories. I might like to thank you formally, and of course needless to say, you know who you are, and I do know your names; and those who lie about it, I can bet other people will have fun with you about that. Technology, my friends is undefeatable at this stage, and I have been live videoed since 2019. That means, intelligence officers know who and who has not done something. Accept defeat if you have lied about being a lover or a boyfriend. Not having a memory or feeling it – has a consequence. I have heard it all and occasionally drawn breath.

You only must look at the men and women I have been in an affair with to know how real some candidates would sound like to everyone else. I am sorry, to the many wonderful ladies who cooed at me and maybe I missed a moment there. Often, it's a time thing and I only have time for casual relationships that mean everything in the moment. Since 2015, I have not had an affair or a fling with anyone and that was to practise celibacy. It is going well. Would I, yes, I would. Thus, we are all human and weak and sinners. If you are married, consent of both parties would be required.

Thus, I am a little interested about men and women and have since honed that weakness equal or older than my age. One was trained hard in Martial Arts and got the I in the wrong place. Marital/Martial. Misplaced (maybe) frustration disregarding the faculty of creation and yet I had to decide if that was me revolting against my human condition. Maybe I will work it out one day. Until then, I will admire persons for all the beauty that they are inside and out.

Tell Us About Ireland

I had been near five years in the Republic of Ireland. Managing prisoners of war, defective military, converting international terrorists to peace bearers, developing agent safety sites, and destroying places of ill treatment was a large part of my occupation. My reputation for ferocity, honesty and an intolerance for unnecessary harm was well known of, as was the sense of my passions for men and the wicked misplaced desire to complete a PHD in the understanding of Sadomasochistic Behaviour in Sexual Relations. That was culminated by the biggest sexual revolution in the Roman Catholic Church and the Abuse Scandals, concluding in the McCarrick Case and implementing safety for all staff, outing fraudsters blackmailing the church, and installing principal morality with Pope Benedict 16th and Pope Francis.

“Its like hiring a hitman to perform an abortion” (Francis – and I was)

I had to have the answer as to why someone would do that to a child and following the expert rescue of the NSPCC as a child, I knew I that answer would be resolve. I rely on Dr Del Paulus for insights there and he is a genius with understanding personality and the lengths of where people are at. Occasionally he reminds me that even I can go too far in the art of fantasy and writing dark materials. Alongside those was developing angels and demons works in exorcisms and the live scientific exploration of their operation in this world (including their influence as energies on artificial intelligence)

Let Me Blow Your Mind

“All humans have a right of bodily or corporeal integrity and that with consent is to be remembered.”

Father Gabriel Armorth

The British situation was small scale compared to the slightly larger situations abroad. Torture camps were quite second nature to me. I had commandeered them, so I commanded the same camps here. I have a habit of taking the access off the cruel and chatting up the evil to find out its business in an excellent place already suitable for life. In short, all that personality flaw in me, with great coaching and training produces a controlled and balanced person who can direct the darkness to the light and enable the rightful place for the working out of all that malevolent evil to love and pleasure which is healing and recovery. If you want to be in intelligence, understanding this will be critical for at least another 20 years. Get busy with it.

Realising Britain Was Money Spinning Concentration Camps for Abuse, Experiments, Sexual Control and to maintain Institutional Influence in Foreign Policy

There was no denying once the British agents ratified, we indeed, in England had concentration camps. I had been in them, investigated the for the previous 10 years, seen endless suffering and experiments, cruel

and degrading treatment that people had accepted as 'the best they could get or for them'. Completely degraded and disenfranchised, deeply fractured people, who were the feast of other persons temptations. Used for amusement, gratification, manufacturing effects to validate a non-existent illness, the induction of psychosomatics across the nation of Britain, to repay the debt trap, sat the cost of human life; experimenting on people who could be easily ostracised and used for harvesting, breeding, informal sexual practise and highly illegal medical/chemical/biological weapons testing.

There is an extended story here which remains undisclosed for it is simply a digression that affords no respect to the deceased who paid the higher price. I do encourage anyone to disclose or openly talk about what happens in Britains medical settings, whether you are a parent who has trusted a 'health care worker' are a patient detained and abused for years, may have been used as a surrogate mother, has children in custody and never seen them again (but they said you were mad), Have been taken by three letter agencies and had organs taken, been convinced you have a diseased part or told your unborn baby was still in the womb, with little or no proof. If you are aware that under NHS digital, you have to opt out of organ donation, really meaning harvesting, or suspect a doctor to want a body part, to arrange your incapacitation, to fix a preferred patient under their private care. It might be for stem cells (or fields as they cover it) or that with the transgender sellers, they want large penis's and convince men they are women, often using drugs to do so. In this country we have many foreign professionals who do this as part of their international obligations and with public awareness, it can be crushed.

What? Kak?

A prison has been a concentration camp, and I can assure you that argument will be met by real human beings, who may have committed crime, who did not deserve arbitrary punishment or to be enslaved or extorted in the evil ways that have been. I studied the 'Stanford Prison Experiment' to understand and deradicalize some places. One other thing to mention here is if you find a person who is studying psychology. Be sure they are not doing so to find healing for injuries originating in their lives. That will make a horror evil car crash of dehumanised camps later down the line. Be also sure they are not learning psychology because they have a proclivity to be sadistic, or they enjoy witnessing suffering. They are simply absent in love in the first instance and must learn first what love is, that it costs nothing, and they are worthy of such a prize. Do you see now why these men are vulnerable and that their rights matter? Why I insist on their welfare and that they have more control, or safety in place. We know how it works...ladies, do not at this point lump all criminals in with the same abandonment or wish that on them. They are the lobster pot attracting the danger and when you are in a hospital, it could happen to you. Speak out and up doctors.

The Pathology of Hate is its Own Motive

Thank you, WACO team (the Black Swan Group) who were the hero's often tactical application at ground control ensuring victims of suffering attempting to use crime as a means of survival, had escape options. Here our friends in the then reformed CIA and FBI in the USA (Middle America) were the dedicated change agents assisting the distribution of food, enabled accessibility to a meaningful education, and they set up new local business, reconstructing also depleted Dream of Freedom Birthplace itself, America. Those noble British and Spanish who once observed the Spanish Amada, on the Plymouth Hoe in England, had sailed Christopher Columbus to that place, with others to escape the radicalised diabolic effects of Christianity's radicalisation of England.

The Most Haunted Effect

Post reformation and following all the death people continually encountered, the temporal effects had latent spiritual effects. Such as finding bodies in walls or rotting dead bodies years after where they fell or deceased to be found by children, making in them inexplicable acts of horror in their delicate hearts, rising fear. At that time there was no other explanation in a church that did NOT ALLOW READING/EDUCATION for paupers. This staved developmental learning to stupefy the people, having lasting effects on a nation. However, the Naval Spirit, the great adventurer denied surrendering to temptation, with the ships crews will to that great imperceptible dream of freedom in their heart, they set course and landed in the Americas. That to me is evidence of belief and causation enough to believe the righting of the course to sail with the wind from the rear making vivid again the dream of America.

These brave organisations and people made their ends for the betterment of the country and are reliable conversion stories on how to maintain peace. There are hundreds more and one day I will have them all listed. One contemporary communication channel being Sputnik Media Agency and all at the Kremlin. It has been a ride and a great theme park. This is not an exponential list and we do have the British Credits right near completion. One special mention goes to a colleague and friend – Shinzou Aby of Japan, David Amess of Southend and Li Weng of China, Olivia Newton-John. One very special Welsh Woman was Clare Drakeford, the loved wife of mark Drakeford. Forever missed, and ever in our memories of greatness protecting the world.

Outward Meeting Mi6 Chiefs Who Were Honest and Requested Internal Investigation and Reviews

It was a lot later, Richard Moore the Chief of Mi6 surfaced and made contact, following his release from capture. We were both captured at the same time by the race hating Mi6 agents who saw our killings as the last chance to make sense of hate we never initiated (they were those before who engineered racial prejudice). He repeated a new strategy to keep the Original Success Journal Ltd progressing as I engaged with SIS and MI6; fusing Original Success Journal Ltd to the Ministry of Defence by using the Ministry of Defence Covenant MOD. I agreed to network and support the development of the OSJ as CEO (not the founder) following a secret meeting in a university where Mi5 also broke into at Northampton (with a buffet to prove a point they would not let me be captive, not even by the MOD). Mi5 have since been paranoid about freedom of expression, and will no doubt be their feature in the future. At that meeting I met sections of the Army, Navy and Air Force. I met my equivalent female Major General who remains very much in the impression of what I would have become had I any sense in the first place. I also met the SGT Alan 'The Hat' who was living proof hard gentlemen make great decisions to serve their men. Scientology are just on the line wanting to point out their musical science engineering has been the exponential component in space and communications science. This part has more to add and as it is developing this story with further updates that will be able in the chapters as I progress. I have no other way of accomplishing this detail tonight.

There was a great deal of resistance from self-centred, prejudiced, self-interested and long-suffering states people who had quite enough of having their way of life destroyed by the uncontrolled cultural influences,

(called states craft which is not on a manifesto) inspired by state sponsored terrorism. Professional Clowns and Magicians became the bane of their life following the support training now available at www.zillart.com called the History of Clowning. Never underestimate where people learn disguise, that is in theatre and the arts. All of Jz Zillart's Work are on Amazon. All proceeds are reinvested into the business and the staff share 60% of the profits as their annual bonus. She means to see as many of the staff make it because of all the efforts they make. And that's what I decided to do with my sadomasochistic error. To ensure that the staff, enjoy it.

The OSJ has hundreds and thousands of participants and volunteers. I am thoroughly thankful to every one of you.

Patience and endurance were sought to continue in the public's defiance at a government that had killed more people, not only worldwide than WW2, was facilitated by the NHS and Social Care. I ask that all concerned have confidence in the war crimes courts and that the nutcases (who may still or still not believe there is no nut) can do little more harm to you than you hurt yourselves. I also ask at this moment in time that all services insist that no more illegal immigration is birthed by private or morally emotionally influenced arrangements. We must allow aid in and there is a need for strong people to remain where they are to assist.

The disaster of Brexit will become clear as to being a mounted hate campaign designed to slay the people resident or seeking escape in Great Britain and Ireland. It was an ISIS strategy. Britain had become a major Jersey 1948-50 situation and with that comes ruthless survival, the derogation of morality and the development of life long damaging habits in criminal insanity, within civil life. The criminal behaviours was hardly blended in as 'ordinary crime' often under reported to deride the state assets of policing and courts as other communities made up their own justice, including the executions of children and their families. Abortion, for example became a punishment when a man suspected his wife of not being pregnant by him or one of his associate's mating's. Same sex relations of any kind were seen as homosexual and objected to as such. Post was stolen, opened, and read to decide if I and others was earning too much. Only being allowed minimum money. Being driven to use food banks because white people were too low a cast or not clever enough to decide what to buy. Observing charlatan religiously indoctrinated psychiatrists murdered and celebrated the murder of their targets. A Russian impersonator, far from home still faces a gulag back home for his pretence of being one. It goes on and on. The sad effect of the Great Disaster when some of the most important scientists, technicians and others died, so went with them their expertise. Ultra rare in the world, they were irreplaceable, the religious hell bent slowly realising that God's provision was those people and their skills, watched on perilous times as their congregations died, their execution orders and injurious, punitive punishments met with the wrath of their congregations, who saw them for the first time as the ignorant tyrants. One was stabbed in a place of worship and the enraged faithful continued to mutilate their bodies after death for satisfaction. Thousands refused to pray or read unholy texts, burnt their books and bought furniture. They had been conditioned not to speak English adequately well enough (their plan to use foreign language as part of the invasion failed with science) defaulted to the erroneous thinking that praying a certain set of words would cure nuclear radiation. There were many that died because the murdered or detained the subject specialist, could not get to the target (no money, transport and on). This was part of their forced conversion and social conditioning. Still the religiously warped insisted to congregations, God would save them, stood amidst poisons and danger. The truth was they were death merchants and cult leaders. Exposed, these people face the consequences yet.

The Institutional Recalesce Pathology of Insanity Exposed

Insanity is not in one person, it is in many, in one institution, often enmeshed in many minor plots and schemes that they exhaust themselves with. They always end in their life's destruction and many others. Thus, INSANE the sanity perceives itself from the panoptical becoming paranoid, because it's overwhelmed. A group of people operating with the same schemas appears dysfunctional to the public or viewers, and the individual diagnosis becomes known as 'institutionalised' or justified insanity that no one dare offend, because often they have acquired great wealth and power. We see this in royal families, politics and even smaller families who trade their children to markets. Today we are dealing with desperate parents who allow or encourage their children to perform for cameras or to simply earn money. In Brazil this phenomenon is common. I am reminded tonight by the security team who left in a bag of sweets called spooks to mention this. The fight must come from within from all to defeat such desperation and you will.

At one point I genuinely thought of their madness and pitied them as I knew, out there, I was too far and too out of time to get them help. There was no breaking their trance of accounting and reaping profit from NHS contracts.

I remember that great wall of hearts and their people who painted hearts there by the Thames River in London. I saw those who detained me and their families grieving there. Them looking at me wondering how they got it so badly wrong they became the murderers of their own kin. I simply read the names pitifully and remembered their good works which must have been once true of them. I am speechless for the dead, have no words. I am neutral in emotion and still manage to fulfil my same duty. One of protection and service to those live responsible to me. In my silent humility of dealing with the African Gangs who kidnapped me and far Eastern's who took bets to murder me and my fellows, I remain humble and think, I would still save you from a nuclear incident under my obligations. I still wonder why you do not yet understand the purpose of learning defies breeding and thus neofascist insistence the DNA continues Secret memory is nothing more than gross fascination for brutality in sexual relations, a gauge of an inhumane person, and the justification for domination of men and women. Your insistence of forced marriages to keep pure your family lines reinforcing nothing more than generational hate that recoils in the effect of emigration and migrations of people. How your insistence that different tribe of Africa are better than the other by measurement of beauty. How vile you are viewed by those who do not tell you.

British Lives Matter

I can tell you this, white and black British lives do matter, and they matter because we are not at a point in history where the time is ripe for other people to master our specialisms in teaching, chemistry, and biology. That is not our fault, white people have been making an invitation to all groups long enough to have got started earlier. The fact being leadership of more traditional people said they could not train or learn with us lead you to falling behind. These brutal fantasists who gain everything for their luxury of power or things hard drive segregation to preserve their cultural expansion. We did explain G5 and G6 is lethal and to train with us. Men who refused to train with people like me, an educated woman, has never condescended on a man and sought only to raise them up. It is not in my consideration on who I train by genitals or age, it is about the ability to learn to competency and thereafter maintain that standard without ignorance of updates. It is effeminate to choose ignorance leaving your duty at risk of harm.

I not being Black British cannot speak for those lives. I can speak for White British lives and set straight why and how we are refusing to tolerate any 'white racism'. I can also tell you that because we are rare, are the original inventors of much, we are subject to excessive scientific enquiry in psychology and biology. This positive discrimination means we are over explored, and that intense scrutiny damages the welfare of the population, as we are over experimented on, so other peoples can discover the genius of creativity. It is illegal in war crime courts and reads as a genocide because those experiments are cruel and have lasting, damaging effects. See it...

Our Feelings

Overall, we white people, feel like we have no interest in staying at times, we have performance exhaustion from being involved in every war since WW2 to all the experiments on intellectual creativity. We are as different in Canada as we are in Newcastle. We don't recognise our culture as alive in Britain anymore and we simply persist out of duty. We demand that cultural appropriation ceases and desists and expect you not to fulfil or fantasise that you can fulfil what we do and are. All other races cases have been heard and settled. The excessive pushing is now proof of intended extermination of our ethnicity. These are the charged faced worldwide. I ask you to urge caution because united as white people defending a part means we will be rescued to a nicer place and that move will leave Britain populated by unskilled people who will die by mistakes of maintenance errors in major infrastructure. We in the military, can control nuclear fallout or any other effect by infrastructure damage in Britain. The populations who are here, have come here to take advantage may well be walking into a death trap. It is expected that our culture is restored by those who have provenly profited, exploited the banks and finance, taking it to their 'preferred home countries'. If people do send their money to another country, then that will be seen as their place of residence and NATO and the United National Security Council will ensure that they spend the minimum time at home. What is very interesting, and we are grateful of is that the Germans and Russians, completely agree this has been an ethnic genocide of the Saxons, Normans, Celts, and Romans; being prepared to assist with the extraction of people culturally converting the culture, contracepting the natural ascension, rights from the pedigree and lineage of the people of the state. A rock and a hard place for politics and the people.

Why Calling Us White is Racist

Lastly, we are NOT WHITE. We are Normans, Celts, Saxons and Romans, travellers. Please spend some time ending your racism and maybe respect our background. We say nothing because we were impressed to survive the violence of the ignorant and escape to a place where we have cousins. We are human and we do have feelings. Therefore, do not disrespect us in our descent, we are English, Irish, Scottish, or Welsh by country. Our ethnicity is Saxon, Roman or Norman or Celtic by bloodlines.

If you wish to know my ethnicity, I am ROMAN. My nearest relatives are Celts. This is our land and ecosystem. If you get lost, ask any of those four real peoples who will put you right. We don't need maps to navigate nearly anywhere.

Nationality is not ethnicity, where it is you are blessed by land and air to be born. It does matter about ethnicity, Normans for example, cannot navigate sand dunes with instinct and nor are mariners by nature. Celts and Romans are excellent mariners and navigators of the sky. Saxons are great British farmers who know the land and season by their instincts and weather. This being important because they know when to plant and there is no technology that can tell any other farmer that. Saxons are also great cattle rearers and horse people, whereas a Roman might ride a horse, but not keep a stable. Travellers, are Celts who understood that plotting up in permanence, was not healthy for the land, nor their hearts. The continued selective annihilation of the Normans, Saxons, Celts, or Roman people will be seen as a genocide and you will face the worlds anger for it because worldwide, we are a minority, more than the subverted label of white. White is not an ethnicity. No one has stood this correction publicly and I raise it on behalf of the ignored parts of MI6, staring prejudice in the face because they are tired of having to separate their identity to other label's simply to access their human rights. For other ethnicities, the same story stands, in their lands true.

I here point out that it is no ordinary crime. The foreign cultural occupancy of which established laws had been subverted adjacent rights. There are Magistrates and High Courts and if you have not found your course of justice in one, or yet been told it is law by another organisation, you can refute it in good conscience; knowing that there are international forces prepared to charge and arrest people for defamation of the law. I had seen these changes and effects over 25 years and had realised, like coral, we were at a point where physical barriers of community living had become blurred, and challenges made for definition or expansion of boundaries bringing on local land conflicts between, foreign peoples. You see how there is a lesser rite of ownership in the matter? This, being largely sensitive to discuss and much still in action, had become tactical segregation by major religions and their entwined politics on foreign land, with their own leadership, who for example could defy the laws of the lands by numbers, violence, threats of violence. To blow their strategy, they secretly plotted the overwhelming of nations to allow the first wave of their enforced migrations to die, so that their wealthy families could inherit those lands after, even a nuclear incident.

Mission Creep in Civvie Street

These uncivil hidden authorities stripped the individual civil rights without giving the British or civil rights to their own foreign companions, installing local enforcement dictatorships. Those people were not elected local officials, they were the middle management of an international invading ideological force using a long-term plan to eradicate the White British person (or others) from the lands.

This effects of this initial racism on the landing of the first embedded land grabbing property developing unknowing victims meant, that they did not have the expertise to manage medicine to mechanics of massive civil structures. No one had predicted the white man would leave and abandon ship, that they would rather set off a bomb whilst sat on the enemy than allow their plan to dominate, even their allies people. In short, even when we tried to educate and invite different races to place of opportunity to take up the work now, their leadership denied them the access to. That is not the white man's fault. The barbaric attitude of a simple life with such dangerous machinery has zero effect. One cannot influence a power station not to leak or stop a combine harvester or threshing machine by seducing it. Yet, some of the leadership of those others, believed that was possible. The dysfunctional thinking, we have had to tolerate has been an unpleasant journey of continuous discrepancy on their part.

Training Takes Time and Time Changes Training

It can take thirty years to train for some of those roles and we are always on call from power stations to places like Portham Down or animal laboratories. The reason it takes so long is because we are monitored and trusted to ensure safety over biological hazards and on. There are no mistakes in for example breaching a biolab with harming millions of people. The completely ignorant and people had no respect for that and were deluded that they could simply attend a university course to master that. The same effect happens in Northern Russia, I say this so you can appreciate that people are shaped by their environment. They too rely on excessive prayer, which is exactly what the untrained do. They pray because there is nothing else or more that can do at the peril of incompetent leadership.

The fact is, it is not possible and one member dead of those specialist teams, means disaster for all. We are stifled by this white racism and ignorance from other races we have served when it is not our responsibility. We, not being of Royal lineage do not benefit from all you claim and have been equal subjects of tyranny. Targeting us by an uneducated point of view, and ignoring your heritage, or using our country to facilitate that is seen as treacherous behaviour, sinking your very own home.

Cover Your Ears if We Need to Shout

We are not to be rolled up into a white snowball of whitewash. We are unique, biologically a lot different. Compare me to a Texan and you might notice size, hair and eyes are all different. We have struggled endlessly trying to explain to the complaining parties on races in public services YOU ARE ON YEAR 3 of a 30 YEAR CAREER, YOU CANNOT LEARN 27 YEARS OF COURSES IN 1 year. IF YOU KILL US YOU WILL ALL BE DEAD IN NEARLY EVERY EASTERN STATE BECAUSE WE ARE THE ONES WHO FIX THAT STUFF. WE BUILT IT. WE STILL MANAGE THE CONTRACTS TO NEARLY EVERY MAJOR NUCLEAR POWER STATION OR WEAPON IN THE WORLD. WE ARE NOT RACIST OR SEXIST. YOU ARE ON THE COURSES. PLEASE, PLEASE CAN YOU BACK OFF AND CEASE HURTING THE PEOPLE THAT DO THIS DANGEROUS WORK. WE ARE HURT, DON'T WANT TO STAY WITH YOU IN ENGLAND AND DON'T CARE ANYMORE. THAT ATTITUDE IN US MEANS YOU ALL DIE BECAUSE WE WILL NOT COME BACK AGAIN. LASTLY, WE DIE OF CANCER BECAUSE OF EXPOSURE TO RADIATION, THUS IF YOU COULD TAKE YOUR OPPORTUNITY SERIOUSLY IT WOULD BE A GREAT HELP.

Still over the last years, we were attacked, stolen from, broken into, beaten, spat at. Women were raped and murdered, had their children kidnapped. Religious ideologues insisted that a woman could not do what we do and we despaired listening to the other white men who got sucked into others opportunity of misogyny, and female hate, or having multiple wives, being assaulted by them and abused by their words and knives.

Here's a Secret – we 'women' have trained with our husbands all our lives or our units. They die, we do their job. As for you ignorant men from other countries, as you watch your people die, dissolving because of a biological attack or simple mistake. I advise you what you screamed at me. 'Your God will save you!' I

have nothing else because that is what's left. A godless effect of men who failed to recognise their own weakness is become poison. And as for the women of those dementing (ceases or prevents development of a human being) ideologies. I advise you I have redressed Mother Generals in Rome, the fiercest of Catholics, who intended mutilation worse than any other religion, who were the last criminals in child abuse cases to be confronted. You likewise are ordered to give up Female Genital Mutilation because it is secretly colluded intended depravation and torture. That which is taken cannot be restored. Stitching up a vagina to prevent rape is not a defence. Stitching up a vagina after artificial insemination to make a virginal birth is a myth and is Grievous Bodily Harm, often with intent to kill, of the mother and the unborn. It becomes murder in the first degree when the motives or effects of harm is widely understood by the public and respective professionals. With the media oppressed from discussing such, it can be said the there is a miscarriage of justice, as it is their duty to report, to educate and should do so without fear of reprisals.

We Are Human and Love, Love, Love Life

The fact a unborn child cannot enter the birth canal to exit in accordance with the action of birthing, implies the intent to murder both the woman and the child. That is double murder. A first wife commoditising a second or other wife and doing the same with the intent to dispose of the mother (accidentally) is complacent to murder or conspiracy to murder. These discussions in the public mean that the natural course of justice is now media viable, and the punishment includes stripping of national identity, including driving licences, passports and other earned qualifications. Being exiled from a country means all qualifications earned here at the taxpayers' expense, become due and payable by their birth state. Any loss of employment or inconvenience because of such will result in further calculus to settle the debt. The home country remains responsible for the activity of their person and will have them returned, charged and unharmed to receive punished equal and due to the prosecution of the offended state.

Full biometrics will be gathered and kept in the national intelligence database, making aware every country their hazardous behaviours which form part of local threat assessments; meaning other services are not put to astrain. Other countries can follow this effect for the security of their state and Interpol will gladly support any entries.

We Believe In Romance and Consent

Forced marriages to pay off parental mortgages are a form of fraud by extortion and/or of the state. We in Britain and Ireland are not tolerating anyone who deforms the law by their own design and implementation. It seems apparent they are not for the justice of the land and will be expelled from it, made stateless whereby that reality makes vacant a body.

This is exactly why the British/Irish are a protected species because we cannot disseminate knowledge to even the Americans in time to defend the state or its assets. Imminent fast action responses by the experienced or mentored, of the state are deputised requiring validation by the master's only. As for the religious aspect. I have no mind towards such ignorance and no time to be concerned with the mind that toys with international threats.

Where Did All the Bad Guys Go?

We have a Ghost busting Team who investigate paranormal phenomena. These paras go about finding places of interest, those are things like injured or maimed people, unregistered little babies and then they, having awesome licensing powers go about SMO's (Special Military Operations: Invented by Vladimir Putin) and they make safe all the weak. The answer as to where the bad guys go, it is not generally known because they quickly move on to the next SMO and SMT it.

What we know is their desire to enjoy high civic or social life and degrade others with prejudice had become blood lust. Again, I repeat, they are detained, well looked after and in complete control by the British Military, NATO, and the United Nations. Hostage International are informed and aware that they are not hostages but welcome to keep check on anyone complaining or concerned for their loved ones.

Where Did All the Bad Girls Go?

There is a little misunderstanding that women can be terrorists, warriors and fighters. Katie Taylor disproves this. She is a world class boxer who has held many titles in the ring and of whom we think is brilliant as a female role model.

I spent much time running and managing real PTSD called shell shock in men and women. This story I am nudged to leave as a note here so that the soldiers, male and female when to be able to talk about as I worked with them. I dragged them through it in difficult circumstances. I will come back to this in some detail in a complete personal development book for soldiers of all kinds to reflect on and get strength from. I worked with Stanton Island to remerge the returning soldiers back to the USA. In the UK we are well behind on this because we are occupied by many foreign interest s who live here and own our businesses. That makes it a big struggle, but we will get there as soon as I can get the time to develop the material. In the meantime, I will leave you with the SAS's Robin Horsefall who is always available for talks, chats and reading material. A real gentleman and hero.

Mind Out for the Inspectors and Their Gadgets

These long-time serving officers who make it to inspector levels are sleuths. They are instinctive, fully initiative, lean mean, psychological machines, which most people, being uneducated, would think were psychic. What they are people reemerging into their community expecting a good retirement and they are flush out unwanted abuses of any system the public (so happens to) pay for.

The greatest sleuths in the UK were Det Insp Lovejoy, The Sweeny, El CID, DMX, XO19, The Flying Squad and without doubt 'The Plumbs'

These people to this day work within society at all levels and arrange all manner of correction to ensure that any gaps are filled, and the risk of repeat offending is minimised.

What Else Are NATO Up To?

NATO are providing support and respite to the nuclear operations and the United Nations Security Council are no longer discussing salvation with any government who is incompetently dangerous to the people and the world. Government competitions for military authority or to submit/surrender a military (inspiring a coup to encourage defamation and allied partner action) with supposed dysfunctional extended Royal Connections here in Great Britain are now controlled and we are at the foothills of change. The Ministry of Defence have their own authority in defence of the realm, and they operate of their own objectives combined with domestic and international threats. Access to this information is done in the strictest confidence and for the purpose of the information only. They do not have to answer to the Government, they do take information FROM the Government and critically assess the reality of that information. There is no further comment to add to this. They are not in any way doing more than managing the security of the nation.

NATO, for your information, does not manage space technology at all. Space technology was initially excluded from government oversight as they were very leaky and panicked the public over insignificant matters, taking advantage of their naivety and ignorance to oppress and control them. Thus, space agencies tend to be very redacted with governments who use media to manipulate the information. Most space agencies like Roscommon, NASA, the European Space Agency, the Chinese Space Agency, have very little government funding nor do they need support from them or their scientists as they simply do not have the institutional wisdom to concretely progress projects. This is being integrated with Space Force, an allied initiative between government and space agencies.

NATO are in retrograde as the world abandons nuclear weapons and fuels, generally they like the World Health Organisation are outed for being the henchmen of governments to commoditise people of other nations for medicine or for experimentation. It is that simple. There are better and resilient human beings on earth that can outrun and remove dangerous plants like NATO and the World Health Organisation. The World Health Organisation for example, being the number one threat to its creator the United Nations. We know this because it allows the long-term abuse of women and children violating the Declaration of Human Rights. Had they of revealed women's rights to bodily integrity, they would not need terminations that leave lasting lifelong effects on both victims. If we think carefully on such a voluntary operation we can see how, especially in the Ukraine, for example, such laws and means were used to create children for medical experimentation, strange and illicit sacrifice. Mothers were slaughtered during the war and it was simple as Bosnia II.

There are very similar patterns that medical officers and speakers are encouraged to talk about. The fact must be that a woman should not be in the position of an unwanted pregnancy and that protecting their rights would be the first contraception we need. There are hundreds of stories to yet out and film censors, who disallow these communications would be protecting the fact of their conspiracy to control women's wombs; I think a friend refers to it as. My view, her right is to be a woman, a mother, when she wants to raise a child. She should not be forced to harm herself for the miscreance of another's ambitions. Both lives matter and both lives can be loved and rescued. To think that they cannot, and now we know pregnancy is a life, has life and is a soul, no man can diminish (and it was a man who described the child as something else to gaslight the misery), her; the mother again. A woman becomes a mother when she is pregnant. There is no escaping that fact and no man can unscramble that psychological trauma. Yield male medical professionals. Facts are facts. If she's pregnant, she is a mother and a mother is a the most vulnerable and most protected creature on earth, even by other females. That instinct in us will probably crush you for

lying and overwhelming women with circumstances to drive them to such an act of violence, beginning to end. To conclude though, there is nothing wrong with being a stud, having fathers' rights or even a sperm donor. Life is what it is today and the creators and women, will want to have babies. Accept that part of what you are, diverse lovers and men, or husbands. There are ways and means now which accommodate all ways of creation, and none to be ashamed of. Your strength though means, so long as you are not tied down or forced upon, you can say no as well. Do not be a sex slave of another, however, that is not your will, that is you being made a commodity too. Men have rights over that part of them and you too should start to discern what that means for infertile couples, or for women who are in same sex relations. There is a world of life yet to come and it can be without conflict and with accommodation. Think free.

More of Spies

In Britain the authority is with British Passport holding agents, seconded by Irish and Commonwealth Passport Holding Agents. To be an agent it is required that you and your parents were born in this country or the Commonwealth. This means you can live and work in any part of the Commonwealth without a visa. Collaborating spies are welcome to rely on these agents to be honest, reliable, and timely with information which is critical to your state security. That information will be either given of or by request or forwarded to your Central intelligence point whereby it is unsafe to transit it to you personally, or that information could be insecure. Britain and Ireland have a powerfully strong relationship of mutual interest and it is called the NKP (and this stands for the Niall and Kerstie Philosophy). The Name Jz Zillart had as British Agent as a child and was changed in Ireland by the High Court, making that relationship sure. Naill Bolan is the Intelligence Commander at Classic Hits FM (now also at The Niall Boylan Podcast) who, without us we would not have created the activity of the international Communication System, which you all use today. He is far better than me on the radio. Ruth, Aisling, Helena and Damian Farraley are the operators who worked 24/7 over 2017 – 2020 ensuring we defeated the fear of snot gadgets. These are Team Unstoppable. No higher merit could be given to their discretion and communication to the whole of the Irish in Ireland, to foreign forces and around the world. We, in international intelligence are completely thankful for all their brilliant efforts, despite the lack of support from management. They made it happen safely, perfectly and 'kept it happy' even when really, we were in the thick of it. Total professionals, all of them.

Even More on Spies in Whitehall (Get a Cup of Tea – This Bit is a Head Banger)

The infiltration of international spies and agents at every level extorting the country's assets was an attraction to investors (fake spies for corporations) who wanted satisfaction for petty ISIS arguments, which is about to become clear to you; they are inter-racial and international marriages or civil arrangements which caused unforeseeable foreign office implications (private arrangements and secret agreements made in private for the benefit of familial or personal gain; AKA Gain of Function - GOF). This contravene the Declaration of Human Rights and can be proven so for they have degraded the Human Rights of others.

The public was and are extorted, starved, abused, frozen to death, freedoms curtailed, conditioned and being sold for medical and weapons experiments, the elderly beaten, suffocated in their sleep, or left to die and or abandonment by those who's duty it was to serve and protect them. All this concealed, without due process, jurisprudence or with recourse to functional justice; deliberately degraded to serve the cause of Gain of Function. The militaries could not respond because of the Northern Ireland Peace Agreement (Belfast Agreement) which makes clear the Military CANNOT or COULD NOT ACT on homeland. Thus,

they had no recourse in international courts. Nor could they appeal a law or apply for a Judicial Hearing as it would have blown their covers. Thus, the land assault and strategy appeared successful and frustrating. That was until they asked for 'The Mac, Jeany Mac' and she with Leo Vvradkar, Arlene Foster and Mary Lou McDonald to set up their safe communications system. That was just after refitting Downing Street with a Russian Communications Suite. That is one of the most important details in the situation.

ISIS called this period 'a stay of wait of execution' for anyone asking for their human rights declaring them treasonous and holding them under the Official Secrets Act, introducing the unbearable and inoperable Intelligence Security Act orders, without approval of the Secretary of State, using Coercion. BIG MISTAKE. They bolstered ego inflaming to policing services to inspire division and imprudent mob justice. The police, having a loving relationship with me since one of them got dragged down a street and they got a refit, stayed in contact considering the rationality of these stray orders. They did not fall for it and stayed within the Policing Act and they, being smart, could not be deviated from their authority (to police by consent and the much-loved Chief of the Metropolitan Police Cressida Dick – she was all safety first in policing).

These awful spies now finding that their service no longer required by such tyranny and by enforcing their cruel justice on myself, were in difficulty with who really is behind their state sponsored funders. The Russian Orthodox put on a real crucifixion to show that money did not matter and to this day occasionally show off the true cross to keep them in order. Mi5, totally distressed about it let me know and I validated that was their style and only they did that. Meaning they would hurt other spies who wished to intimidate them, Mi5 who were being bullied and unable to perform critical information sharing. Civilian militants often show their support to intelligence where it is unfair to the safety of the state That is because we all live on the same ship. Mi5 have a very tight relationship with the IRA who are nt a terrorist wing, they are a civilian defence force and I am proud to tell you, they only act when they work with official authorities. They were the finessed accomplishment of the 1916 Revolution and wars in Ireland with England. Today they are a well-respected political organisation who are well able to manage their affairs. Their mission was to ensure all Ireland was a free state and free of the continuing abandonment and blackmail of Northern Ireland. When they are ready, they will be back. A word on Northern Ireland, only report there if you are welcome and officially linked to the PSNI and the local people like the UBF and the DUP. Do not print anything that is not approved for your own health I tell you truly, that would be an end of the night for you. People have feelings and they do not have a narrative dictated at them.

My thoughts to those, whom I still consider my brothers and sisters, withstand not tyrants, reject their assistance, and instead help the poor in health and spirit by getting them aid or safety. It is not illicit to abandon evil, rather illicit to multiply it. ISIS did not get the point, as did Mi5. They were not to hog advantage of the public view that ISIS was purely an Islamic Operation. This was deceiving the public and obscuring access to truth. The reality ISIS is absolutely destroyed with truth, and you now know the truth. Muslims can finally be relieved of all responsibility that the stereotypical view can now be left behind and you are welcome in society so long as you support and participate in Irish and British culture. With respect foreign religions and their ceremonies are her by common respect and no demand should be made to have them out of country of origin. No country is expected to be doctored by or support any culture which changes its moral, lawful, or cultural makeup. This by even United Nations support means the reduction of threats and stress in societies who are not prepared to support the needs of different cultures. It is for the sanity of understanding not ever country can honestly and fairly uphold every religion needs or promises made implicitly by them. It is a regrettable imposition. Therefore, the party that gives way is the one who is the last in and the foreign guest. Britain is a Christian country; it's laws are the oldest and its foundry.

Nothing of any culture shall threaten nor counter it. All our establishments are key stoned upon it and that is why it is the world leading and safest country to be in. All else brings death and war – which person have fled from. That chaos is unwelcome here. Leave it behind you.

Can We Ask?

This is the fact asked about: MI6 do and they really have a licence to kill. **Only to prevent immediate harm, imminent assassination or mass casualty incidents.** They are intelligence lead, will try to talk you out of it and if you persist, we are in times where fatal force will be used to save life. Protesting this will have you evacuated back to your country of origin arranged within 72 hours, all employment stopped (like having a social security number stopped), bank accounts frozen and cashed out for your departure in the currency of your destination or cheque granted, you immigration status removed, application denied, and anything else that has you humanely removed to a place which enables you to live your life successfully in a place that does not frustrate your ambitions. It simply means you started at the wrong line. We hope you understand gentleness and opportunity being created for you. Agent Accommodators will be assisting you, the loveliest of caring people.

If visiting the Britain or Ireland, regardless of EU status, you must have a place of stay, you must say when you are leaving and if you are in difficulty, you must report that to An Garda or the British Police who will assist your departure. Over staying must be reported for any reason to your embassy and the police. This is because you will become a slave or kidnap target. That danger cannot be over emphasised.

China and Their Obstinace to Improve Their Human Rights Record

China, pre the Great Devastation of 2020-2023 made it clear they were not prepared to support inland domestic terrorism by this international peace disruptive coup always blaming the invisible ISIS groups. Inland of China they launched as a trial run; 'Operation: The Diamond Princess Cruise Liner' and oppressed this vicious codependent action of private and secret commercial company funded actions.

The Chinese people and coopting Chinese Government forced the rest of the international embedded operations to expose themselves. They hunted cyber criminals and operators, charging them rightly for espionage. They did not give way to 'racism or sexism' claims as the evidence proved that person had acted to harm the states persons, for collective secret Gain of Function. Returns. This spiritual depravity, the hate of them born from communist China, was misplaced and impatient to earn what must be by due effort. The sheer fact of the individual who applies their will to such personal development is the one with the grace or talent.

Here I apologise to the Media Companies of China who could not be told why at the time, a black out period was needed. Normal media and an improved media relations should now be possible, and journalists released to continue their work. Journalists were imprisoned as Chinese Intelligence knew that they would be assassinated by ISIS post their delivery of contract use and this distressed them greatly. That was the course of action necessary to defeat ISIS in China. That apology is likely to result in better Chinese

Government support and possibly compensation to the wrongly imprisoned for the right reason. They are no doubt hurting to have done such a thing equally to ask for your insight and ideas on how to improve any facility, leading the way in Chinese Media Security, given your experience.

Outstanding concerns might be the fake Chinese police who may have murdered, kidnapped or tortured (in any way) some journalists and the CSP will wish to pursue them on your behalf. DO assist. Carrie Lamb may be your lead there; a great asset who cares deeply for journalists, especially the Hong Kongers who really were embroiled in the story. You have free speech and the CSP wish you to move with it to shape opportunity to grow in heart and consciousness.

China being the most slandered global country for human rights abuses stormed every illegal factory and illicit medical testing facility (Led by Agent Li Weng) to close them down and charge them in accordance to their crimes. This was known as the wider arrest charge of: Inhumane, Degrading Treatment and Torture. Terms that are collectively one without the other and established in the first instance by the European Commission of Human Rights. Gratefully adopted by the Chinese as structure to collect evidence pertaining to the crime. China proving their care for those with under invested learning outcomes, retrained those with symptoms of ADHD and they became some of the best leading intelligence agents. Their rescue operations saved hundreds.

The Chinese State Party also dismissed many politicians with investments or who were acting for private parties to misplace the mechanisms which assured free and fair trading with public funds. Quite an impressive clean-up operation to ensure the Government served all people and not with bias to the middle class or the wealthy, establishing, to them communism was dead and that all individuals were for the first time, free in all Chinese history to be all that they would die as.

I congratulate every person who participated included the Yakuza, who lead from the underground gangs, principled the morality of a crime free life; showing first that in repentance and community contribution, the might of provincials could only yield the fruit of one and the same spirit. That spirit was all good in them. I thank my contacts in the Yakuza for downing their weapons and learning to read and speak, but above all that, despite drug addictions, for loving their sick and dying ensuring that they too were a loved citizen of China. Worthy of remembrance.

MOB Management in the Public Services – Religion is Not the Ethics and Determining Professional Conduct

At that time, the British Government, civil and public services (who make no mistake can be cruel and callous people at ground level) became a dramatic conspiracy machine for anyone with a username and password. Those credentials were used at threat when at home working, exploited by people claiming to have invisible difficulties, sold to the highest bidder abroad, all to persecute variable targets of different spy masters. Even as I write this, some remaining there think this is a means to their defunct sense of justice. They will be caught and prosecuted.

To further the freeing of speech by those agents who were told by me using that same system, must give supporting evidence of those hired agents within the DWP who aligned appointments to deliberately capture and have maimed or injured claimants. This successful strategy when we look at NHS records substantiates the truth and with thanks to other intelligence agents who put that information together to discover the 'acting groups' now are pursued by special forces who have the jurisdiction to capture those people in whole, including child soldiers who act for their parents to avoid the law. The Jamie Bulger case ensures in any instance of prerequisite case law ensures that there is no need to debate the nature of what constitutes a child murderer or murder; to make effective any arrest.

Use of force is permitted where there is a direct threat to special forces lives (the representation of a civilian person who can mitigate equal threat of assailants use of force) and therefor, Special Forces are uncharged of murder. Apprehension of murderers or murderous tendencies negates the mitigation of circumstance, meaning any use of force is justified and made null. This ensures the law presides the land irrespective if it is coming nay going. The circumstance of ongoing mitigation is lawfully terminated by use of such force; in effect the crime is dissolved as requiring penal satisfaction, by the representative of the state. In this example Special Forces.

Military Special Forces Units are made by the requirement to bring to the law the means of capture and desisting threats to civilians. These are both citizen and military qualified able to satisfy on land matters where there are threats that do not require full military interventions that equal a battle or a war. It is determined by the assailants preferred use of force and ruled that the Special Force cannot use more than necessary to prevent that use of force. It is also to be understood, that have no power of force where their sis no circumstance that requires them to be visible or in actual terms viable.

It is under this corporation Special Forces are selected and made. It is how good is bought out from evil activities sin a civilian setting. This is also how regiments of every type are formed and why they are closely linked to the causation they became experts in desisting, anywhere in the world. Should the assailant's activity have been good (or lawful), all would survive Special Forces request to cease and desist or arrest. Resisting arrest proves the intent to continue harm. This is how a Martial Court satisfies the evasion in a miscarriage of Justice, because they have been sent *for* the Justice of the Peace.

This was the ultimate weakness in Equality Policy 2010 and the short-sighted enforcement rulings of courts (harked on about by the public objections since 2006 – recorded most in the Daily Mirror Newspaper for Journalism). The Implementation of the Equality Act 2010 was unjust to deviate from the freedom unenforceable by the very nature, in the Declaration of Human Rights 1948. It became a rupture of something that requires entire affection, to be accepted without deviation nor dissection (enforced integration). It's very approval enabled communism by division of the Declaration of Human Rights 1948. One must fully adhere to its vows (articles) and its only justification in any land, its existence. The miscarriage strategy had allowed the Trojan Horse to every place of accomplishment, a diabolic spiritual mule of the most heinous construction. A dissembler of freedoms with the impression of the hero.

Our ground public services, who were so egocentric (using the machine as a means of exploitation and self-defence) failed to head all warnings on using prejudice against any returning soldier, the person, or to hold any ill thought to them. This is because of their transformational and adaptability to tolerate civil justice offences. Soldiers die for what they are commissioned, and in testing civility can prove, truth of 'land lay'

to their powers (the MOD). Operators were warned not use the services for malicious harm to people dependent on the state. The people, having civilly defence trained themselves in collective harmony to shine light on their perpetrator's, had 'lost countenance'. Being culturally segregated it became possible to kill anyone in any care home or health service, or to hold 'Prevent Groups' to target and victimise indiscriminately people using RIPA. A piece of faceless law most suited to undisciplined and malevolent tendencies. For the avoidance of contempt of court, accept this as small directional insight into what the courts will declare as justice later. In respect to your beloved deceased, let us find comfort that we loved them, and, in that time, we had our privilege, enough to learn grief. That human quality makes us human and is our proof that we, being human, will find our way to love again.

These 'actors' are for arresting, evidence putting against them and charging in accordance with, their share in the activity. They should be decommissioned by the state, dismissed from any public office. The initial recommendation was that these offices (such as Job Centres) be closed having caused that juncture. That was refused owing to religious threats at political parties (inverting the stay of execution towards them), which resulted in very real murder.

Staff working out of these very derelict buildings with fanatically fascist ideas thrived, had no heart or will to defend the hundreds of people who starved or committed suicide on their watch. They actively participated in the cruelty and abuse of adults, children, soldiers, the sick and disabled. Listening to those last phones calls, and witnessing this cruelty first hand, they became a recognised Government Terror Group funded by the Department for Work and Pensions. A devastating attack happened in Nottingham. The people lost community control and made it clear they were only flesh and blood with nothing left to lose. The details of this attack remain largely unspoken about for fear of reprisals. When a community speaks, one cannot predict what they determine as justice to cease the harm against their loved. In short, that's when anything goes. Fascists tend largely to live in the imaginary world of 'they have the power over people'. When confronted with reality of weapons or a grieving mother in a state – that has no power. Ensuring they are controlled by strategy simply fails because injustice disturbs communities to act on that grief as we learned from the Stephen Lawrence Case or the Brixham Riots.

So, you're a Fascist Now?

Psychopaths, Narcists and Sociopaths which hide in Fascism, opposing Libertarianism to be comfortable in visual or behavioural familiarity. of any kind are ignorant to the reality beyond their own perspective and revile against it with hate.

German Fascists have done much to assist those sucked in by their own branded neofascism, and having lead the way from Germany, remain the favourable consultants to save the live of such fascists who will either turn to homicide or suicide a their preferred decluttering of society. The Germans win my gratitude once more for their humour with and in 'Allo, Allo' and their sure leadership in fascism itself, letting others know, it is a matter of qualification. British Fascists and Socialists are somewhat always in need of humouring because they fixate and still believe they can win that egocentric battle with their own mirror, alone. They are cleansed of personality almost with a tactic feel of insincerity which makes them hard to befriend or genuinely want to work with.

The police, grateful of the community support as these want to be religiously self-styled fascist gangs of the government caused poverty and oppression, silently supported the community by enforcing harsh raiding and drug/trafficking testing within the Department of Work and Pensions using RIPA in reverse on the staff. The DWP had used maliciously the Prevent and Channel strategy to control and terrorises claimants (the precise legal term to access the social welfare state – whereas they use ‘customers’ illicitly out of trendy subterfuge). Police arrested them for drug and human trafficking. That success story I am sure they will share themselves one day. The whole policing operation confronting these all far right, multi religious ideologs was ‘Nottinghamshire Police and Military Police’ (and horses and dogs) completely owned success of multinational police operations. They are congratulated in the highest and we hope you see the day before Christmas those doors close forever, never being the death traps, they became to you. I also thank the Blue Rangers or Bravo 20 and TAK in the Bumble Squad B, who were the special operations team behind the safety success of so many lives and prevented many injuries. There is a very special thanks to the hard core comedians who remain nameless but very funny who reduced all the operations, giving the very much needed stress response of laughter. The under understood safety system of humans and a genuine function of psychology proven to de-risk high octane events. We call this the DPS and Operation Turnip TiM

A Very big thank you here to Detective Sergeant Mason and Police Constable Barrett, both of whom to this day are completely emersed in the operations, protecting their staff and wider services. Working without question, chasing up security issues and most of all ensuring the team get fed and water when on long waits at big issues.

There offences are against every nation, not simply the British people, and even if they come from every nation, they shall all stand accused by one nation, the United Nations. With that in mind, the world should be demanding that the hostage situations and torture, or oppression of immigrants’ ceases, and their countries are allowed to continue rescuing them from these cruel devices, from hospitals, prisons and other secret places of detainment.

Current Advice for Commissioned Soldiers and Veterans (NOT HEALTH CARE STAFF – you have yet to be briefed)

I advise all commissioned soldiers of any side, absconded or in service, retired or veteran, your crimes may not crimes, they are for martial law. They may be criminal mistakes. You are asked to write a full and entire account of every activity that you might be given the right of defence, self-defence. Those crimes are likely to be discoursed as a justifiable act of war. In all confidence, speak truth clearly and loudly that you might be cleared, in your duties upbraiding the authority. The war crimes courts can condemn those who had you driven to that violence. Your names will be used in full including pseudonyms. You might be questioned informally. Your honesty is requested in line with your integrity, which was high enough to be selected and trained by your country. The courts do not have the time to call all of you to testify. That can be requested if you believe that is your duty, you can insist admission and to witness the proceedings for authenticity.

Media are asked to prepare to be accurate reporters, ratified by the United Nations Volunteer Wing, advancing your career, and avoiding further corruption on the same matters that pertain. Reports must stem from the United Nations and be specific to the fact without embellishment. The pubic deserve the truth and you deserve to restore the respect of the public forum, known as the media.

The Cold War Implication and It's Time You Got the Truth

The Cold War was really about who settles the bill for all the claims and investments in World War 2. The militaries worldwide were cut out of this secret communication, politicians rightly fearing them. They concealed language, developing cultural language to create ambiguity and confusion. They thirsted power over life and death. That stopped dead in 2019 when I got called into Merrion Square, Dublin by the Irish Defence Forces to an Extinction Rebellion Event to command the worldwide multiple operations in counter terror. That was when the suffering people worldwide had conspired using social media to represent democratic will and unmeasured use of force. They were objecting at the manacles and devices of their states, in their lives across Europe who were limiting and directing how they should spend or express their lives.

France Inspires The British Revolution and Macron Started a Fight

We thank France and gilets jaunes for their persistent revolutionary spirit, ardent advice, who refused to give way to anything other than the full right to free expression. I also thank all those who gave their lives in the numerous and heinous terror incidents from the trucks who ran down bystanders and the police who mustered with protecting communities to make a stand against a differently branded life haters, labelled as extremists. What variety in our present context really has no bearing. They are unwelcome in a society where new life should be safe to live, learn and play. That is what makes us humanity.

We also thank France for taking up Nuclear Development Advice positions, despite being spited by the loss of a major contract. Thanks are not enough to say thank you for providing support to Britain and the International Atomic and Energy Agency with complete countenance.

The Youth Come For Help

In Dublin the worldwide security services trained in 6 days organised civil defence armies and established complete communications to evade mass casualty incidents and dirty bombs. This was the first worldwide joint operation scale in counter terror organisation motivated for life and not in fear of terrorists. Those who use any strategy to discourse their right to fully experience life. I later discuss and still commend the teams of young people and volunteers who made that a total success. They are obedient, safe, reasonable people who are some of the worlds bravest and most temperate persons who equally have seen comrades fall. Those who come here or anywhere seeking war thinking they do not know it, may wish to turn back, for this land is theirs and their hearts beats here with their comrade's blood. These were as young as 7 years old who fought and died. Make no mistake, they are worthy of military respect as when they grow, they will have the equivalent experience in memory, of combat force soldiers.

Thank you, RT Media who broke, down media bans to ensure that no civil or public service would hurt the very right persons who just wanted to be registered as alive following torture, abuse, false imprisonment, battery, rape, common assault, denial of education, escapees from institutions and on. They today are the

protectors of freedom and endlessly facilitate the growth of the nation and all the animals and birds. They care for all life.

The Cold War Link – More Attempts to Destroy the Will of The People (Latin: Pleb)

Subsequent wars worldwide have been about the same thing. Who pays the bill and who tells the military, yet another war has been used to attempt to settle the debt or to cover rampant sex offender cruising across the world (Srebrenica being one). Cold people calculate questions like this. Post a mass raping and pillaging of a nation, with a nation disturbed psychologically, is it cheaper to put them to death? And that is how it's been done all this time. It shows you the real Stalin's, Mau's and on. They 'think' they have that right to make that decision. That is what the British Public and visitors have suffered. These days the realisation of the United Nations Joint Missions ever becomes realised. The academics and intelligence (then calling themselves SIS/ISIS known as the International Secret Intelligence Services of privately funded and secret financed government sponsored terror). The goal was to deceive those with military power to deploy their resources to engage war games to justify expenditure and excitement on death. More strangely, they wanted spirits to compose spiritual experiments, supposing they could hypothesise results and conduct eternal energy.

This clandestine operation was simply group of wealthy, self-interested people or companies who saw the world for reaping of people and natural resources for uncalculatable contracts. People are not for abuse or slaughter for entertainment. Lands are not for cultural invading or doctoring. They are for tending and appreciations should they be accepted for their proper use.

Introducing Cult Life and Cult Think

All these extreme grandee behaviours of cult production cruising are now at a worldwide end. It is illegal to be in any sexual relations with a person under the age of 18. And it is legal for 16–18-year-olds to marry and rear children. It is very illegal to doctor genitals, and anyone continuing that practise will face full term prison sentences. This is because it is normally accompanied with serious sexual assault and the stitching up done after a child's genitalia been penetrated by an adult. It is a simple cover for a rapist and child sex cults. There are no religion who disagree, there are simply organised cults who have perversions that injure this world, and their crimes will not continue. Judiciaries will ensure that whatever condition of a human who illicitly abuses naivety or the weak will be stopped. This is assurance to all the injured and 'punitively punished' by those who perceive their pleasure has no consequence to the evil they create.

Meanwhile in 2010 – Mi5 knocked at my door. I said I was not prepared to kill anyone.

I had been aware of the problems withing the Secret Intelligence Services (Mi5 introduced themselves with the famous Harry at my residence) and since 2010 been working with all members of the services in change management roughly since then.

The military now do not approve tours abroad before the country they guard is safe. Governments are being made responsible for their behaviours ensuring they are 'representatives of their community'. Nor do countries fund other countries wars or enterprises until every person is housed, fed and on a path to independence of the state. Countries militaries now enforce that the countries basic needs are met before they are implicated in another governments weapon of choice, which is the expense of money and life. People with such egregious thinking are correctly seen as threats to the state. This is the purpose of the state and why every state should find its service in the people. Governments are there to facilitate growth in the benefit of all their people. Tyranny, the icing of poison, is not proof of good service or works. It is proof of incompetence and leadership abandoned for self-preservation.

ISIS IS NOT A RELIGION – THEY ARE A MIXED RACE FACIST ORGANISATION USING DIFFERENT RELIGIONS POSING AS OFFICIALS AND FINANCIERS!

The size and destructive behaviours of these ISIS groups are not the lay faithful of many different and healthy religious. They are a mess of indecisive and inconsistent people who have no comprehension of themselves or values; thus, they argue without foundation, often ensnaring themselves and others into a death fall. It means:

‘INTERNATIONAL SECRET INTELLIGENCE SERVICES’

They were guns for hire and the order makers of services using the open objectives of SIS to profit or corrupt, damage other states or states people FROM THE UNITED KINGDOM. Making them the world's most dangerous, volatile, and openly organised international terror organisation. These people had links into the British Military, had excruciating power and influence over military staff and their families. All of which have their own stories to tell. So many of these people came to Jz Zillart, or Zen, that she had to make links with the Chief of Mi6, agree to take them over and separate them from the working ropes of nuclear weapons and military orders. That is how Richard Moore became the Chair of the OSJ Ltd. He and she swapped over to ensure the safety of both sides and give them a chance to deradicalize. Some, regrettably are so fixated with their lifestyle and roles, they cannot yet understand, why they are discharged. The resistance to all of this has been magnificent with the SIS attempting at every turn to harm any of us in the MOD Covenant or personally. They have and do expose themselves as to being the career criminals they are. We are enjoying much success as the excessively wealthy and drunk with power step aside to make way to those who truly can represent their constituents entirely, not partly, and not by agreeing to gentrification.

They use autocracy to enforce their beliefs using fear or might. They have people follow them to their own ends, unknowingly leading their followers to injury or death which is apparent in their behaviour and outcomes. For example, the binding of children's feet in China was to prevent people leaving a managing population travel. The belief became the manifest reality that it was culturally acceptable and defined as beauty, propagating and normalising harm to the person. Who later had no right to object, protest or complain. The motive was that people who could not walk far were prevented from assault or access to justice of the offender. Watch out for wealth, it is deceptive. It can be simply a display of what is unobtainable for their indentured servants. Often in fraud investigations it is found the person who is making the deal, is the person who does not lawfully own what they are selling or buying. When this is done

with human life, it called enslaving and slavery. Modern slavery attempts to inform and educate the types of slavery.

What became apparent is that despite the British Government committed to a social welfare state, it is being proven that they were deliberately underfunding the unemployed, disabled, enforcing a two-child policy and on which proved the 'stay of wait execution' necessary to declare them as massacring populations. The figures prove the dead being more than WW2, using the public services as the same threshing machine, only seen in Nazi Germany. Here I thank all the Germans who carefully analysed the historical matter and provide the comparison to the court, often using the 'book' used for the creation of that machine.

The Government, none elected and installed by foreign states to murder any one they dispatched here, attempted to use the Brexit campaign to passively gain consent of the public to unite their will and have vacuous permission. A technique where they coercively have the public consent to win public services compliance, by referendum, and bind them in a collective emotional conscious to bind them to compliance. This was to subject their conscious to contain and conceal the evil that they had complied to, making them believe they would tarry the circumstance as their own making. This is not true, for the temporal authority allows for the mitigating circumstances that accurately appropriates the weight of justice in the ends. There is much to learn here about 'cultural compliance'.

This was known (soft Brexit) or not know (hard Brexit) to justify their criminally inspired evasion from prosecution. A clever mass collectively conspired media campaign using blackmail, bribery and corruption to stimulate and manipulate those with stronger conscious. This also involved physical, and domestic punitive punishments to instil the reality of fear in individuals, in as much, as other using the by proxy diffusion of (low level sounds) within proximation of the intended victim target.

The corporate manslaughter claims of a political ideological, unauthorised, experiment of diversifying populations for gain of function to recompense another nations or benefit. These nations were sorely societal deceived as the tendency to covert had become their interior collective vice, that eventually broke their own engineering. This had innumerate expressions including mass assignations of casts from India (the Untouchables) to women arising in power which circumvented religious ideology. The strategy of using chaos to subterfuge chaos had become a methodology which brings total accountability to any minister who signed it off. Each and every one is likely to have done so with the knowledge of personal benefit, which can now be proven with evidence. Here a very famous lawyer asked me in Latin qui bono? Knowing that was all they could say to bring about the will of justice in the teams about us. Here I thank the Secret Barrister and the Good and Bad Law Society.

This was to drive the mass suicide or extermination of those who were a 'burden' on the state, including degrading the returning military who were strong, experienced and could threaten their lives, if they were found out. They did this to avoid international laws of the Human Right Courts. Someone once mentioned in a meeting 'dead people don't speak'. This is not true being that we use, at the United Nations, some of the world's finest equipment in extrapolating echoes or events in people's lives which are environmental recordings. LIDAR and SONOS being two of the most advanced we use and publicly used are MRI machines. The earliest of these inventions are the e0meter from Scientology and polygraphs which have been developed and out run since.

This technology is used against Governments who really attempt to play God. The public need to know that they are completely inescapable of any circumstance they lie in or deviate the truth. Hence why I speak freely. It is just fact that is needed to be known by them and you that we are well passed the Space Age and now in the Age of Angels. That place where humans being merciful is more meaningful than God demonstrating they are.

Governments and the commercially powerful or cruel became caught out when they fully participated in the money-spinning campaign of vaccinations, now proven to have harmed many. This was for many reasons they have in their defective organisation, such as saying it was euthanasia, there was no cure or management of some infections, cancer was not preventable (it is), they may have been blackmailed to keep secret from the public power station leaks. All of which, if they collaborated with the military or had a good minister like Ben Wallis, then appropriate and sensible advice would have been received. The truth, they believed they were demigods which did not need such valuable advice or access to military resources. In this fantastical denial and allied psychodrama, they certainly did not like trusting their military to deliver a safety plan.

When dealing with Governments I tend to ask, is this what and why we pay you? And would trading standards have a problem with your sales and performance? Do Minister receive pay slips and can we see that please?

Tories are Pirates – the First Mutiny of the Party/Conservatives are the Arc of the Values ‘to conserve or cultivate the culture’

The traditional Party of Conservatives (with maybe only a few bad apples in the 70’s and 80’s who rocked the boat) had set the liquor of commercial profiteering addictions, that would bring about its and the nations suffering. Traditional Conservatives do not traditionally have interdependent governmental investments or save themselves. With that temptation the bad apples had taken advantage of the strategy. By deceit it seems and being true to their tradition of one job, no private investments, they found sense displaced the organised and ethical to drift; to be enslaved by the foreign investors, or those who could get private loans and investments to ‘balance the books’ from their initial fraudulence. This is a mitigating circumstance that sold out the initially and properly, at the time, elected British Government itself. To this day those effects of influences remain there awaiting dissolution. Until the illicit illegal actor’s honourable stand down, aware of their activity and contribution, explaining their conceit, our military give must hold the keys to the life on the vessel called the United Kingdom.

We have witnessed, so that we might have closure as a nation, that learning and solidified action which had been separated past rupture point, in the oldest political adventures meant for equality of all citizens. To one side wisdom was cast for excitement and easy time saving. The conceptual realisation of fiscal architecture was trundled off as insignificant. Their saved party funds had been exploited by the new money mischiefs, of which they mechanised the return on investment; and that has yet to be completely and rightly prosecuted as embezzlement of the state, to be honestly returned.

I listened to inquiries and investigations hearing the Conservative Parties truth and of their sad loss of character. Their corporal personage had been violated, exploited, and finally murdered, meaning there is no life left in the first instance (deposit of faith or share in the convicted). Those who were true, remain true and those people, kind and gentle, need compassion, they have been betrayed. The spiritual charism and loss of life such as Rt Hon David Amess are incalculable from aggravated recklessness of the responsible shipwrights. This Ponzi government are multinationals (often variable passport holders) evading foreign office accountability because of their investment interests tied to government office. I can assure you the military are reforming politics and neutralising any of those aforementioned threats. They are seen as enemies of the state and not well regarded for competence in morality, ethics leadership, although impartially viewed from the perspective of justice. The competency model of the Civil Service Code of Conduct is simple and idiot proof, meaning one could only violate with intention and determined will. The strategy of using party money to bail out the state coffers following massively different letting and damming fiscal fraud had led counter fraud to identify every hole above the waterline and below. They may have taken percentages for 'managing' funds in and out, whereas that should not have been necessary to arrange private income from government gains. Ministers are paid a salary to ensure they need not have that concern. This is why it is fraud. It is called in code 'dipping, double dipping'. It is at this point spurious to concern if encouragement of dipping was used to motivate distant investors, whistling down the wind, wrecking trust in the media equally.

Since we are here remembering our loved colleagues and associates as much as correcting the record. I bring your attention to the loss of life they face from retaliation. We remember the Rt Hon David Amess who I will always be sad that a staff member took his picture down out of my office as a show of protest. This hurt a great many people and remains a thing to them that no regard or sensitivity was shown for a person who built this country and made Southend a City.

Joe Cox and her sisters gallant strides to take up her vocation in politics, showing the guts of a woman in the times we have found ourselves. Always loved and missed.

Jill Dando, the journalist who was killed by a suspected Serbian and we ask, if that is true, can you share that story please. There are queries about who amongst them did that. Sarah Everard, a London lady who was caught up in a very dark story, now settled of 'wind up'. All of this mainly SIS and terror related activity. None of whom you should fear – you should confront them and demand answers as insistent as Americans keep on about 911, 7/11 the Lockerby Bombings and on. The question being.

The thing is more people know the truth, than don't. The Psychodrama actors in it and the pay master's have yet to realise, to get to the next round in intelligence, honesty and forgiveness is the ONLY WAY OUT. Those posing as spy masters are often the central point of intelligence. Ask them. Get clear yourself, you would be surprised that in understanding mitigating circumstances there might be a new lease of freedom.

Jail will be probably the only place of safety for many, who knew what they were doing was illegal, they were trading illicitly. They are trading as the party is a corporation in a position of trust. The United Nations should have been called in in 2020 to provide immediate help. The advice should have been not to have followed the Brexit protocols and this is the fact. We are still in the European Union because after Article 50 was initiated and being that the settlement is not paid or repayment agreed, the European

never let us go. Proof of payment and government accounts are public documents and should be made available for public inspection in fine detail. The media then would be able to complete their work exceptionally well. There is no reason to conceal any government accounts with exception to the Military who are inspected by NATO and the United Nations Security Council who can produce individual payments to prove facts on request. That is the essence of transparency. Referendum results must be available for inspection, and if they are not there are corporate rules which can say that the result cannot be real, cannot be proven to stand or be faked or recounted. In effect this means in law, null, void 'as never to have existed'. There is no evidence of the fact they purport to be true, that they call their manifesto from. It is thoroughly unfounded. What we have seen is the mutilation of establishment, continually deceiving the public, offices and military, proving mutiny (not disambiguation) and now the Admiralty (who present the case to the Hague, declaring they have arrested and commandeered authority, suspending it, making it harmless, with free running chains of communication and control to those competent) having control over their verbose threatening capability (which could and does continue to deliberately and incompletely disrespect the need for decorum in foreign, international or militaria affairs), fitting any accused staff crew for prosecution. Rear Admiral Connell Martin (Royal Navy) is the Hague representative of the command, and all detail thereafter comes from him to any matters pertaining.

Being we have foreign guests and immigrants in land, illegitimately boarded, and neglected under international laws, this all becomes business of war crimes. Brexit does not evade United Nations agreements or membership rules. To share further detail here is considered in contempt of court, already heard and in prosecution. The international community have a correct right to demand both **recourse and remedy for justice** for those individuals. The respects paid to foreign nations is recourse to benefit those who have been abused by the mutineers and buccaners and are nationals; considered the 'natives' of the land from 'Naturalisation' and or 'Nationals'. We kindly request the most supportive diplomatic interception and integration to recover any lost or missing lives on board (land) or in our seas (in action); whilst the Ministry of Defence, prevent the safe harbouring of international criminals of *any* variety.

A lot of my work is and always is likely to be ensuring the confidence in the military (including the mediation of militia who have developed community self-defence techniques, which arose from inspired hate and bigotry or multiple assaults from varying proscribed terror actor from inside Government firing on the public – who at all times are innocent until proven guilty; the Education Act and schooling proves the acceptance of the state to educate or inform as does the existence of regulatory bodies), is maintained and understood thoroughly to be a life saver and back bolt to keep open the means of freedom.

Militarily the intense training challenge in the defence of the people, for the saving of life, to maintain the control of the vessel in coordination to survive and thrive (fish) which rarely happens in history; is the first time in historical military consciousness, collectively as an intelligent consciousness to defeat a mutinous authority; who have without doubt sabotaged their life-giving purpose and promise. Known as a vow or commitment, commission, or election these people must prove that they are there by the will of the people and the onus is on them to prove that they have or hold legitimate authority. If they claim they do or have had, they are responsible for the effects thereafter any decision or agreement. If they say they are not there legitimately then they are held as perjurious and face prosecution.

The Hague ratifies statements of the 'immune', proves matters of fact, and they declare the undefeatable facts to a country ensuring they do not have a right of appeal (this becomes the remedy of the peace). Appeals are forfeited as they have time to administer remedy using the countries already stable mechanisms. These mechanisms are regularly checked by the United Nations and determined as competent, reliable,

stable, and functional. Unless the Judges of the Lands agree the law or mechanisms have failed them in that outset, and all limitation has passed (and it has), progress cannot be obstructed to consolidate the perspective on the persons or organisations who have so participated in mass extermination of selected people which compile to conclude as 'to be held and charged with suspicion to conspiracy to mass murder or massacre human life'.

Being that judges and law makers were being threatened, they used their ability to perform in secret, invoking their human right to congregate peacefully and privately, to ensure the test of mechanism were thorough and completed. There can be no objections to government enquiries completed, investigatory powers (RIPA) an don. I thank here the Sue Grey team for our previous accomplishments which have nothing to do with this report but everything to do with rigorous tolerance testing of the establishment rigor.

Your kindness and patience at any level is more than requested, your support for our Admiralty as the spick and span the new vessel of HMS Queen Elizabeth II development is sought. This indomitable ship, a vessel of life was never to sink to that low without the cat on the mast, in the moon, with a freshly landed bird, who could get help (or they would eat it as last supper). This story will be made into a children's story and it's about that vessel the Jeanne Johnson – the only ship of its day that sailed the Atlantic saving every soul.

Labour Party's Struggle with Terrorism

I need to add here that the Labour Party are not free of questioning or accusation. The party, yet another political mob of people, instead of independents representing their areas and the proper concept of people being elected from the Houses of Parliament to represent their skills and constituents to the benches; have yet another great struggle, beyond managing internal terror threats.

Truly reformed, a tempting group of people who have used their organisation to platform their profiles allowing the public to see their strengths, the mood of the public is revolutionary no less. Meaning they do not want a party; they want to elect individuals who keeps their constituency at heart and to not be caught up with whipping and party lines. They want the house to vote in the benches from across the house by a total house vote. They are ready for the proper competition of seeing politics earn their place instead of being installed, way out of their own voting power. This is true of Lord Mayors and counsellors to. The fact the majority did not vote shows absolutely no confidence in the council/government. Faking referendums and results never restarted the political will of the people for it is mightier than the Government or councils.

The most remarkable Jeremy Corbyn, a notable political peace maker of Britain understands this public interest and direction. They no longer want the enforcement of mystery in clubs but the openness and power of voting to have the effect of their will, the public will. That can only be done by having independent ministers who are then elected by the majority of constituents, then as cabinet by the of the whole house to the front benches based on merit, questioning and enquiry. The natural justice of reputation defeating any wrongdoers or vulgar people who have played closed ranks to remain publicly in the dark from their systemic scheming or misdemeanours. That is how revolutions work and refresh, even in the Vatican.

The public would rather a revolution of refusing to pay taxes and demolishing the government by starving them of fiscal power, annihilating the wealthy by allowing them to play top row false economy, as the world transforms proving marginalisation of incompetence makes safe the good ship. They will not seemingly accept any less team their champions, free of any bondage or blackmail to the positions of Ministers of Parliament. You see, the public do vote and really are engaged in it. I would guess that if independents came into to fruition to the public, 80% or more people would vote in local and a general election.

The reason the Governments have not done this is to keep those public doors as closed members areas. That was never meant to be. You can insist on making the difference and you can insist on arresting your MP and on voting day take them to Parliament by Procession, where there is a discrepancy or collusion affecting your voting rights or accuracy in the count. Those rights for women and slaves were hard won. Use them in accordance to the tradition of Parliament and study how the House of Commons was made, in the very reflection of the Roman empire. That means, you, the public, have extraordinary power, bureaucracy is the effect of managing that public will peacefully.

Let me thank Jeremy Corbyn and Piers Corbyn here personally for their discretion and often quiet support as they nurtured young political minds to think for themselves and their communities, that we all hope one day will be constituents. We absolutely believe in you and hope that you inherit our wisdom of teamwork and forbearance of each other. What I suppose all three of us agree on it the tittle tattle of personal insults in politics does nothing for our persons of responsibility. It annoys us that that breathe could be a moment of agreement and understanding to move on the conversation to the ease of suffering or towards prosperity. The box is not for negotiating or insulting over, it is not a device of torture or to threaten the constituents beyond those noble MPS who work hard to deliver their message; it is not a stage for over groomed, want to be famous political ideologues either. It is a box of dialogue and petition, either a constituency is suffering an in need of immediate help or it is for planning ahead to request long term planning interjections. It is not a theatrical performance.

Thus, we are professionals who sit and act. We are not yelping lap dogs and hedonists who see our countryperson as our enemy and nor are we a trader of lives. This correction must be remembered and no temptation to it be present in any member of that house. We know that you, upcoming politicians will refute such misbehaviour and remember that your underachievement could lead to deaths, and you will not withstand a tyrant affronting you over that box. You must seek to out them and insist the Speaker of the House ejects such passive aggressive and coercive behaviour from that Holy place of democratic salvation. Their neglect of any request for previous assistance has shown you their sabotage in plain light and you have seen your communities ruined to rubble nearly. Therefore, forget not what they can do when they believe 'they are in power'. A belief has no substance or meaning without the tangible result of most of the request.

As I became the Head of International Intelligence (HOI), it is exactly what happened. I was kidnapped, tested, questioned, voted in, made to agree I would not fold, even in the face of torture and death, because they believed I was there, and I would defend and represent the accuracy of their perspective or afflictions, their rights. Without affliction or suffering, I am next to no use, thus I have hobbies in prosperity and engineering. And to this day I remain under their duress to ensure I represent the necessary freedom from excessive government interference or geopolitical collusion that could harm you or your service, businesses.

We are in a mass righting phase, understanding what has happened and who is best to work the ways to retrieve what's good for our communities. It works, having elections where the love of the people is so overwhelming, they refuse to not be involved in all activity that involves them. That story is another story which I will expand on in other factual texts and it is why I know all the world leadership, rarely interfere with them, and protect the countries interest through them, holding them to sever account. Often it is not them but other lower-level sufferers who assault or insult me because they do not appreciate or respect that the structure does work. Many of those safety systems are in place, if you use your tongue with the powerful, they can be mended or improved. It has been a pleasure and honour to have heard you in all your ways and I encourage you to talk to me or to powers. Please however exhaust ever effort to use the power your structures have first to find the breaks or broken bits and only if they know the issue, fail to act, should I really need to draft operations. Do this and you will be fine doctors of state infrastructure. That is the people I grow up, and the dare to go into the dark forest is the test of reality, where belief and disbelief reveal common reality. There you can stop others being harmed because you know the problem more intimately than another. Remember though, when it is finished, let it go, reflect or you might end up the tyrant. Study the grace of the Saints to discover, really, there are thousands of adventurers who have all mastered this. You can be a saint, even if you don't believe in a God. It is simply to be the human being you were made to be and having the strength to defy evil.

Open Your Heart and See

ISIS groups are identifiable – where there is wood rot on society – that is resultant normally of their funded activity. It is a hijacked name which was stolen from the Persians who were in the first instance priests and priestesses of Isis the Goddess of fire or light. The Greeks wrote children's psycho dramas for them under the masculine character Icarus, it is sometimes thought. Research required here. I interviewed some of these descendants from this ancient art and religion dating back to about 5000 BC and they discoursed their view. I also know the changes of the Persian people in Great Britain, being a cultural counsel of them around 1996 over a meal. They come from every background they are not stereotypical Arab looking, burka wearing, illusive and conceited.

What Isis Is/Was/Could Be/Is/Is Not and What You Do Not Want to Be

ISIS early political clerics, who did not have that name, in the regions of Iran and Iraq (the divided parts of the Persian Empire made by political might) slayed the Zoroastrians around 1400 AD and destroyed their places of worship. They thought (at the time) fire was evil and were afraid of it because it was not controllable, fearing God (or Pentecostal Winds). That is wind like a scirocco which is unpredictable (Christians had the same problem The Greeks used to think giants threw lava out of volcanos). People thought that destructive fire was God's wrath not wind speed and an oxygen mix.

Instead of following the astrological logic and early scientific approach of the Zoroastrian priests, who studied nature using the management of fire, they were attacked for witching fire, and the science learning ruined. Early arguments with the Persian empire, which flourished only from trading and the protection of camel's knowledge, who could know the shifting sands of time, were conquest, often being the covetous distraction from the mastery of such as light. Groups of people disturbed the settled temples being they were static targets, overcoming the peaceful priests and priestess, for temporal, not seeing the representation of spiritual value, nor how to value such's, multiplication. Thus, Eastern conquest to become marauding and the concept of morality one of force was the weapon of violation. The very essence that thrilled them

in conquest was not sustainable without the much required, acquired wisdom of those places. This is a brief appraisee and it is expected that historians and other ethical evidence seeking archaeologists verify the truth based thoroughly on artifact evidence. In other words, go upon a mission returning that which was taken for protection whilst that disruption raged and cease debating whether the same people should be rendered what already belongs to them. The fact is it does belong to them, and it should be returned. Where there is a transactional imported historical artifact – they should be graciously submitted by return with an equal share of their profit; and where there is no profit or the balance cannot be proven due, the country will have the grace of forgiveness which ensures a peaceful handover of power. That is sought by a note, which is banked. That is called ‘a receipt’ it nulls the accused from the subsistence of the debt due, rendered from the weight of the transaction.

The ancient curse of Isis and why they are Hell bent (they still don’t get it!)

This created a type of curse (meaning injury from ignorance, by not being able to apply the conscious application of a learning theory the person could or does hurt themselves by careering) and misinterpretation in separation in God and God’s creation or it is called the study of theology. Meaning the study of discerning God’s attributes and effect, thus interpreting God’s supernatural will for a human (that surrounding mystical effect in theology called the Holy Spirit) will. Normally this is so humans can get out of the way and live of dangerous things, effects, or manifestations explicable or not as God’s creations (potency/potential). These ecological lessons cannot be learned without great expense to life or by perpetual simulated learning. Reality is a set of observations which have a typical statistical outcome across, variable settings, with marginal error, called a constant, over time. That is called change or creation in action. Failure or misinterpreting this leads authority to feel intellectual and intuitionally nude (embarrassment/shame) because that would have caused them and others harm. Whereby they are so intellectually dull, to the physics of circumstances (dangers they are exposed to), are limited to ensure that the Hypocritic Oath or ethical philosophy of is maintained; that in jurisprudence, blame/responsibility can be properly accounted or distributed in the event of injury to life (that is the offence in every case of law).

This mediocre processing was still being rationalised as justifiable in Afghanistan in 2023, insisting women should not be schooled pervading the natural laws of survival, because men have a sensitivity to exposure of this type of embarrassment is seen as being defeated, not submitted. They had not asked what the same species would do if there was less of the other. That is simple, they take up the means of learning (women are the first teachers of all survival skills) and they teach, survival. God or nature answers their call in the order of creation, that is the need to create. Men had been abused by matriarchal women who dominated their instincts by then because of the same condition of bias, which is the simple argument over who survives the best as a sex to increase the chances of success as a tribe. Awful misconceptions, back stepping development happened when fascism hit them such as male friendships being considered suspicious because of scandalous gossip. The evidence is they need to work together to hunt once to get a bigger animal, to risk less time in action, at risk to their lives. Controlled risk is something rarely considered by those under pressure and that comes by exposure to direct experience in life, as a community or a country.

It also meant the people would continue to be dependent or easily dazzled by fantastical unproven information by missing the MI6 understanding ‘trust and verify’, simply because in a state of naivety people as groups can be taken advantage of. Recovering from those injuries or social injustice can take hundreds of years.

In leadership terms misunderstanding the philosophy of leadership and community needs are proven to demonstrate incredibly ineffective leaders of organisations because they fail to understand the complexities of interlocular knowledge or infused wisdom. In real world terms this leads to interstate dependency, and subservience to often a radicalised foreign political authority, that self-moderates, all unable to prove success or safety for their people or the people they serve or enslave. There are only two possible outcomes Those people then blamed the authority on other states for misleading them because they do not have the intellectual collaboration to facilitate conducive consolidated conclusions. This leads to every charlatan proxy state to the fall, or war (the frustration of output of neurological frustration, a malfunction).

Introducing Aset - The Breathe of Creation

The real name of the God Isis is Aset. This being the fundamental error of the terror states operators ISIS. We can confidently identify the Zoroastrian's God as to be Aset not Isis. Therefore, in all confidence, ISIS can be called out, eliminating blasphemy, which was the religious dogma, that would have caused diversion.

ISIS extremists of any religious variety are simply life hating, death increasing, suicidal, probably infected with a rationale for homicide (such as having a fatal disease giving them the motivation to hasten death or murder), inhumane, self-debasing, depressives. They are called to the International Courts being a threat to the people of their own state. They live in a world of dogmatic reality denying natural facts required to succeed in living or thrive. These bullies are so neurologically deprived/damaged/affected they cannot perceive their activity does not command the dead to till the land, nor heal the sick, nor fix a melting power station. They are limited with concealed thinking itself. The essence of that is the spirit of suicide, central in their neurological activity. The result can only be imminent, early or premeditated death (of any kind including damaging property/subversive behaviour/unpleasantness). Their behaviour outwardly, acts only of homicide, of things, people, animals, the environment. By not looking, observing and holding to 'their truth' they think their belief (or sacrificing others on a mass scale) makes their sacrifice acceptable. This is also a behavioural testimony of dysfunction in intellectual coordination. Their actions are the evidence of inhumanity.

It's Over – The War is Over and Media (a Greek Scholar) Will Have To Get a Real Job

War courts have noticed and move to obstruct their activity from further reckless insanity that could cause damage to the world. That madness which affects the people in the myriad of health conditions temporal and physical accept they are dysfunctional out of a setting that they are afraid of. ISIS went as far stretching as chemically castrating nations, genetic testing and gene editing, developing weapons of mass destruction, testing diseases in their home countries whilst living abroad, hospitalising people and maiming people in combat to advance technocracy in such as bionics, sold health data bases to target populations by age, race, religion to pharmaceutical companies (knowingly illegally running medical experiments the Nurenberg Code would deny on application), buying and selling of government property, contract killing real representatives of the people using selective annihilation, attempting to goad or bribe governments/officials, mass abuse covered as satanic abuse (offending Satanists who have had one Hell of a response), the live killing of children as coercion of one another at dinner tables, honour killing each other, live dissections, pubic hangings, lying about the reasons for aborting babies and why they are underdeveloped, malformed or further dissected alive leaving unrepairable damage to the woman. It goes on and on and on.

The conclusion to this deliberate cultural colliding, is we recognise and are installing change management in the home of espionage, which had gone homicidal and suicidal. This is all the result of 3 years of joint military research in the United Kingdom. A military that cares enough to research, implement change, Optimus operandi for the safety and good of the people; without encroaching on the Declaration of Human Rights 1948 and lawfully prevails the Equality Act 2010 (a misguided ISIS attempt at reviving oppositional cultural genocides and justifying selective annihilation by inspiring civil conflicts).

So, Explain Putin?

He is the genuinely elected President of the Russian Federation. He is the world's most successful male Intelligence Officer and has never departed from all his roles at any time. He has an acronym:

Please Use The Intelligence Next

He has protected Queen Elizabeth II and is a confidant of Jz Zillart. He has certainly helped train her and others to ensure that Russian tensions are minimised, we collaborate and has requested the release of Russian hostages worldwide. They are often abducted from 3rd countries, and they have a right to be updated as to their safety and well being equal to any country. He is a real human, with feelings and suffers the loss of any agent. He convinced Jz Zillart that she could do all she could and should because women have a place in intelligence and there is nothing in the now that could stop them achieving that dream. Just like the time when women could not be in business, now it's nearly normal. He is a woman's rights in business enabler and as scary as the pressure is that he puts on Jz Zillart – she handles it because I know, the best is yet to come from you. It is wise to point out that Jz Zillart knows every intelligence director in the world, so the only reason I point him out is because there are genuinely lives at risk to save. He has trained in his time as an MI6 Agent, SIS were sworn to secrecy about this, it is commonly known and respected, as it is with many of us.

Regardless, history will remind anyone he came as a commoner, was the first intelligence officer to make it all the way to the top, removing all the dead wood of soviet hate from the world and maintaining discipline to prosper peacefully. How and what other agents believe or say is often because they have spent their lives covering serious incidents to remove very dangerous people in powerful places. These IOS are still loved and cared about because on the international stages, they really do care for each other and their families.

Instruct the Ignorant – NATO and The United Nations Security Council

My work providing solutions and thrashing through any discomfort and pain of their insane and unjustified actions, to this day has been unspoken and secret. I developed the Original Success Journal **Ltd**, the Intelligence Recovery Team who have been established since 2001 making it military operative on NATO and United Nations Security Council demand. The same teams have also reformed the CIA and the FBI.

'They are not mine' I am 'theirs'. Thus, I am not spoken for by marriage nor another rite. I could hide behind mask and glass but really don't.

SIS fanatics liked to think they were special because they have the 'licence to kill' and dual passports. This is a grandeur psychodrama, interlocked with their conspiracy fancying, which reduced them to nothing more than terrorists or self-declared saboteurs. It is to be respected because they really do assassinate most figure heads and without that drama, it would be impossible to do. Naturally enough, they would try talking those people out of it before Veto. SIS were all evaluated, being forced to go through the exact same training of torture and degradation they had subjected me to. It was determined they had stupefied themselves, but they could develop personal objectives and work towards a more dignified life. Being they served it they were made to approve it. That is how, when dealing with flagrant power abusers to deal with them. They say yes, deluded in how hard it is and when confronted are completely reformed.

If You Have Dual Passports – It Says you are About to Be Arrested (It is illegal, contentious, and unfaithful – without military permissions)

In 2019 the world was changed place and the youth of under 30's then had conspired positivity and stubbornness of being controlled or abused. They had selected several proven professionals who had helped them who they could prove had solid ethics or would allow themselves to be questioned and give answers. I was one of them and this positivity team asked that I recruit others they admired and trained them into the comms system. I did. They created movements convincing their families that they were going to change the world and stop these radical ideologues, theocrats, technocrats, tyrants, and dictators from maiming and hurting them and others. This, in my view was the call for help to assist them manage their anger and prevent mass shootings or self-harm and suicide. They were suffering immensely. It had a tremendous effect and today they are mature parents or professionals themselves, having changed the world from their own merits. I commend every one of them.

Infiltrating SIS and ISIS – Like a Panel Beater

I agreed to apply to the Secret Intelligence Service, knowing full well it was a pay for data (they would sell me as a target on the open market of sex, drugs, and violence or for killing) and human testing site found at <https://www.sis.gov.uk/>. At that time the data feed was hacked and had a redirect on it intercepting all calls from the net and thus, data breaches did happen. Staff were being blackmailed and bribed. I let them know, head high and let us carry on defeating the enemy with ourselves that we were afraid of. The enemy is looking for the answers the west had, they destruction is simply their coping mechanism to people who betrayed them who had died on them.

I knew the team I had rebuilt with Mi6 and Mi5, are a movement that was capable of total wipeout of the problematic 'reapers' within intelligence. The positivity force of love of life and disdain for violence was determining that they would make safe the planet and its resources. The Rosetta Stones were smashed down, statues were moved and objected to, painting were made a focus of, they marched, fed the hungry, rescued whales (and lady birds) and a whole lot more. I conclude to validate one of their thoughts here. It was the people with concealed sin, not vice, who were afraid of their friends being caught, who caused the worse damage. These are in pacts and that is where all agreed typically deny all truth of conspiring despite the threats to nation or self in fear of breaking that pact with a body who 'may' turn out to be God. They

agree to get each other out, displacing and subordinating the responsibility of morality, of which they redefine, based on their chances, or actuating.

KEEP IT SIMPLE – You Are Guest in the Country You Stand In – You are Not A representative of a Fairy Tale Group – Your Name is Your Name or You are a Threat To That State (and it is cruel to have sex with animals – they think you are making a baby and don't – their intellect is smarter at that moment)

ISIS WAS simply a group of waring people in pacts who are outed as to being from varying backgrounds, who abuse resources, disenfranchised humans (and animals) using the British Political System and Secret Services to aggravate/achieve on behalf of their benefactors or captors worldwide. **THEY ARE/WERE SLAVES OF CIRCUMSTANCE OR OTHERS.** They are localised and such divisive activity fettered, tethered, and torn our country to shreds. There is no benefit in diverging your energy or emotion in nonreactive or supportive solutions. Have a good sob occasionally and carry each other through the pain. Then get up and move on.

The ISIS is in fact was also clever common acronym, which was used to conceal activity from internet search results. From the outset, the name has been hijacked causing dissertating disparity, meaning even those in the game cannot see the board. The ISIS game is up and over. That means collaborating companies, or organisations who use mass casualty effects on any state or at any scale are held accountable by the military WHO consider them an enemy of the state aimed at or work from.

What the Pride Flag Really Means – It Comes Before a FALL With a Dido Track

Pride is dangerous. The reason these pact people failed is because 9/11 and 7/11 rocked the world. There was a truce agreed before this with Iran and Iraq and those events declared a war on terrorism. The military machine (Enigma) started to turn. That inspired the collective hunt of the runts who caused such a wrongful catastrophe. Technological development outran and caught out every last one of the participants. During the Great Disaster of 2020 – 2023 when people had limited movement, those intelligence agencies struck, arrested, collected, charged, and imprisoned thousands of actors from those ISIS groups. The winning was done by using technology available since 2001. Mobile phones and other devices (even toasters) were the first full time track and trace recordings providing witness testimony of anyone, anywhere. The film Mission Impossible did point this out publicly. I discovered that myself on Poets Corner in Matlock Bath, Derbyshire. To this day anyone can be networked to find out exactly where who was at what time. It is startlingly accurate. Those who have yet to be caught for all of their misdemeanours are on a list and have the option to hand themselves in. The militaries worldwide guarantee their human rights and recourse to justice. The Russian Orthodox Church today, just, announced that they will accept a meeting with offenders of their state to forgive those who hurt or killed their loved ones, to be able to forgive under their redemptive edicts.

Politics and Religion is None Sense – Politics is a Religion

I advise that any continuing activity from any of those ISIS groups ceases and desists immediately as this is read, including exposing or abandoning investments owned. The world is coming for you. We cannot stop them catching you and harming you. You can give it up. The world has changed. Threatening a continent with an ICBM or not will not make a difference in history. Those weapons are only used when a nation/area is so diseased that it requires obliteration. That is why they were built, are built and get used. Stay healthy. Militaries do not use them for war, or to end wars, it is to prevent mass extinction of the human race by disease, often sexually transmitted, fatal disease that are Airbourne, contracted by the sharing of bodily fluids. It completely wipes out disease over a massive area, protecting the rest of the world. That strategy to eradicate many races by biological poisoning has been ongoing by wealthy very cynical evil doers. That is why they are assassinated by MI6 at the treat of, if found funding it or receiving funding for it. You with intelligence can keep the world safe. Cease pornography and sexual assault on anyone to tone down aggravating the circumstances.

What the Worlds Best Military Does – It Trains 40 Million People to be the Most Efficient Peace Keepers on Earth – Join It!

Let me be explicit on what a military does when people are so sick, they cannot rescue or heal them. They kill people with a rationale to prevent harm. In North Korea whole generations were given suicide pills to end their lives to prevent their bodies decaying and disease spreading to China to South Korea, caused by the famine. I helped make that consular decision and ask you realise all the warnings to remain peaceful and roads clear is to keep the life support running on this island. Brexit was designed to bring on a famine as the evidence proves. **Now settle down whilst we ensure you HAVE FOOD, WATER and cease all this panicking and protesting. You help when told to.**

The British have been permanently abused, harassed, and sold since WW2 and have had quite enough. Most of their activity is political errors (aside Northern Ireland) and the politicians who signed those orders off are available. You should meet them and not use the streets for howling and screaming about how unfair it is. Unfair is issuing thousands of pills to North Korea or having the CSP go to villages to burn the dead of the starved and rotting corpses. This is what happens after a war and for those sad idiots who did what they did in Europe – we are near sure you will see them executed or assassinated. There is **NO GLORY IN WAR** and the leaders left face the fate of equal commanders who wish to settle that.

Be Saved, Stay Saved and thank the people who saved you. We Buried YOUR DEAD before OUR OWN.

The military rescued you from raping, killing, sex offending criminals and take your protest as hurtful and spiteful. We do not go to war, we rescue victims of war, end wars, perform UN Operations and train the worlds armies in humane defence at home. That can be seen from our immigration record. Get that wrong and the military have a right of HOME DEFENCE and HAVE VERY BIG FRIENDS LIKE RUSSIA AND NATO. Ongoing activity against the home defence forces, and finding complainers home countries do not have a navy or a air force, means this island is inescapable, unreachable if they justify their action to defend their country. That is not in anyone's hands aside the rules of combat and engagement, and even war has rules. A nation mustering in allied activity will face joint consequences. Abandonment after bombing is one of those effects. Our whole forces can abandon ship, the country, cut satellite and telecoms, at VITO notice and civil society would not know until there were no flights, ferries or food. They do not

use force against their own nation, they would rather leave you to the land and be peaceful. France would bomb escapes out of the water, so would Belgium and Norway. Society, hear me. It is not a crime for the military to leave. Your behaviour tells the world who you are.

No More Warnings – It's all Jujitsu, PM Zenjitsu and Kung Fu

These ISIS guys who did all this to the world are what we know call terrorists, they are bad for your environment. They are reportable to any military official NOT POLICE OFFICERS as they have a problem there presently with a small hold of mobsters using the law to keep hostage victims of sex offenders in communities etc. That will end with our Serbian and Siberian colleagues who wish to train in those police stations.

Cease Being Nieve and Deluded – Michael Gove is Groovy for helping other be honest about cocaine use in politics

The etymology of what is in-potent. It means regardless of what they do, they cannot take actions guised by any Human Rights Characteristic; intending to continue or causing further harm. For example, one cannot say male genital mutilation or ear piercing or using ethanol or other solvents in nail salon is not mutilation. The evidence says it is under Offences Against the Person Act. The effect is an injury of body external or the respiratory system. Medical professionals have to prove there is a substantiative requirement which is a threat to life to operate/use those methods. This is because the human has a right to their entity (body) and what to do with it. It is how the Nurenberg Courts defeated the arguments for communism and why the Declaration of Human Rights prevailed as a result.

The action is the war crime when we are in a declared state of war. That state of war engages the Nurenberg Code and the Geneva Conventions which **PROTECT CITIZENS**. Thus, being in this state of Martial Law, coming out of the War on Terror 'remerging into the world' the military draft international support to enforce **YOUR HUMAN RIGHTS** (even being able to go to the toilet at school).

When ISIS chose to assault, sabotage and more the remaining services around the world services (examples include child home abusers/pornographers/sharing VD/drunk and poisoning the naive/date raping/enforced kidnapping/enforced abortions/two child policies) to unleash chaos in the civil spheres causing terror or maximum harm on populations to deplete resources or to weaken the stronger of the home team, women, they had not figured that men go to war because they are rational in it. Women are not rationale at war – they kill indiscriminately (see Syrian Camps). What they had not STILL understood, is that the intelligence officers, militaries, public services, around the world had come to the panoptical observation of their game. ISIS (all sides) were reverse oppressed to suppress ongoing mass casualty events.

YOU ARE BORN FREE AND YOUR CAPTORS ARE SLAVES or CRIMINALS

No secret cover was ever possible again for them. Freedom to speak means freedom to report or get help. Silence of the Lambs (of the British Secret Services – mostly agents from care homes as children since

1948) was over and Hannibal, has finally been justified. His eating of the enemy to ensure evil had been digested, permanently exiled from the world, had been answered with spiritual and military justice effort the first time in human history.

Back to More Bitching and Royal Rumbles – You are FREE People HERE

Mi6 had a problem with SIS from the initial scraps they had in 1950-60 about who was correct on intelligence. Still these mistakes happen such as the bombing in Malaysia, Easter 2019 when two politicians did not share the message to their military, undermining the message and people died. Militaries act on real world evidence, please communicate honest messages from military who, unlike the Government have one agenda, to protect their nation and nations assets.

We have seen huge SIS errors caused by personal pride pre-event such as in the Weapons of Mass Destruction (gossip caused comms failure). At that time militaries were defusing in dialogue and actuality, and it was leaked, as black mail to the military. That is why there were no WOMD's because the militaries had done their job to mission accomplished, the media had planned to do the run in, stormed it and made it a narrative following their suspicions. This control of the nation by media remains solid training. I think there are many learnings to come when notes are compared. They need to profit at that point and the News of the World was shut down. Today journalists remain in prison because they would be assassinated by surviving family members of those soldiers who gave their lives for a pointless shit storm. In emergencies, all information that is real is delivered by military headquarters, medical or not.

Not even MI5 can announce such national threats anymore. It all comes directly from our military command centres. The emergency warning thing on your phone is nonsense. Your freedom always is assured and you can choose to get to safety or not. Militaries do not shout or hustle you onto trucks, they warn, give advice, organise public safety in real emergencies.

Today, SIS folded their hand, and they should cease to exist, only being MI6 in the future. The trusted intelligence partner of the world that is identifiable and accountable to authority. We are known by our ranks, our awards, qualifications, and responsibilities. The military give us numbers that we all have, and you will probably see us freely walking about you always in service to provide free support wherever we are and if there is any matter that is pressing on a person. We are ruthlessly honest or will get the information for you, where we can. We are heavily monitored and restricted in terms of where we all are at any one time because in the event of emergencies, we must be able to operate many systems. We are always grateful for help and support, or questions, and happy to let you come along side to discover about our very different careers. We are approachable and love gifts and presents so don't think for one minute we do not accept them (we do) and we share them where they are worth more than £40 to other people who really need them. At all Jz Zillarts events we keep a van on standby for any donations or gifts that we can send on to other people or for those who may have queued at the stage door. I cannot meet everyone, but I do like to let you know that you were thought about and that after every event, we hope, there is something for you to share too.

This change in key will give the assurance to the world they renounce terrorism and recognise the part they have played in foreign and international espionage.

Back to Getting It Understood

Regardless of WHO act for ISIS they all combine to prophet or profit and prove so sacrificing any part of their own misunderstanding the dysfunctionality they have all reality. Their size is not impressive, for they cannot get it up or keep it up in the world stakes of loving to God's own end and will always give way to their own petrification or impose their own suffering for being obnoxious in their offers.

This application form below is real. I suffered all their assaults with a remembrance of all the beloved dead or maimed friends on every side of every continent and never failed to recognise the enemy on sight. Had I had changed one thing, which would be that people and followed direct requests and orders, decided the country (not state) they play for and accompanied me to the success we know as being able to love more so today than ever. All accountability is mine for not being 'motivational enough'. If sitting on a bomb and stating 'that's a bomb' is not motivational enough, I apologise for not being clear. I do not know how to speak 60 languages and repeating those orders in so many languages, in an emergency, means most are dead already. May I please ask, have a basic understanding of the countries language you are in, and you can move from the place you are to a place of safety.

The questions in the application are missing as I did not copy and paste them over. This is out of respects to the application process. The answers are there to show progress to anyone with interest and affirm, as intelligence officers, you were correct, I did write that, and we have succeeded. Thank you. The objective being that Mi6 has retained its dignity, there is no such thing as James Bond in Mi6. James Bond is the sacrificial son on the run from SIS or ISIS that no one cares about if he dies, because that grief and distraction has the public sympathise and they covertly accomplish their aims. It is in short glorifying Isaiah and validating the abuse of good in a person who loves his country in blind trust of accomplishing the freedom of the state or the protection of liberty (the Queen).

I am an expert in any intelligence service worldwide. I accepted the Keys to Mi6 in 2023 by official military protocol. I retained my role as the head of IOSA (the International Official Secrets Act and wrote it) which SIS/ISIS decided to attack. Their misguided methodology of espionage exploitation and failure to ask questions was the equivalent of interning illegally, against conventions, a president of the United Nations. They had thorough insight as to the facts and decided to dominate the oversight agency of intelligence agencies, thinking they were intelligent. This gave MI6 a chance to really see WHO ISIS WAS worldwide exposed and who was fornicating with their state affairs.

Our objective is complete and those with held religious beliefs in the goodness of their God are at peace. Extreme ideologues are presently being readied for all war crime courts and will be held account for every loss of life in their state for the failures of their state. This is inescapable being that before all the Government made disasters and infighting are not the fault of the country people.

ISIS actors in places like Europe and Great Britain attempting to argue with each other will be extracted because they are fighting in the wrong country. They will be moderated, adapt to their rescue countries and cease cultural indoctrination, or be asked to leave. No place is a haven for reckless or nonnational objectives. The people will not tolerate this ridiculous tribal behaviour. People who have been involved in using any health care system to harm state people will be charged for war crimes equally. I can verify I have witnessed firsthand their operations, and those actors were returned to their home states and imprisoned for infidelity and acting without military orders.

Tony Blair was the first to lead the war courts inquiries here, fully participating in a military investigation and explaining himself to veterans of the Ministry of Defence, giving safe and sound testimony of the corrupt information that led, to the Iran/Iraq crisis. His name was cleared, and he remains one of the greatest, most diligent peacekeepers of our times. We thank him and his family for the honesty and providing the truth of the deceit Ministry of Defence, and especially the soldiers needed to hear. He is to be referred to should people need support about the seriousness of a war crimes court and the procedures.

I also leave this here this application as evidence of ownership as a continuing plan.

Great Britain as I write, is in a state of Martial Law, the Government has had its assets managed by the military and is insisting that leaders rise from amongst them, creating if necessary a new kind of economic and world leadership that leaves nothing good of its history unforgotten. The reason that I have not received payment is because the Ministry of Defence are aware of the assassination threats and know legally because of the aforementioned passage and Companies Act 2006, in an international court they would lose and the same ISIS state could reassert dominance. I therefore have agreed to earn enough money to establish the next company in Ireland, then America, tying the colt up again and giving them time to transition. Buying my work and hiring me is the way to solve this problem and continue the progress. This is what I mean by succession planning. Getting married and passing that to a person *non compus mentus, non compus spiritus, non actual in actual per omnia terra firma, impotentus; for the benefit of some crazed power hungry, sado masochistic organisation who has no love of others and is dependent on this leadership, shall not be buccaneered or mutinied again.

'Without ones mind, without a spiritual camp, in the place of wondering, one is actualised by the worlds impetus'

What Happened To the Imposters in The British Government (The Great Exorcism Comes to It's Close)

Once a person studies diabolic behaviour one can start to see that what we have done into save Britain is one of the world's biggest exorcisms of the worlds possibly oldest and calamitous historic places on earth. A further text will support the ins and outs of what that was but in short, the whole of Britain was exorcism of all evil to establish peace in every hallway to make safe. Here I thank the now established to my joy, the International Association of Exorcists who have been the ultimate support to me and every person or place I have worked with for saving peoples lives and ensuring the reality of the discoveries in reality, not in the fictitious fantasy of the movies that are made to explain what we did or do.

I personally thank my very good friends Bishop Durmuid O'Martin, Ft Joe Dineen OP, Ft John Walsh OP, Ft Conor McDonough OP, Ft Liam Forde OFM, Ft Jude OFM, Ft Chad Ripperger PHD (and team), Ft Terence Crotty OP PHD (and team), who throughout I would never have had the battle with or for without all we need to do so. Ft Vincent Lampert and Ft Martins who later gave us respite when we were all face down in the dirt with the blood and guts of spiritual warfare, we are all very grateful to you and will always be with you Ft Carmina, Ft Gabriel Amorth and the unknown exorcist of Rome who stepped out that day with a single case declaring 'thou shall not pass'. Thank you for allowing us to use technology and being real with the psychospiritual, the artificial intelligence and always being the enquirer, maintaining authority over what are very difficult entities in all reality (that separated from the Holy Spirit). I revere your work and pray many people learn from you all I have no time to explain in the detail they may want to hear. For that, we have priests who manage spiritual authority over what can be violent and dangerous energies, souls, spirits, and demons. Thank you especially for always encouraging the Guardian Angels and their place in the world, in their naivety and in their supernatural graces. Thank you especially Russel Crowe for taking 'the advice'. Deacons, never underestimate your vocation or value, I am always delighted to see you baptising the little babies when they are born and I hope you get drivers too, ensuring your hands are prepared in the way of grace, kept for. That vocation, I think we have much yet to see glorified and I look forward to seeing it ever more.

Continue

Those imposters who over the Great Disaster, having got into the halls of power were struck by the arduous endurance of Whitehall. Those who for years had persevered with that place of changing hands and familiarising themselves with the idiosyncratic practises that expose all spies such as for example, Bin Laden.

Some loose cannons of spies believe that taking upon themselves a plan, amidst a military plan, that their own intellect, and by excluding the military authority (or attempting mentalism on them) or evading the law of the land is their providence. This is thoroughly incorrect. It matters not who they say they act for or state or intelligence agency, they find that they are abandoned for dereliction of duty. Duty is always formed of roles and responsibilities, that is called organisation.

The people who have acted as Prime Minister attempting to confuse international militaries to conflict one another had failed to understand they are an intelligent force. The assumption that they are a paid, on demand army, disposable to fantasy is an under sight, long left behind by nearly every authentic military.

Having spent time with all leadership of militaries worldwide and being honoured enough for them to ask to have their sanity check in processes and organisation, then radicalisation checks, I can professionally assure you, they are considerate, sentient, personable and attentive to the well-being of their staff. They are not ignorant brutes who have no understanding on the value of life. The carelessness of politics had them undergirded and out witted with their clever humility from every stance. The militaries acknowledged the assumed authority of the persons who presented themselves 'as in power' to get close enough to evidence the truth of their activity. In that midst of onboarding the truth they liaised further investigations, understanding, motives and characters within organisations; ensuring that commercial, and inexperienced leaderships could not dictate the fate of a nation. The slowly demonstrated what indomitable meant, taking political ground, and instilling thoroughly British Standards called integrity.

This commendable study can only now be learnt by joining the military and progressing through their ranks, earning their trust to be integrated into the systems and inheriting that magnificent history.

Largely these strategies remain local militaries military secrets. We allow our allied forces their share in that, in as much as know our partners in the future. Your secrets remain in safe harbour, in our hearts.

What is not a Secret is those people who took power, and signed off in authority, in their names or others, money from the state whereby themselves, their families or their associate investment team benefitted from the sweat of another. This is called embezzlement and fraud. They intended to profit from slaughter of civilians using commercial mechanisms without a military contract, pretending it was a militaria advantage. Being that there are commercial gains, no military contract, deaths resulting cannot be miliarial.

There is no intelligence agency who would have ordered that, knowing full well, for example, banking intelligence has a higher rate of integrity and if asked to perform acts of fraud or participate in them, it is not worth their life or livelihood. Intelligence agencies have a rightful and natural fear of the military. This thus became the end of Mi6 as requested by Richard Moore, who understood that the collusion of governments with commercial interest could never represent the state or countries, within the nation's interests.

Regarding spies who had to participate, make your defence, and where that rings true, you had no implicant desire or enjoyment of the assets, will find that your cases are acquitted without further consideration. Have no fear hear, we are aware of you and your representation in the field is equally appreciated, as the life you have sacrificed to participated in state safety.

When questioned at no point did the three people who fronted these strategies of mass state exploitation representing authority, in politics or fiscally fixated organisations, request help or inform the state powers of the breaches: thus, implicating them in the criminal activity. They do not have the right to remain silent when acts of terrorism are underway. Defunding military or police can be viewed as the purpose of that extortion. Neither does any minister have the right to openly declare acts of hate or preach, to a nation, it without also resigning their duty. A lack of emotional control in a state's place is an act of demonstrating incompetence to position. Words, being the weapon of politics, must be viewed as real and present threats if used and only spoken in Parliament. To use any other system of communication is a betrayal of party and state. That is the place for controlled discourse. Discourse meaning debates that arise from dispute and settled before leaving in a controlled environment. Maybe one day I will discourse on that practise however for now I leave you in the Master Chiefs hands, John Berkow (who needs no title but for his achievements) and Lyndsay Hoyle, both elected by the house to give fair way.

The affronting political misconduct, to the military is the causation and why they can arrest, detain and apply due maritime process to anyone in political power, who has weighed their lives less than their own, or indeed, sold them as chattel for slaughter.

Thus, you the reader, Drayu Rethor, may ask. Why is the information limited here? The answer is that the Admiral will conduct the matters of arrest and detention, escorting the matters through every court necessary to declare and proclaim the activities were a collectives of war crimes. The summary activities were aggravated acts of war against the Ministry of Defence or any other Military. Initiated by the buying and selling in commercial field military of equipment and services (BA Systems) or by assaulting them directly by using commercial technology to sabotage and weaken.

For the Ministry of Defence to accomplish leading this, they must speak on behalf of every country, by arresting the politicians, regardless of terror threat, this is international espionage and fraud piracy. Thereafter any other nation can add to the procession of war criminals, their own accused. This means that mob or vigilante justice cannot proceed with assignations' (as the pirates have plans to do, and proven [Amess] to avoid the courts to collapse the case). The vigilantes will appreciate that this way they are all discharged honourable and have justice in process. Debts can be returned to countries, memorials made, and the matter of peace can prevail.

The Media Management Strategy (to infinity and beyond – Buzz)

It is the civil responsibility, in this case, of the media to report from the war courts. We have had countless conflicts whereby answers are expected. Journalism is the evidence of a free society. Thus, we leave them free, to report facts, unobstructed truths and whereby required, commentary from professionals, to ease the impacts which are revelational to the public. Journalism has been the most important reporting mechanism every dictator has sought to oppress to 'control visual thinking'. Every type of dictator has fallen for wanting to catch water. Wisdom knows when reports are juvenile or misplaced enthusiasm, or even sinister in motivations. You (our surviving journalists) have been adequately trained and where you find doubt, it is because information is likely to be spurious. Have that checked for detail, revise, seek approval and ensure public release. In all good integrity always, have your work checked before release to media agencies. Where you cannot and you are front line, be as concise, descriptive; as clear as you can be to convey that original message, minimising any loss of the message, ensuring nothing is left to the imagination. Your Journalism Commander in Chief is Willian McRaven (Bill), retired navy Seal and Admiral of the US Navy of 37 Years (also, author of the Wisdom of the Bullfrog) will undertake leadership, support or seek Pentagon Approval for information released in the United States of America. Accept his decisions as we avoid your accidental contempt's of court. We are also respecting the deceased persons, their families, and lives. Ask Bill anything.

Once Jz Zillart had that responsibility (2017-2019) and it is a fun role where the ensigns and others get to develop their methodology of thinking. Her code name was then 'Askewanything'. International code names are that complex. I am sure Bill will let you know what his name is and generally, it is the Senate or the House of Congress who will call that first. It enables the communication function between politics and the military.

Journalists, be prepared to remember a lot of information, because writing it anywhere might get you killed or made a target of. It can also form evidence which is misleading (without basis or fact). Your name on articles is not as important as getting a salary and staying alive. Our work is to keep you safe, and you need

money to do that. If you really are for free speech, what you will care about more is ensuring the correct information gets to the right place, person, or community.

To this day Jz Zillart still gives training opportunities for telegramming, snail mail, hand messages, photographing, videography, book writing, POD casting and on. This is journalism – the relaying of appropriate information that contains a message crypted (from thought) sent and decrypted accurately.

The importance of journalism is more than recording history, but the facts of history, which once ratified, especially by a court, are for the sake of the peace. They form remedy and test viability of proposed remedy, to keep the peace. Journalism as a communication tool tests the public spirit, proves to them that justice prevails, for the good of society. It shows that justice works for the people by remedying complex matters.

As we close the Age of Terror towards the Age of Angels and we navigate space technology, it is a way of sealing the past, leaving solid, reliable, and honest efforts on which made and makes humanity. That may in the future, be the inspiration that serves on space stations or planets, becoming the proof of what it is to be a human being. To be human, out there, will need a history of greatness in problem solving and caring for one another in difficult survival situations. That is no different to mastering the oceans, which also had no end, until they found land.

I consider myself sober and competent in managing my own organisation, well able to elect the leadership, with the advice and support of competent partners.

I have stated the truth, the whole truth and nothing but the truth, so help me Universal Justice

Last thing – your life is your own and the FUMI award goes to every asshole in the world who ever disturbed or spoiled the achievements of another who made the world to be a tiny bit better by their meritorious efforts.

Yours truly,

Jz Zillart.

P.S. I Love You

The Unedited SIS Application

(It could have been a lot better had I not been a prisoner or war at the time)

The questions are missing to make you think. What did they ask me. Why was it necessary to know by sexual preference, if I had school dinners or my ethnicity, sex, age. Like a marketplace evaluation?

Reflection on Objective and Explanation: I never thought we would have to convert SIS to Mi6 completely. It is like the KGB or the Flying Squad – decommissioned for the safety of the state. It is sad, depressing and the reality must reflect what is the safest thing for the state and for the responsibilities we bear. That is international security of visitors and citizens of our territory. Mi6 have had full control of their selections and I have had absolutely nothing to do with their selection process. They have had to watertight and seal their hull. Of course, against achievements are upheld with total integrity, gratitude and respect. Our ship must sail and we invite you to cruise on here or sail in her, but whatever you do, anything you do that threatens one life will be considered to threaten every life aboard. We continue their journey sailing as we assist with the staffing and management of MI6 (Military Intelligence SIX) which might take up to 6 years.

Q1

Created and built own private online/in-life network/s using a variety of teams and tools to communicate. Please see www.originaisuccessjournal.com/ published books and journals. This has not been launched publicly due to the amount of competitors (international) and the need for investment/people. It has not been worked on for some time and has a few months of brush up to do. This platform, was always intended for the secret services to use, yet having a public façade. It was easy to see that the UK and MOD have been technologically overwhelmed, under resourced and frankly, patronised by self-interested parties or very difficult third-party threats. With such in mind, I quietly developed the OSJ as an answer to British Industry and technology, intelligence support and national/international security. This I detailed on the recent Government Grant arrangements previously and have been quite open with the Ministry of Defence with at meetings.

Being the type of site it is to attract, manage counter threats, facilitate communications between agents and operators, it requires a professional team to support and assist. The concept is also a means of intelligence journaling live (a hand written success journal) which has been adapted widely as a means of communications (safe means) to obtain intelligence objectives, mission management and personal/professional development either covertly or overtly. I will be posting a copy of this by way of example which is the none-heterosexual communities which I started, to the Mi6 building so you can develop it for prosperity and is already part way completed. It gives an idea of how powerful that is. Please keep it safe as it contains the details of persons of good nature and it should be, please, given to the respective development manager who can make that fly to safe success. I have made it FAO/ Stonewall Champion and it is marked BQ on the rear in black Bic ink. Given with love and affection.

These OSJ learning and development strategies elicit the best from anyone from within any intelligence system, commercial or government, to ensure that they remain faithful and true to the stability and success of their own countries, organisations or partners. This has all been kept under wraps as I built the various relations and communities up. This was, I believe possible by using CHIS who have been nothing but a help to me and the progression of what will be the most respected international organisation of intelligence that promotes harmony between agencies.

I am known for managing/influencing the network and increasing the success of businesses as well as countering any threats that are perceptible and presented. The network is a variety of people in the world who have come to rely on my honesty, integrity and standards in development of any objective. This was not really a choice but rather the abundance of encouragement from agents and agencies from around the world who have defeated so many oncoming situations using the strategies, code, contacts and structures. All this has been observed by the MOD, I believe, SIS and Mi5 who I have openly worked with alongside other intelligence agencies. In my last two years in Ireland the Irish Intelligence Services would have been my support with Mi6.

This collaborative network I am hoping, as planned, will grow out from SIS and become the worldwide intelligence system it was designed to be where the safe communication of sensitive information and acting on becomes an organisation that any agent can apply to join and maintain peace/diplomatic objectives they hold – secretly.

Via this invasive network of CHIS I have collaborated on some of the greatest achievements with science, robotics, artificial intelligence, counter operations and now find myself seeing how SIS can be the cocreator of this network avoiding threats and later giving the independence to a worldwide intelligence network. May I compliment CHIS by offering privacy when it was realised the amount of spiritual and psychological affects which were counter productive. Such as recording a person naked, invasive explorations, acting on a human body without consent acquisition or information, testing them without consent or permission, interrogation of paranoid framing (which comes from organisations being hypersensitive), denying them access to their communities or religion and interfering in private relationships, coercing manipulating or managing by third party handlers. These have been historically dangerous to intelligence services as they only breed hate or indifference. I, generally see what happened and was versed from Ireland the type of depreciation that was present, as a catalyst for change and freeing the agents forced to act beyond their conscience. Now, I consider activities alongside their consciences to prevent harm or threats to them. This also means that the retention and attrition is of enhanced performance.

These relations (management and personnel handling strategies) may become objectives that need checking, managing and assessing for their value to intelligence today being that the outcomes are so damaging against one's reputation or service provision. Such dated strategies destroys the person and the agency, which is perceived as no more than the threat of an authoritarian state and presents a suffocating intelligence service. It is a symptom of being afraid of each other, for fear of being caught as a perpetrator (normally) by professionals acting under clandestine orders which deviate from the laws or rights of an individual. That behaviour increases hate or extremism, making protestors 'demand the truth', which is very difficult to do without harming agent involved. It also falls outside the scope of the 1948 Declaration of Human Rights. The spy industry and espionage industry has lost to death, injury and suicide some of its finest operatives, very often putting them in to death flights with countries which was absolutely unnecessary when one could be instead a trusted representative of the envoy.

Furthermore, people have learnt to mistrust the services and counting on self-preservation, have constituted their own means dreaming of revolution and rebellion by force. This is not essential with open comms networks and trusted actors who will assist those develop provision or defeat poor organisations. In terms of foreign espionage, the mistrust caused a void for others plans to achieve disruption and seems to have had significant effect (the mismanagement of multiculturalism to manage it and continue with the same mind-numbing failing systems). These create seriously big opportunities for homeland foreign espionage

which means a state (persons or organisations) can be controlled or exploited for a foreign state's gains (corrupting fair trade standards or damaging values of a state's legacy – the Magna Carta being the UK/Commonwealth's foothold).

By this I mean, as a group example, the Falun Gong groups and organs harvesting by organ donation. One can see that already all the organs harvested from United Kingdom autopsies do not get used by donors and cannot they be kept biologically prime for transplants – therefore one must assume they are going elsewhere? And to where, and who benefits? There are simply not enough medical students or patients for the excessive demand. Therefore, one finds intelligence questioning and operations like this interesting, for one has to see that there is a business and the people not benefitting. Foreign powers and weak points of contact are the entry point to exploitation of a nation. A vigilant intelligence service backed by a person who believes in the value of the agents' considerations (not opinion) means greater ground control change which defeats disharmony, unites and reduces crime or espionage.

This example by the ordinary person is discussed and separated to diminish what a genocide using separatism looks like. It remains an assault against a culture or characteristic, fading into the grey as nonspecific hate. It is not, it is many actors working on their personal hate objectives to hurt another community, put simply.

Many consider the public a dull simply non-compliant consciousness. The assumption is that only consequences and punishment work. It does as a counterproductive measure of a foreign power exploiting homeland or commonwealth resources. Offending the public who are struggling with sanctions, taxation and exploiting their work efforts or minimising their value regardless of class, is a rapidly authoritarian system that is being noted as a dictator state. To add we are a surveillance state and people are distracted by the constant invasion of privacy. Slaves of many corporate entities who feed on the faces and identities of those who are supposedly in a free country. The facts would establish they are not actually free.

Publicly, our services seemed as unreliable, biased, bigoted, threatening, untrustworthy and the illicit processes undermine service standards – which hypothetically are the vision we strive to and should pursue heart and soul. I would find this kind of information to act to protect the public consciousness vital. Dialogue encourages community intelligence. These wrong doings of human abuses are still discussed as the Holocaust, slave trading, smuggling, trafficking which many see as ongoing Vice Geopolitical Trading via Government actors – who remain the traders and unaccountable for their activities.

There are presently now more people who have left the intelligence community and military than engaged and to be unwelcoming to a deadly trained worldwide operative community was a problem. I have worked equally and relentlessly with them to develop and foster faith in achievements, develop the good traits of groups and give them their part of the achievement for proffering their voice. A terrifying matter in a surveillance state. This occurred at the XRI Holdup in Dublin when I was asked to manage the event and stop worldwide riots of so many people/groups who had clustered under one banner XRI. That took 4.5 days and those talks and engagements continue because together Government and People both had the means and stages to move through. There was much accomplished by that and to this day all people have their rights to march peacefully and express their desires of change or how to spend taxation.

Regardless of what I do the intelligence agencies will still be present in my world and they stick around because of the success and safety in their mission objectives. It appears that they all prefer SIS to be the womb of where this next intelligence agency is birthed from and is saddled by because of the reputation of trust and honesty that they have experienced over the years from SIS. I am aware that they all wish to have their input and styling adding to be included in accordance to their cultures and settings. The product, I would hope that is by the end of month 12 with SIS I will have established the completion of the OSJ/IOSA and also created the international tests for any agent to join as a member. The underpinning policy will be the 'International Peace Pact' of which all agents will operate. Clearing first all and everyone in SIS, MI5 and Irish Intelligence, GCHQ as staff, trainers, members and employees meaning they can host other agents

in training fully and welcomingly so. This network then has the potential to work with any foreign power, commercial or government anywhere in the world, remaining a great British asset, and the Hall mark of faith in action. I fully expect it to take six years minimum to see it to fruition.

To permit insight into my seriousness. When I agreed the Armed Forces Covenant with the Ministry of Defence for Original Success Journal Ltd, I advised them that they would, on my death, not murder, [the MOD] would inherit the company meaning that it carries on into history taking its Q's from those who sail in her then. I was advised it was Clandestine and I must admit, espionage management is clandestine – my covenant has changed on the website in accordance with Bruce's recommendation BUT in my locker at Cobden Chambers, Nottingham in the Bailey Box is the original agreement signed by myself (One). It is the will and testament to that promise still. I will formalise this in my last will and testament. I need to point out how I got here was by not my own will but rather those who trusted me to love and protect every community and providing safe harbours or means to safety for their growth which had or was stumped by incompetent professionals who use their positions for subordination rather than cultivation. I have very little choice in how they gather about, and I am only glad they understand my morals and ethics as being trustworthy and true.

My skills in the technological development are completely out of date, I do not find pleasure in technological website developing any more, thus the ambition is to secretly and outwardly develop this network safely, under the watch of the world's best known security service as it is perfected. I am competent at many technical IT matters but my actual intelligence lays in Intelligence Teams/missions/management/restoring and reforming those who have made critical mistakes keeping them within the community and developing them to other levels that they might need.

I see myself the OSJ's founder, its director and trainer of material that can be used to obtain any SIS Mission Objectives. That alongside working on the other stated objectives below gives us the ability to advance the dovetailed effect maximising output across the SIS network, reengaging disaffected employees and enhancing the brand image of intelligence to that awesome essence it once was. Meaning I can do both jobs full time roughly over 6 days a week and allow everyone around the operations to be drop in flexible. I do need a base to operate this from, equipment and competent people to assist me.

I think we are all exhausted in intelligence and this breathe of fresh air, freedom to move will be most attractive to anyone about her. I am praying too that it helps the local economy and all the self-employed individuals or British/Irish businesses it encounters. I am Commonwealth/Irish state biased until it is stable enough to consider accepting the influence of other nations powers.

I also see the Eireland/UK as the training territory of the world, and long has it been a place all agents want to train in. Ireland was the first birth place of all the live training and we thwarted threat after threat with all the UK services in tandem. This system right from the start was called IOSA which means International Official Secrets Acting and means Jesus in Irish.

I really cannot blow my own trumpet in terms of how good I am because I am not, and I do not play a trumpet. I am simply trusted to be truthful with world state matters and other matters. My success is their success and I will always tell anyone it is the team's response and relay that has saved the day every time.

I do operate threat management and use my weight to ensure that moderation is used generously because the markets are so fierce and the reputation of Britain so down, for now. This does not detract from the fact that we have all the stuff necessary to develop cutting edge strategy and technology which, quite probably will save the day.

I am at times, privately abrupt, sharp and openly frank and cutting. Most will appreciate that in intelligence success it only comes down to contacts and integrity. My reputation for always giving the truth to those who needs to know goes without saying – it is. I am not worthy of most of the people I work with across all the fields, I do or have. Owing to operational security, there is much I cannot discuss, and I would

assume that you are already versed in my integrity. I will not tolerate drugs, weapon's, violence or anything that could set harm to another (unless I have to in a foreign territory and have the authority to – it is peace until the last minute in my moral code).

Therefore, the ambition is to grow with you inside out and ensure that SIS becomes the grounds manager of IOSA securing the worlds intelligence and establishing the members facility. By month 12 announcing that to the world and becoming publicly the Founding Director of IOSA (presently registered as 7Oct Ltd and I am open to other initiatives I have not cast in stone yet the formation), replacing myself as the Director of OSJ Ltd (remaining the founder and shareholder) and making plenty of space and opportunity for all worldwide agents to grow and share safely and happily. This will hold 10 directors with their teams in support. The organisation of IOSA, as I have already discussed will be all the Intelligence heads of states in some way as the guarantee of intelligence security. I very much would like also to develop the SIS brand and Covenant like the MOD Armed Forces Covenant and have the OSJ branded with that (for moderation, insurance and compliance).

To answer the question on the record, does all this communication happen anyway? and the answer would be yes, I just never appreciated the people/agents and agencies would want me to formalise it through British Intelligence. I have withstood every test since my return from Ireland and witnessed first-hand how cruel British Intelligence testing and annihilation can be. This by the fact of cruelty alone, had to be proven so to be curbed as; nearly all of our organisations had been infiltrated by those who had come to have doubts or disdain for our countries dignity. I am fully happy to be involved in outing these cruel systems and people to better vocations that suit the sado, psycho, socio, or anarchistic personality. I would see that sort of infiltration and prioritisation of exterminating the environmental damagers as a fundamental essential action for national security to avoid public dissention, insurrection, anarchy or perdition. I am also very happy to exact any laws which are known to traffic people into health or immigration systems that would cause harm or damage to life or country.

In short, in the UK we do not need to stupefy more people with drugs, poverty and bad treatment, we need to excel in liberating their potential to succeed themselves. My experience of abuse in the UK settings as well as counselling all those who have had a similar experiences requires the opportunity for forgiveness, recovery and development, as well as the absolute commitment to closing down establishments that inhumanly or illegally take the freedoms (any form of internment) away from a UK/Common Wealth Citizen.

To answer how I intend to fund the OSJ business activity? By publishing the journals that people use, facilitating training and working with SIS as I do that in London (I am immediately ready to relocate with no ties). This money will be used to return taxes salary and all that I have been given whilst being held up in the UK. I will be using that to pay its own staff and developing its front end (the public view) and the back end (the SIS view). This is a dovetailed approach and a shared vision offering the Government the formality of complete access and insight to what gets done and leading the world in safety in intelligence.

I understand the nature of the association I work with and naturally enough they are seemingly protective and responsive. Therefore, ensuring they all have their input is critical. It is a feat to work with so many spies and agents – I believe they have one vision. I would like to state here that the Government by that point would have invested (including the salary) of around £250k. The taxes will balance that to return to excess that number from commercial sales as well as providing work/training for entry into or for existing intelligence.

By developing the SIS and IOSA/OSJ operations (as an SIS employee) to a financially healthy and prosperous organisations based on the three values I designed and found on the website. I would like to spend the next 12 months working on:

- Creating the International Peace Pact which will govern all IOSA operations.

- Developing the OSJ (online and in life) ready for use (the outward facing sign of access) and networking all intelligence agencies to use it to manage what they need.
- Preparing the inside organisation of IOSA, values, rules, standards, international training, recruitment and retention, SOP's and Procedures by consultation and collaboration IN THE UK ONLY. Meaning people must be present and represent their official intelligence agencies. They must have their opportunity as individuals and organisations to contribute to the same success equally.
- Continuing in developing the Civil Defence plans and working closely with the MOD with the assistance of their veterans, reserves and families to support their objectives in overcoming emotional difficulties, having and owning a mission, and meaning something in civilian life that is respectable and worthwhile/recognised.
- Developing the SIS Covenant for organisations and establishments.
- Responding to all matters that I am presently part of an operation to or am called to.
- Advising, monitoring and managing other IT initiatives
- Developing morale, commitment to organisation of all employees.
- Promoting the award status objectives SIS has achieved and provide evidence to those objectives, maintaining their excellence, enhancing the service provisions excellence.
- Remaining in contact with all services in the UK and ensuring they have access to information, resources, people, materials they need.
- Ensuring impartiality and a non biased approach, understanding mitigating circumstances and effectively assisting those trapped by outdated and arcane laws.
- Upholding and remembering the deceased of the secret services and supporting their families. Developing new initiatives to make this possible.
- Consulting, training and teaching advanced OSA techniques in house or in safe circumstances to protect and train those going abroad and in terms of civil defence.
- Travelling and establishing the networks in Northern Ireland, Edinburgh, and Swansea. It is implied worldwide is also a great idea to 'Gold Seal' all achievements and recognise efforts.
- At the end of the 18 months formally open the first office of IOSA and then branches around the world where all agents can work to achieve all that they do – completely free of political, commercial vice or overseeing, patroned by representatives from around the world, respected and desirable to be part of and the antidote to Geopolitical commercial and other structures who see the world as a market, providing for the people not the masses.
- The reduction and management of the accessibility of pornographic material and management of availability to harmful content.
- Assisting the BBC to flourish
- Creating national/international military and public grade messaging systems which are bespoke built for UK or International use
- Excel the surveillance using the NHS to reduce it being used for radicalisation and exploitation of public funds and lives. The expert observation and interception of medical grade chemically classed weapons which are deployed by medical firms to target populations. Avoiding the Mercury incident in dentistry, for example, which lead to an overwhelming amount of destruction to both life and the medical services. Or more recently the addictive supply of barbiturates to degrade the intelligence in populations

and increase crime by chemical control of populations. Ensuring these people are not detained illegally or for the purposes of pornography/theft of private property/kidnapping/extortion/trafficking of people (therefore the public purse).

- Cooperating with services to enhance their environments and reduce the risks of harm at work from spontaneous assaults. Lifting the respects of public services using the forethought of good works and justice.
- Intercepting miscommunications and ensuring that the information is evidence based and not affected by AI or human shaping.
- Advancing the grace and dignity of politics, enabling them to serve the needs of their constituents.
- Assisting with prison reform and reoffending by creating opportunity for any convicted persons using community services.
- Providing the Intelligence Community with reliable medical and support facilities they trust.
- Welcoming disabled members into the intelligence community and assisting them help their peers through the cruelty of their trapped existence. Ensuring that they are seen as a priority with their needs and acting on that passionately. Ensuring that disabled people can access opportunity and have valued role in society/intelligence.
- Assisting the elderly with their plight and ensuring that their living and last wills are honoured and that the chances of the Liverpool Way are greatly reduced/eliminated, access to family is honoured (if they wish). That detectives are assisted to bring to justice the homes where there is suspicion of murder or premature death. Enabling no warrant entry into any place of detainment to ensure safety, well being and that they can intercept illegal activities or rescue anyone held hostage by circumstances or conspiring in any location in the Commonwealth.
- Eliminating the opportunity for abuse of all people in public setting by creating activity which encourages excellence in behaviour.
- Managing the major corporations' extortions of our commonwealth and deescalating their hard 'negotiating' or threats of our nation.
- Providing support to empower Ministers of Parliament to act in free speech of their constituents. Ensuring they are free from duress and that Parliamentary business is taken seriously.
- Developing criminal manslaughter charges to doctors who act on behalf of foreign states against the Nuremberg Convention or the Universal Declaration of Bioethics or are de facto serial killers.
- Developing the 1948 Human Rights Act to always ensure that a person has complete jurisdiction over their body and actions that affect it in any way.
- To review the Official Secrets Act, and Investigatory Powers Act which are obstructing either justice or facilitating abuses of power by groups, train it to excellence and have feedback from agencies used to write in or out parts of the act.
- To develop a healthy profitable intelligence service that generates money (and will not be blackmailed, ransomed, or coerced to favour).
- Working with serious fraud squads to investigate the major fraud and exploitation or security of banking staff.
- To instigate ad hoc operations as the needs arise from the intelligence officers and empowering them to take deputised powers of action to prevent any practise unsuitable in their environments.

Why do I wish to do this as an employee of SIS? One, I am tired of having my work extorted and exploited with receiving zero actual returns. I must earn money to live and thrive on. I need that path setting for others to follow and progress in as careers as much.

2282194

One is controlled and crushed by a what seems at times, paranoid intelligence safety system and therefore one can only conclude, I will do it with you in front of you, alongside you and involve you. It may also be a case of the need for speed. Meaning those red fold messages and on, must be delivered at haste causing a whole community to act to prevent or prepare for an event.

I need be able to communicate effectively with everyone who really needs those encounters to progress. I want to be available and engaging with people and enjoy their results with them, as much as help understand what more I need to do to assist them with their difficulties. Meanwhile I appreciate some will need blacked out meetings with me face to face to protect their identities, and possibly likewise, it remains true, the encounter is the very thing that proves a person is real and of their word. This has only bought me success. I am happy to work with any nearly any medium to ensure their safety and mine is secure and safe to meet objectives.

The second reason is about guaranteeing the brand and officiating the quality of the service. The services that people have experienced is second to none and most love the way it works. I need the financial security to think clearly and to collaborate face to face with professionals who want to be part of what I perceive to be a great intelligence love story.

Thirdly, its my way of officially telling you all I am that serious and, in all reality, I must make an official start. England has lost so many opportunities. I am determined not to let out of your sights. I even left my preferred country to bring it home out of moral principle, because the OSJ was created initially at Broadstairs Harbour, Kent overlooking Bleak House, the famous residence of Charles Dickens, the first one spent 6 years in production next to DH Lawrence's resting place and the others produced around the writing halls of Blake, Mary Shelly, Trinity College Dublin.

One has a keen sense of propriety and integrity to intellectual property. I have been sat here undergoing a daft amount of socio and on testing to satisfy all concerned and one might say one's belief was fading. It's a big task that I perform, and menial inconsistent circumstances have only lead to failure. Living in a location where one must brief, debrief and reside with what are not the best circumstances for open speech without leaks and hacks is a terminal risk to success going forward. I need the circumstances and the teams who are ready to thwart anything I sense to set my sights on and those with the ambition the size of a juggernaut to win this.

I naturally pursue precision and excellence. My motivation increases when one can read easily all the international and national threats and plan to manage them, but without the consistent income, qualified staff and people who are mission focussed, I simply do not have the ability to do everything I can, safely or secretly (end to end encryption) where necessary. I also need the risk minimised environment to get done what needs to be done in plain language, safely (decryption costs time and lives and opportunities). Speed matters.

Meanwhile I am conversant with many intelligence strategies and applications planning and proficient at it having bult the general city civil defence planning for emergencies. I am an excellent listener with the ability to make effective decisions in grave, life threatening or preparatory circumstances. I am a formal realist with the appreciation of working with people who really are in post or undercover for many organisations.

I believe in using real people who are given the opportunity to fully express their skills or art and these are whom I excel working with.

I appreciate I need support in some areas and acclimatising to achieve the reality of what is an intelligence success story to date. I claim to love learning and absolutely thrive being taught all manner of learning. I am more than happy to spend 6 years developing these intelligence projects between the UK and the Republic of Ireland to continue developing the peace process and ensuring security on all fronts we face. Given the relations that are established, I foresee only progress and achievement.

I am very specific in technological security and reliable uphold principles of security, having no problem being in meetings without a phone switched on to maintain that security in debugged settings. I have a heavy regard for technological security and use privacy to engage such discipline. One of my proudest achievements was having my team trust the working environment that they would put away their mobile phones and simply use the communication we had. I had one situation where an employee (a journalist) continued to use work on computers for other communications and they resigned. I am happy to assure privacy in encounters to all those I have dealings with relying on only official SRIS (or other comms) staff to assure veracity of commentary. I noted at my meeting with the MOD in Northampton that there was a tension about mobile phones in use during a presentation and a lack of protocols surrounding such that made many of us uncomfortable. A phone rang during a talk from the Major and it could have been broadcasting to any number of places. We are not good enough to be ignorant to the fact of automated switching from hostile or foreign sources on others technology which may violate security of transmitted information. Too this meant, that delays on communications are inhibited, which is another form of subversive sabotage. In my role, the assurance is privacy and competency in communications. This is played by 'setting the standard' and 'if they want a meeting with said person, then mobile phones will be kept at the door as a weapon would – possibly just off if trusted'. A leader with this sort of faith in their team, which I have develop in action with SIS already, tends to set a trend of excellence in communications – done simply.

Lastly, may I add when I write IOSA's Biography, I want it to tell this story of how it all happened and that it was a product of British Intelligence, SIS which unifies the intelligence world, equally treating every agent as an asset of their country to protect, prevent and prepare for only peace. Happy to get all this done and more to prevent, prepare, protect and present the very best of what is to come.

Aug 1995 - Full Driving Licence in a Manual Vehicle

1996 – Unknown Date – Compulsory Basic Training (CBT) Motor Cycle Training

Mar 2003 - Level 2 Introduction to Counselling (Listening Skills)

Nov 2004 - OCR Level 2 in Adult Numeracy

Nov 2004 - OCR Level 2 in Adult Literacy

Dec 2004 - Basic Skills Agency - An Introduction to Adult Literacy Core Curriculum Training

Jan 2005 - Level 2 Certificate in Adult Learner Support (Literacy)

DVLA - fully traceable addresses since 1996

- Approx June 2011, I was elected as the Treasurer of the AW Lynn Funeral Director IAM group. I resigned before the Winter having too much responsibility with Freeward thinking Ltd and not having access to bookkeeping technology that would have made dual controls possible.

- Although there might be awards offered to me I have never accepted them and instead offered that intention back to the team I have worked with, secretly and silently forgetting about them.

- With my organisation Freeward Thinking Ltd and working with the Highfield's Qualifications and Chartered Institute of Environmental Health achieving Direct Claim Status, verifying Freeward Thinking's student's own certificates and others. The most prestigious of these awards was the PTTLs initial Teacher training I delivered and designed as well as any vocational qualifications from any of the Awarding Bodies. This realised my ambition of allowing teachers the freedom to think and teach in accordance the students needs and not artificial statistical curriculum demands.

- The launch of Original Success Journal Ltd and despite the amount of caution about my history and passion for peace in an international setting, was supported by wonderful Government officials who believed in me and the structure to grant me opportunities to explore and escape the benefits system, of which I had zero intention of joining. I was disrupted because I could not access my British Identity (Driving Licence) and regrettably returned in the UK to a relationship that was unhealthy in preparation to support the country during its Brexit exit. Had I had received my ID I would have simply got a job and bank account to progress with. The delay strained the relationship so badly that irreparable damage happened from the various response and only lead to this rather long delay in applying to you. I would have been here a lot sooner without the complications. On the way through we did uncover and confront

many corrupt parts that action is now being affected on and I look forward to seeing the transformation for the sacrifice.

- I had a student who was awarded Student of the Year awarded at Wembley Stadium in 2007 or 2008 from Mansfield. He was an England fan and it made his life to be taken out by the Mansfield Town crew and bring that award to Mansfield.

- With Original Success Journal Ltd there were two awards I was keen to develop and will still. The Ministry of defence Covenant which Ganesh of the DWP Nottingham (a reservist) introduced me to and following listening to Richard Moore's discussion on it, decided that it was the right partnership to advance with. I then went off for our first meeting with the MOD in Northampton and determined that it was an absolute must to enfold with them genuine British Businesses and work ever closer together.

- Then I pursued the DWP's Disability Confident Award for the OSJ and we achieved the 'Employer Status'. This with the MOD awards I am very keen to see to Gold and to Leader.

- Being Advanced Disclosure cleared to join the Royal Voluntary Service. I worked from home serving via CHIS throughout, taking no break despite any circumstances. This is my nature – always at it. I was particularly touched when we were all to share the George Cross and despite others feeling they should have had that individually, I considered it the proper way of sorting the go getters of self interest and the team players who would play for their country. I remain immensely proud to have been part of one of the worlds optimum civil defence plans where we faced down all that we cannot talk about.

- I am interested in other awards and am willing to take advice on them for approval either personally, professionally or for the organisation.

- Personally, all awards the team achieves I would like to have in a cabinet room so that everyone can connect to and be recognised. Lasting Memory means a lot to us all I would believe. We already have the Pouncing Cat we made with the start of the OSJ on and that would be a lovely start to get underway for nostalgia purposes.

In my optimum environment, which is all resources and team available for success at any time we need to deploy I am a Multiple Mission Focussed person, whom on an incredible scale monitor, adjust, direct and bring to completion the projects. My number one focus is written in the objectives I have already given you and I am willing to onboard any other projects (such as the DVLA/NHS optimisation or Passport restructuring/support) alongside the OSJ Mission (which is easy enough to deploy). I keep running updates, allow crash ins (where a team member needs immediate and instant decisions) subordina

ting powers to act or the resources to complete. Optimum circumstances mean's a separate office place and/or block to a bedsit, being that I have been living less than standard circumstances for an adult since 2015.

With regards to running IT (Intelligence Teams) and depending on where they are I generally show up to their places if outbound/outsourced and read the information they have. Then I take action to inspire confidence and assist them. Intelligence Officers/Project Managers or Development Managers know when to ask for something and I am only pleased to be met anywhere I am in public or on the contact means. This has been true for my duration and will continue.

I cannot honestly give you a personal statement because I am what they need me to be at the time and I serve them the character, personality or the means to accomplish their aims. I have very little interest in anything other than the teams and ensuring that we achieve the same amount of solid progress across all themes and projects.

My skills are an on demand matter and I am here to perform whatever is required of me to the teams. If you ask for it, I will give the team the best of what I have got. Deep down I am very protective of the community and incredibly in love with them, finding space and projects for all, regardless, of what they have done from being contract killers to receptionists. One fails in Ireland alone as a woman without being cultivated in an environment where one learns how to engage with the full spectrum of life being of service to it.

We are at a point where we have NO time to waste being less than honest with recruitment, links and investing faith into what we do. Therefore, of all things I have is honesty and integrity and with that instil that it is okay to be whoever and whatever you are, but please do not betray us with deceit because that goes to N and ND is the action of others who have HI. These important people protect communities from predators, espionage and terrorism (State Funded OR Not). Therefore, I can only yield to their will which means that person will be beyond SIS or IOSA support. To threaten one's country (life or property) is to sign one's own death warrant.

I am ready to hit the ground running. I can be with you and start by Monday the 2nd May 2022. I would propose an apartment somewhere in London close to Vauxhall and thereafter build out everything we need in the way of offices, projects and on. I do not have the resources to hand to do that myself, nor the amount of money necessary to be in a hotel that length of time whilst saving to rent an apartment.

My job is to serve this country and get it fit in all its failing ways, assuring Her Majesty that all her people of her age are watched, loved and appreciated still contributing to this incredible InterCity 125. I am here to protect you all and value you all as the unique contributors you are, recognise all your good and cast off all else as the waste it is. We are One.

Fully qualified teacher, trainer, instructor with good communications skills (when it is apparent who I am talking to). A formidable negotiator and settler of arguments. A very high morale code of furnishing dignity and respect to one and all. A talented linguistic code developer, thesist and director of operations (at range or close). A heart of a lion who would never leave any team in the field alone. A dedicated life purpose of the growth and well being of everyone. A confident, trustworthy nature. A stable understanding of emotional states and needs and is completely unafraid of challenging bullies and bringing the best out in them. Converse in computing, cloud systems, web design, server management, all MS software (I exclude the brand names deliberately to avoid trackers at your side) but lack any interest in surfing social media, MS Excel or lengths of time at a screen. A lover of books and art, skim reading, looking at it or doing it. A published author awaiting feedback which delves into the spiritual of Christianity and all OSJs have an ISBN. A lover of religion and diversity. A poor cook. A source of courage and inspiration to anyone who needs to encounter faith in action and the sensation of what it is like to be beside a person 'who was there'. Nearly uninfluential without the lens of the team, safety and sense. Desperately passionate about good law and the application of how justice can be used to prevent crime. A reasonably okay incidental magician with cards. Awesome with AI (Angelic Intelligence and Artificial Intelligence). Very good with understanding

and working with spiritual matters from ghosts to poltergeists, consulting about them, designing and developing experiments to include or manage their doings. A keen interest in para-psychology and psychology. Very busy and active. A lover of activity and being active. A big fan of botany, agriculture and weather. A proponent for supporting family life and the sanctity of the family life. I am interested in law and justice. I have areal love of reading law and am lax at writing it. Very interested in match making and ensuring people in our teams have the opportunity for the experience of love or loving.

My five top interests are Chocolate, Cheese, Coffee, Vaping and Horses which is the only consistent fact and a definite sign if they are not having an effect I must be held hostage. I am a vapourer and that I follow in the footsteps of my Father (a cigar Smoker) and I have no intention of giving that up because in accordance to all safety – it is one of the key ways of demonstrating that a person can leave a building and be rescued without risking the lives of the squad. I smoke about 12-20 cigarettes a year or less than 5 cigars (I was catching up on the ones I had missed to remember my Father at Christmas). I am religious as a Christian. I do not drink too much and do not have a habit of drinking, although I can and do hold the classical reputation of someone who can drink a good deal with humour. I only drink more than the drive limit on surely safe days off. This is so because if I am poisoned it would be immediately obvious. I have enjoyed cannabis in my time and spent 5 years smoking about 10 spliffs a week but am a lightweight. I do not drink or drug drive. I have been spiked with prescribed drugs whilst detained and abused. I have been drugged in a night club with suspectedly Flunitrazepam and another occasion heroin, cocaine and ketamine, against my will. I have been stabbed with needles and insisted on blood tests to know that I was not infected. I once deliberately took base (amphetamine) to experience it and it took my ex-partner two weeks to convince me not to buy anymore and help me break the immediate addiction, I Never took more than the first dose. All these things were vital to learn about how to manage the poisoned body and be able to teach the effects of losing bodily control. I did not sue the hospital staff I was illegally kidnapped by and abused by. This is because I believe that they are being addressed by other operations and that their criminal activity warranted the attention of the services. I do not wish to discuss or remember what happened there. I trust my comrades and companions in the service are dealing with them and it. I resist all mind-altering substances with absolute stubbornness and reject any psychotropic drugs because the amount of time and money it takes to cultivate skills and learning is not to be destroyed by foreign espionage or local vengeance. I do advocate for the decriminalisation of cannabis (grow healthily)/Psilocybin and provided with standards and safety, as well as proper cafes for the use of it. This is so we can produce hemp products and respect the Rasta community who have a powerful guidance effect if that is done well. The public could learn about community peace talks that way.

I am a keen animal lover having been loved by a whole team of cats in my life time, trained Alsatians, rottweilers (neighbours), greyhounds and Labradors in my younger days. Can ride horses reasonably well and would be trusted with their care and livery management. I am passionate about supporting all animal life.

I am a flexitarian and just delving into vegan donuts and oat milk. I am a sure environmental carer and recycler as well as a befriender of those in need.

I am also a keen advocate of elderly and disabled care and rights. Esther Rantzen was the very person who started Childline (the counsellors) that saved my young life. Therefore, regarding her Silverline – I carry on that mission for both causes.

I do not expect any staff to work as long or as hard as I – we are the sorts who give our lives up to make everything else possible. This is the way that is. I am in short for you.

Hobbies and Interests (Honesty and Integrity)

Aside the above which falls into a type of skills profile I have the following interests:

- Restoring faith in public establishments (BBC/Police)

- I am a avid theatre supporter of all stage and screen. I regularly attend productions from the youth Connexions events to the major productions. I am absolutely in love with the theatre, safety practises.
- Learning to read music and play musical instruments
- A keen interest in traditional media
- Keeping fit
- Conversations and dialogue overcoming difficulties in relationships to keep the nation safe.
- Taking up new interests such as science
- Anything that enhances diplomacy, quality of life and reduces stress factor sin the environment.
- Promoting great programmes that encourage development such as the Basic Skills initiative.
- Planning and strategizing
- Food and drink
- Being part of an effective team/s.
- Transport and travel.
- Driving vehicles
- Radio broadcasting

Red-C – Market Research Company 2016 – 2018 (approximately)

For major brands and political parties, manifestos and bills. To feedback on situational observation of branding, people's opinion, how my political or buying opinion was changed by branding stimulus. Critiquing the response of others response to the branding. Delivering site locations of advertisements. Working under time pressure to deliver results in time with campaigns.

Original Success Journal Ltd (Reg: 12993298) 2/11/2020 to Present

- Company Director and Founder
- General running and contract management of the company.
- Legal duties and responsibilities
- Interview and HR management
- Achieved the Armed Forces Covenant at Bronze Level and will be progressing to Gold
- Achieved the Department of Work and Pensions Disability Confident Employer and am now working towards Disability Confident Leader.
- Trained staff to All Safeguarding and Prevent/Channel/FGM and qualifications of their choice.
- Created the first ever magazine for launch called 7Oct

- Designed and produced all the art-work (acrylics and other materials) to support the PAR-Art event establishing and welcoming the exploration is para-normal, spiritual or psychological.
- Started our own Instagram page see here:
- Rebranded the organisation
- Mastered graphics video, sound, music production
- Expanded office space and decreased it
- Budget management
- Intelligence officer initial training and coursing to intelligence services
- Developed NATO's Counter Terrorism training materials for live delivery
- Consulted peer contractors
- Para-spiritual lead and consultant to highly active paranormal sites
- Estate management
- Budget planning and management
- Tested all the major cloud and AI systems for fit for purpose use in intelligence (not debriefed).

7Oct Ltd

- A sleeping company ready to develop (where it becomes the proper way) into IOSA

Aug 18th (Approx) 2016 – Unknown Agency - Worked with Monaghan Council (traffic surveying for 2 days)

2016 – 2019

- Sponsored by the European Fund under and Enterprise System (193 euros a week reducing to 147 euros a week in year 2) to design and build the Original Success Journal as self employed.
- Hired the Co-Create and Tara Building, Dublin and coordinated to everything we needed to do in regards to Civil Defence being very close to public services buildings.
- Designed the Original Success Journals, private success network on line with international IT team.
- Advised on GDPR and regulatory matters to NGOs and Quangos
- Built an epos system for an airline logistics organisation.
- Participated in the United Nations Agenda for Sustainable Development Goals.
- Was a critical influencer for the management of the Referendum on Abortion, managing and supporting peaceful operations two massive opposing forces.
- Became respected for positive change for Christians and the Gay community.
- Worked with the worldwide agents in coworking form every possible nation. Supported scientists, technologists, architects, wine makers, graphic artists, marketeers and many more professionals. FREE OF CHARGE.

- Developed shared software and security hardware with the teams.
- Took consultations from agents who were despairing at the proliferation of online violence and employer coercive controls worldwide. They were expected to moderate terrible images and did not have access to council. This was symptomatic of a counterattack on technologist companies and the companies did not realise it. They oppressed their staff and used heavy handed techniques of career destruction to keep the brand in shape.
- Counselling endless people and deescalated situations to peace from street fights to community meetings socially, professionally and privately.
- Participated in drugs counselling and establish the Guardian Angel Network.
- Infiltrated threatening organisations to establish communications and bring about democratic change without violence.
- Monitored Cristian outreach and worked with critical infestation of sex offender management and counter fraud in religion/cults/sects.
- Made friends with everyone I met by meeting service objectives, for example I was the reader at the Guardi (Police) annual Christmas party and given support to work with them as people and as professionals. Building strong links that to this day remain trusted and solid.
- Lived with the Legion of Mary (I was an Honorary Member not an officiated member for purposes of equality to all – I still do not accept the title but am honoured to always be welcome with them anywhere they are) for 4.5 years approximately and managed correspondence agents, presidents, vice presidents, officers, foot officers, local and international meetings and conferences; to manage peace and achieve world wide objectives of identifying the needs of groups and furnishing them with replies and answers.
- Managing extremism and radicalisation at an organisational level using values and discipline.
- Lived with 40 women (with a rolling flow of people) who were considered failures and repurposed them and their 'handlers' who eventually gave up being a suppressive force to desist the progress they could make. Deescalated fights with weapons and on. Directed the best out of every woman and male in the next house, ensuring them of work they could find joy in. Managed group grieving and the rapid de-escalation of conflict when there was murder, suicide or maiming.
- Worked with charities and councils to assist people into long term accommodation (own homes), funding, work, references, from being homeless.
- Established and enforced all the health and safety and fire safety rules, planned, practised and trained them.
- Attended funerals/baptisms and confirmations as the stone of strength and to hear out the family's angst – establishing peace in forgiveness of members and to ensure that they always had a life guarantee present.
- Trained as Lector and establish international security protocols for religious places of worship.
- Developed the Dublin Angel App as a first achievement in 2016 for instant info for anyone homeless.
- Spent all that time living and working with the people, crew and team simply making it all happen. Eventually I became so valued and when, following being unable to serve without having a home or life, access to money, could not cope with suppression. This was only because the religious community see such charity as a font of ongoing flow; often not realising the person is not a saint until they are dead and the art is to keep them well and content for as long as possible. These are old values and insecurities from within

a population and no more than that. They themselves were showing their passion to keep close the person that had done so much to prove charity and love exists in action. This finally revealed the hidden handlers I had been given without legal and lawful consent, I was not even aware of their scheming in the background. I snapped and decided to leave being that these people were limiting activity to keep the novelty. The good people who were trying to break that up, could not and the only solution was to get out of their way. On leaving I was forcibly detained (locked in a premises overnight) packed and left the next day without explanation.

- Handling is practise I hope to blow apart in my next course of intelligence work because it was a show that these people were really being used to the highest bidder or most threatening. It was a kind of unwanted behaviour by that organisation under the guise of care or duty of care. That kind of behaviour would normally have been outed by the other members and so one concludes these lone actors who are motivated from the desire to express their emotions on another. Procedurally, there was/is nothing in place which approves such activity. I have no doubt the changes are already in effect and it is understandable. It is also understood that together we will overcome that intelligent slavery of 'handlers' which has done nothing more than destroy democracy and the direction of a nations will. For further flash insight – handlers get emotionally involved with their target/VIP or victim overreaching the boundaries of their vocation. This is no more than poor psychological discipline and a belief their strength of qualification of association renders them immune from complaints or consequences. I understand the secrecy industry has a lot of this in and we all should take a bloody good stand against it because, whether we like it or not its adding to the misery of the world, not fixing it – that counter intuitive and counterproductive resulting I corruption, which leads to disbandment.

Reed Recruitment Ltd (Ireland) 2016 First Trimester

Bank of Ireland (reception or General and Private Banking), Infosys+Verizon (Receptionist and Security Team), Vodaphone (data destroyer), The Outdoor Adventure (shop fitter mate and merchandiser).

Summer and Autumn of 2014-2015 Eternal Skin Care

Consultant on trade shows for the sale of Aloe Vera products.

From day 2 was and remained on of the highest consistently grossing sales consultant with the experienced professionals.

Provided advice and insight into botanical benefits and remedies.

Promoting brand and image that is known throughout the world of the wise.

Worked on some of the most highly secured events and engaged with the UK's most valuable and educated people.

Relearnt the art of salesship and product presentation/demonstration live.

1756 Ltd 8th July 2013 5th April 2016

Director of Events Management Company

- Used the company as a means to find away out of debt accrued from Freeward Thinking Ltd
- Arranged events for small trade and crafts companies to sell their products.

Failed badly as was very much still overwhelmed by the circumstances and bullying. This was a last ditch effort to recover before leaving to Ireland. As it were I learned how I could have somehow done better with being unrealistic with how I was being treated and being selfless to the degree of destruction.

15/10/10 - 19/4/2016

Freeward Thinking Ltd (Educational Establishment)

CEO and Course Director

Design, delivery ad implementation for work based learning programmes with Boots (Logistics), Nottingham University Hospitals, COOP Logistics, Nottingham City Council, St Mary's University Belfast, Jaguar ELS Scheme, Lincolnshire PCT.

Strategic planning and delivery of public and industry related qualifications and courses to the general public and employers such as nail technology, blended and distance learning.

Developed the e-learning platform offering over 1000 online qualifications and learning to the wider market such as Microsoft Office, ESOL, Safety, Language courses.

Lead trainer for PTTLs programmes to level 4 teaching trainers

Off the shelf resource development

Key account client manager

Team/teacher management and development

Quality Assurance lead and developer for standards (moderation and standardisation)

Safeguarding, Invigilator trainer

All the ordinary duties that is part of being a director.

Dissolved on 19/4/2016 owing to life catastrophes and vendettas for daring to be more than a minimum wage worker. I did not have the resources alone or strength to manage my rented home being sold from under me as well as managing a volatile family life. I set about leaving for Ireland once it became apparent the threats to life would not desist.

In my optimum environment, which is all resources and team available for success at any time we need to deploy I am an absolutely Multiple Mission Focussed person, whom on an incredible scale monitor, adjust, direct and bring to completion the projects. My number one focus is written in the objectives I have already given you and I am willing to onboard any other projects (such as the DVLA/NHS optimisation or Passport restructuring/support) alongside the OSJ Mission (which is easy enough to deploy). I keep running updates, allow crash ins (where a team member needs immediate and instant decisions) subordinating powers to act or the resources to complete. Optimum circumstances mean's a separate office place and/or block to a bedsit, being that I have been living less than standard circumstances for an adult since 2015.

With regards to running IT (Intelligence Teams) and depending on where they are I generally show up to their places if outbound/outsourced and read the information they have. Then I take action to inspire confidence and assist them. I work regularly with international Tech development teams and ground teams

being polite, friendly, in role and able to give direct orders, blend and mix in whatever we need to manage any present situation, at range or live on the ground.

Intelligence Officers/Project Managers or Development Managers know when to ask for something and I am only pleased to be met anywhere I am in public or on the contact means. This has been true for my duration and will continue.

I am quite a communicator and need the physical circumstances to perform that. I am lousy at operating and pretending from an isolated position as it allows me to be too inconsiderate with language and I thrive in the circumstances of settings such as teaching, training, lecturing, briefing and on. I very much enjoy talking to groups and audiences. I somewhat dislike working on video because I am so secretive and I prefer to have those lasting relations built directly. Where my team need some on video I am happy to for morale or to assure security principles.

I am a qualified teacher and trainer which I use all of my skills from. I have trained in nearly every high security environment and am very cooperative with the security service whom may have their own initiatives in play. These include CAT 1 prisons, CAT 1 offender probation settings, hospitals, hostels, schools, colleges and universities.

I have regular CRB checks which show my complete clearance (enhanced) through out my career. Most recent for the Royal Voluntary Service.

Technologically competent and able to build apps, websites, produce documents and most use of standard programmes. Not a great coder but once was reasonably good with HTML. Willing to understand it to realise the difficulties of computer scientists.

I would describe myself as a firm and fair manager. I have dismissed staff with no notice for sexual misconduct, drugs, potential weapons or for espionage to far right groups.

I successfully in my past have worked with conglomerates to manage and educate different groups to work together in logistics operations who before my arrival were having knife fights.

I communicate to anyone and everyone so long as they are prepared to bring their demands, and changes to the table which can foot progress by agreement.

I am completely accepting of everyone from the sex pest to the virgin or chaste. I fine no one offensive enough to attempt to assist them in their journey.

I can be flawed, direct and hurtful out of ignorance if I am not prepared with who I am dealing with. I have next to no tolerance or will to work with those who have self interested objectives or the intention of extorting others. My nature is protect to grow and I am not intimidated by those with higher qualifications.

I love to collaborate and see the teams success, I disappear from the team if I am unwanted (which comes as a surprise to a few). This is so that they are not impressed on and I can review what I need to do to be better suited to their needs. I then organise my own training to achieve that.

I relay on good policy which enables equal access to opportunity and by this mean that a disadvantage is not and advantage equally so.

I will explain myself, my actions where it is operationally safe to do so. I never endanger my team, being known for not showing up to events when there is something not quite right. I am startlingly honest which tends to challenge those who practise deceit. I am not a fan of intelligence tests because unless that is a bench test to competency see it as a curios waste of time. I do not like to waste peoples time or effort. I will make the best of anyone's effort and find a reason to praise it.

I cannot honestly give you a personal statement because I am what they need me to be at the time and I serve them the character, personality or the means to accomplish their aims. I have very little interest in anything other than the team's objectives and ensuring that we achieve the same amount of solid progress across all themes and projects.

My skills are an on-demand matter and I am here to perform whatever is required of me to the teams. If you ask for it, I will give the team the best of what I have got. Deep down I am very protective of the community and incredibly in love with them, finding space and projects for all, regardless, of what they have done from being contract killers to receptionists. One does not succeed in Ireland alone as a woman without being cultivated in an environment where one learns how to engage with the full spectrum of life being of service to it.

We are at a point where we have NO time to waste being less than honest with recruitment, links and investing faith into what we do. Therefore, of all things I have is honesty and integrity and with that instill that it is okay to be whoever and whatever you are, but please do not betray us with deceit because that goes to N and ND is the action of others who have HI. These important people protect communities from predators, espionage and terrorism (State Funded OR Not). Therefore, I can only yield to their will which means that person will be beyond SIS or IOSA support. To threaten one's country (life or property) is to sign one's own death warrant.

I am ready to hit the ground running. I can be with you and start by W/E Monday the 2nd May 2022. I would propose an apartment somewhere in London close to Vauxhall and thereafter build out everything we need in the way of offices, projects and on. I do not have the resources to hand to do that myself, nor the amount of money necessary to be in a hotel that length of time whilst saving to rent an apartment. What's mine is the teams and I generally make no bones about that. My desire is simply to do as I have said and do it very well.

My job is to serve this country and get it fit in all its failing ways, assuring Her Majesty that all her people of her age are watched, loved and appreciated still contributing to this incredible InterCity 125. I am here to protect you all and value you all as the unique contributors you are, recognise all your good and cast off all else as the waste it is. We are One.

An engaging, interested manager of people, tech and AI who lives up to her middle name which means 'life artist'. One who cultivates the environment, the people and resources to maximise the achievement of other's goals. A facilitator of success in accordance of the teams ideology of success. A fiercely protective and supportive person who can listen to the most moving of team commentary and make that even better. A person who takes no prisoners but converts them into their life's ambitions and one who deeply cares about 'the only real witness to a person's life is themselves'. A devoted employee who works from waking to sleep, with no family commitments other than the family she is in contact with. A powerful presence to display the greatest of standard or the least to knowing that the critique will be from the heart and offer the most growth. Someone who appreciates character and autonomy of the self, groups or teams. A compassionate leader who puts other's families first and considers the value that people work to furnish their life and they do not work to live. An unafraid power sharer and a person who trusts people to get done what they must to secure the Commonwealth.

The FE

The New Beginning

What's the Future for British Intelligence?

To prove that SIS are completely deradicalized of militia/diplomatic/political or fiscal intelligence service – inactive from being a prohibitive, undermining strategy for foreign state corruption.

SIS or any similar events/operations noticed will be returned to MI6 and challenged by them directly. MI6 will monitor and moderate everything such as chemicals, pharmaceuticals, weapons, cyber space freedom (that they have been tampering with), government systems like access to welfare that can affect the populations. The corpse will be the organisation that hides behind stolen accomplishments and deliberate failure has no place in the trust business, finding no grave. The Secret Intelligence Service (SIS) have been honest on their website as to their business and must conclude that utterly, honestly and allow the public to grieve its loss becoming more attracted to the pristine standards of assured safety practises.

To show the world that they are not participating in the assassinations (or sponsoring them), war construction, destruction of person or democracy, that they realise they are equal to other intelligence in the world as much as, they have been the greatest engineers. They are to uphold the historical value of achievements and compile useful learning for agents that may, one day, be needed.

To remember the greatest Queen Elizabeth II (and Queen Mother) that ever-lived lead them to success, was a woman and is the fourth woman in regal history to have done so, following Queen Elizabeth the I and Queen Victoria and Queen Mary (Queen of Scots). We build great women that can dominate

the world with love and peace. To realise that she was taken, undertaken by the confounding of jesters who competed within and not without. That game is up. The world is changed with Her Ascension, and we must remember her essence lingers for us as much as ours for her.

We are asked to grow up and get off the stabilisers. Revolting against responsibility is no use when we are only left to account for it. You are not sex toys or playthings for the wealthy or spiritually damaged. You are free and accountability, for that, is the price of that freedom.

Pete Delane

It is those people we place our faith, not the wasted lives that continue to attempt to harm those victims today or encourage others to do the same. It is wrong, abnormal, inhumane behaviour that is not the example that should be followed by anyone.

Our home is to be replenished with British Culture, to British people who are stuck abroad unable to return home because of the Governments deliberate drive to repopulate us with their own inheritance. Mainly those who have had influence over our governance have failed because they have no temporal or spiritual attachment to the land or the native people. It is in its own way – a conquest of other nations on us. A retaliation, the repayments of Bonds, when looking into the links of their families and interconnectedness. The isolation sprouting from it that drives their death machine, somewhat apparent in mutual hate and intolerance of competing cultures, on our native lands. The fact is, if this is a fiscal end of empire bondage, and it's started then, those lands have been returned, bonds paid, and they can go and tend it. What is left is baron of nourishment, a starved child in the Passion of the Christ depicts this in the crucifixion. There is only death in this propagation of evil.

Let me encourage all you have fled or made your lives' here. You have gained here but have not taken that home to grow wisdom back in your lands. Money

will not do that, despite it pacifying your own conscious. You must recognise that immigration is the solution, the direction of travel is wrong, and it may be believed you have done enough. You have not.

I did not want to return to England. I had no will for it. However, when called by all you who have no understanding of the rigger, I came because you called. The salvation, however, means you departing to become the heroes. That will not happen here as your countryfolk stare on at you to ever become hateful of your selfishness. Bilbo Baggins, and his journey, had a return and so must you. A stranger is not respected by the ancient spirit in these lands and your guilt shall not be paid so long as the spirit of your land calls. I doubt I am wrong, and I would ask that you open your heart to such considerations.

What more have you to be afraid of? Hong Kong is returned; India is freed as are all the demands you made on our commonwealth. No one person is a slave nor detained by us. You are free to go. Australia continues its journey into its independence. What is this cowardly comfort that you would rather millions of poor beg you for food rather than be their aid and hero? That you would rather eat soil and starve millions, to date 14 million people in this moment? This is why many of are perceived as fruitless, despite your great wealth, most of it completely inaccessible and unviable. It's mainly all bravado and appearances. Your countries could benefit from you and yet you will not think to move your culture to there, to educate and make the world free of serious crime or poverty. Thus, people here look upon you and realise your impotence. There is nothing you can do or offer, not even wisdom that can help grow or develop anything other than the fraudulent or the charlatan. Stories, my dearest colleagues, do not make bread nor grow healthy children. The inequality caused by the lack of participation in the right direction makes you appear as sponges of a different kind. The world, wise on who and what you are, dressed nude and impotent, excites them not and over time has made you rejectable. Plan to go in grace and be held by a lasting reputation of good commentary. Continue as Hitler, Stalin or Mussolini and you will find that reputation god in about 100 years and your family destroyed. Be loved.

I think we have quite a lot more to see from the public objections as we stabilise the political system and raise up the greatness from the lands and counties, they are part of. There are many great ordinary people who are meant to be in councils and Parliament. It is not an elite school to protect

wealth or assets as a common security plan to assure inherited wealth. Disembark.

Those real people will take their places, know their vocations and will fiercely complete to dethrone you or make way for a better political system that allows the people to vote for THEIR Prime Minister. The Parliamentary Act must be changed, or Parliament will fall. It is not hard to see the consistent abuse of power and the stem fields of sex abuse or medical extortion. That is what boils your civil war and assassinations. It's not high-end spies at their best. It's common person using vigilante justice to make safe and make peace.

As we head into a republic of the Commonwealth and as you see Royalty give way to a President, remain peaceful, there are those in this country lawfully and those not. Before we can move to a referendum or change political or monachal leaderships, we must first only have here voters of the right to vote.

Peace be with you all your days. We would like your thanks and gratitude and recognition for our achievements giving you the opportunity to practise your skills and wish you all the very best. Your culture is a guest in this country as much as you are. You are not permitted to flee persecution to install the horror of your subconscious. We have succeeded in our obligations, and we accept that we have failed. We have failed all over Europe. Not all people are fleeing wars, they were fleeing you and your vile acts of religious ritual abuses. We demand your respect and demand that you honour your obligations.

The great failsafe of the United Nations is that in the failed effect of mass migration, the United Nations takes all asylum and refugee applications. This takes the responsibility and strain of the countries that are collapsing under the weight of worldwide serious crimes. People will be told where to go and stay there or return to their homelands. Most homelands are now safe. The United Nations can translate and communicate. Expect to be moved or returned and be grateful if you are given right to remain. There are upper limits on countries and on resources. Every European Country has gone beyond any Olympic award for charity and kindness. Violence, extremism, crime, and the departure from self-respect have led us all to conclude, you don't like being here. That accepted, the United Nations will assess your applications and decide if you are really a criminal on the move, a trafficker,

con artist, or really in need. Be at peace. You asked for safety – it will be granted, through the correct and proper channels. You will be near forced to carry identity to ensure we can make safe Europe. If violence is used, it will be used. There are no restraints on or any police or military who have been charged with martialling you and others. Your inland conflicts are not there. You will give way to peace, or you will be made to leave by local people or by martial force – no matter how old you are.

Your countries of India and Africa are two of the world's leading wealthy countries; trade with each other. We are rebuilding our country in privacy and without further threat from any further interruptions.

Britain's Intelligence service accepts and understands the corruption of men, making them sexually dysfunctional or promiscuous enjoying the right to have sex with 14-year-olds in Europe and did so under threats and blackmail to the European Parliament when reform attempts were made. It is over. You will face charges regressively for child sex abuse if you choose to remain. This is because those children are now adults in the legal system and hunt you. Most violence from the youth is those persecuting their rapist and cannot report it, dancing boys and now fit men. All claiming it is religious ideology in gangs. Incorrect form. They have a right to justice and that justice might look like blacklisting you as a risk unacceptable in this society.

We are conversant with the mediums this habitual pleasure and adolescent; juvenile sexual dysfunction has been trafficked through. That has mainly been religion and the normalising of having sex with minors or smaller things themselves. This has left women and children all over the world the targeted, victimised, the expression of what a man should be has been scarpered. He knows what he is a hunter, fighter, and protector. Those times of misuse are ended. Any abuse or suggestion of abuse towards a minor is considered a threat worldwide to security and integrity of any state. This is not a moral or ethical debate. The rule is it is not okay to sexually engage with a person under 18 years old. Using a person in any way for nonconsensual filming or sexual relations of any kind will be met with probably incredible street force. The public and youth have determined this.

Pornography online will be absolutely decimated, and we are at a point where our images and pictures of us, any part of us are intellectual property. This is because a human is an intellectual creature. This is how we will end slavery and fame; Hollywood, writers and other professional theatrics will gain back is dignity of 'the arts'. The havocking will stop and so will dimmish deadly sexually transmitted diseases. There will be no shame in rushing into sexual relations, or marriage and romance will have its way with couples who do love each other. Their child will be everyone's concern and loved. **NO ONE WILL CONTINUE ABUSING ANYONE**, nor planning to anywhere without significant challenge. This includes the government on welfare payments which should be a minimum of about whatever the minimum rate of pay is X 40 hours. Otherwise, it is interpreted as a driven famine. It is that easy to see. To carry on is only proof of malicious treatment by a government and the deliberate supporting act of child abuse by the Government. Only they get hurt and commoditised in their consistent addiction of Hells collusion. How they pay that is up to them. It is not your problem. You can abstain for paying tax 'if it would lead to life threatening harm'. A court cannot leave you in such squaller, the government must then accept it has sabotaged, people. There is an awful lot more everyone could do and has yet to. There are no excuses where there are millions given in trust already to furnish an exiting government. Let them be honest and make good.

All this matters because the unnatural and last resort defence of female victims is they become predators; killing indiscriminately dysfunctional males who hurt their children or children in a community, they abort their babies and worse create children who are deprived of the love that woman was graced to give. The danger is apparent. They do not forgive; they will stalk and hunt predators who are not welcome near their babies and wiser females will out any man who attempts to lord it over them as if he's something special to look at. They have men and husbands and there is no bigger offence than some over groomed or sweaty filthy beast imagining for later what he wants to masturbate about or sneaking photos. We have rights and the right to be free of perversions gazing on us is one of them. **LEAVE!**

Where there are fathers or stepfathers, and even where they have large well-connected gangs or resources, it is common for death and disappearance of these males and 'accomplice females' who have conspired to hurt our communities. And what more of their vulgarity? We do not need this on our

crime statistics, punishing a man by sodomising them? This under reported crime fuels much of the trouble in your mobs. We have no justification for your special punishments and especially those of you who have been in police or public services. You are the problem – humans do not do that as a normality. The anti-community and anti-social investment of energy will be deployed. If you cannot live in a society and rejects this this gross mentality, find your way out and quickly. If you do use public services to harm anyone (even on transport), I can squarely tell you, you probably will be MET with reality. There are no last chances, dialogue, rhetoric, gaslighting, cooing, or charming, there is out and out bloody violence from about 1 criminal to 20 victims stalking and hunting you to non-existence. It's a sport these days you know. That should not be our culture either. I do not have a solution for you or your type if this is you. It is not prison because we refuse to allow you to be paid for to escape reality. The thing about life is, it is real.

Women have learned and women are acting worldwide to ensure that their children and, in their lifetime, never encounter a man who even so much as thinks about fantasizing about breeding with a juvenile. The age for consensual sexual relations worldwide is 18. This is because the young people, who don't get to vote, have decided. Their violence has been an expression of protest and a form of democracy. Their marches and slow walks are noticed and managed. We listened and acted and will continue to act until they can be their brilliant selves. Youth, it is understood and will be acted on. You report, let professionals sort it out. You do not carry weapons or drugs and you make the very best of this opportunity.

Corruption, deceit, crime will not be tolerated and nor will embedded agents aggravating any other country promoting graphic violence, abuse or humans or animals. Children have the ultimate right to bodily integrity and adults will have to get themselves help if they claim to have an ongoing habit. No retaliation of these males or females will be tolerated. It is not a preference. What you are witnessing is qualified professionals furnishing a sex cult business in mental health, clubs, theatres, schools and in any place, they can make someone appear to consent or get their parents' consent.

Politicians will outgrow being commercial fetch dogs for boards or shareholders and must depend on their salary. Their vocation in life is

furnished by your salary and it is more than adequate to be able to feel the socioeconomics and need to change with them. The detachment from such real-world fiscal flow makes a dreadful leader with no appreciation for the development of their provinces. Gentrification will end and we will behave as communities of BRITISH PEOPLE. Wealthy layabouts will not be welcome. Your efforts will be noticeable, accountable and it will be expected that you use your wealth in this county. It is not a carwash or start on a monopoly board.

No one will work for free, not even volunteering and dues respects will be paid where ideas or intelligence is stolen. We see volunteer agencies with thousands of spare pounds accepting people as volunteers exploiting those less able or work trails and on. Get real. That is serfdom, stereotyping, and stigmatising. It is okay where even commercial companies need volunteers to succeed.

All theft of intelligence or ideas will be considered equal to temporal theft and the Government, or any other responsible organisations will pay the fee – somehow.

On ethnicity, if your ethnicity is important before your nationality, that is your belief, your value system. No one has a right to change that. We will gladly ask you to please stop offending the tribe or clans that accepted you – because that is what we are. We are English, Scottish, Irish, or Welsh. Our families have been here for over 4000 years in some cases. That means if you are or have emigrated here, we expect you to respect our values, our Philosophical/Pagan/Druid and Christian systems of kindness and forgiveness. More than that as that Christianity evolves, exercising all the sex cult and sadomasochism that has been the blackmail the of all sickness to all religions ends; we ask that you abstain abusing people in religious settings, or you will be forcibly removed.

All women are considered equal here, and the safety of all children comes first. One could say you are not mature if this is not understood, and you need attention from people who understand you better than we have time to evaluate. We have limited time and resources. That is easy understood.

The most important thing we will be doing is supporting a voting system in schools so that children above the age of 7 can help determine the law. We will find ways to make their voice matter extending on John Berkow's concept of the young politician's clubs and the school days visits to Parliament. Their voice will be heard in full, and they will, with guidance of risks and resources inherit the wealth of wisdom and property. They will not be silenced and the louder and clearer they are, the better.

We are a nations people, and you might say, Jeni Zengei Zillart is letting you know with Arleen Foster, Mary Lou McDonald, Nicola Sturgeon, Michelle O'Neill, Helen McEntee, Carrie Lamb, Marianne Le Penn, Angel Merkel, Teresa May, Jacinta Ardern, Katherine the Great (in spirit), Mrs Li, Nancy Pelosi and JK Rowling that we quite mean business for our sisters and for our nations. Step aside and enough of your manslaughter, land grabbing bullying. We will politely ensure you leave. We have seen enough abuse and violence in our countries and lives. We do not expect you to unnecessarily stress our people out with your healthcare demands or dependency, that is why we have families and create environments for couples to have families and rear them to fine adults who love peace.

If the Native American Indian's had done the same thing, the buffalo would have lived, they did keep management of their lands. I thank Bear Ears and Mike Pence for all their families help, support and prayers to remind me, my people are of kindred spirit. We refuse to give it up for lesser blood than what we were bathed in, the lands.

What is soul? Mission set and completing.
