

# Rescuing Awen

## The Script

### The Story

From a book review on [Amazon.com](#)

This young adult novel has a contemporary, accessible plot along the lines of Diane Duane's *Young Wizard* series.

***Rescuing Awen*** introduces the readers to the legacy of the Keepers (people who possess the telepathic abilities to control a planet's elements of earth, air, fire and water), a boy racing against time to save a dying planet, and the electric cast of characters who inhabit the sentient world called Awen.

Based on the middle grade fantasy novel ***Rescuing Awen*** by  
David Alan Morrison

# Praise for Rescuing Awen

## Publishers Weekly Review

In this fantasy novel, benevolence and concession to nature conflict with proscription and ordered individual advancement on the planet Awen—a place that's populated by giant telepathic crows, beings called the Terrells, non-humans called Somnie, a levitating woman named Wavith and a shapeshifter called Elder T'Ra. Fearful that Awen could be used for malicious purposes, a series of locks (and a key corresponding to each) were devised to control who and what traveled there...Dell has just fallen through it...Snappy dialogue exists hand-in-hand with the author's knowing tone. Dell is a likeable character that readers will root for.

## Reader Reviews

★★★★★ **This is a great tactic and maintains the suspense**

**Verified Purchase**

This is definitely a tween-style book, but hey so is the Hunger games. I was really surprised by this coming of age tale. It really reminded me of the author Andre Norton's work. This is a short read but very intense. David adds little plot misdirection throughout to liven things up for those who think they have it figured out by page 20. This is a great tactic and maintains the suspense. The underlying theme of ecological destruction is well thought out and applied.

★★★★★ **My 8 year old LOVED this book.**

We downloaded this book for my oldest child (who is a budding environmentalist and avid Sci-Fi/Fantasy reader). She couldn't put it down and is already asking if there is a sequel. In her own words:

"This is a great book. Everyone should read it!"

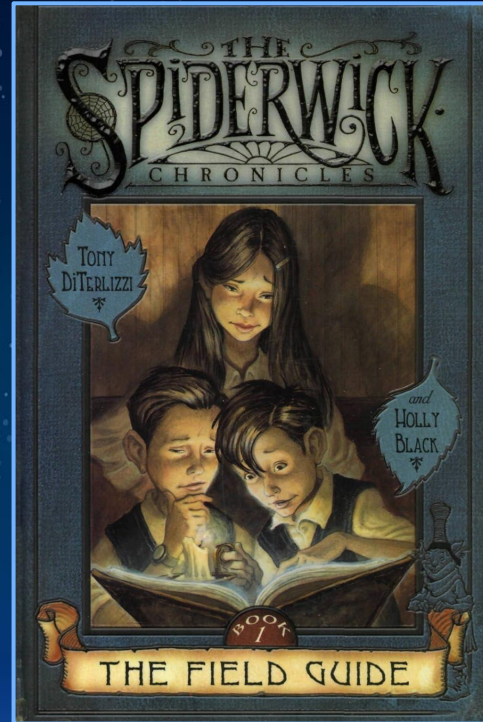

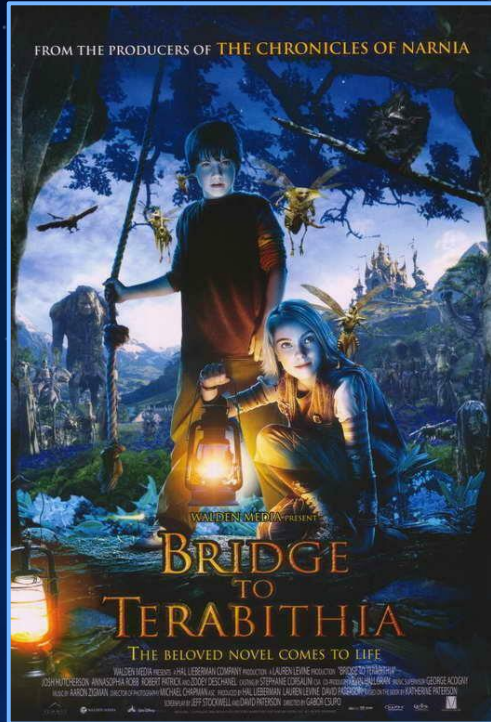

# Films Similar to Rescuing Awen

## Bridge to Terabithia

Budget: \$17 million

Gross: \$82 million

(source: imdb.com)

## The Spiderwick Chronicles

Worldwide gross:

\$164 million

# The World of Awen

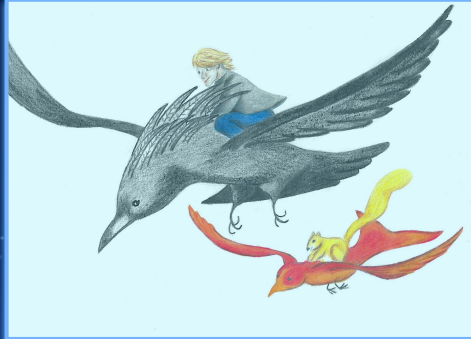

## Squirrel

The yellow creature barely escaped her world. Now she teams up with Dell to prevent Awen from the same fate as her home.

## The Kri

Thanks to these giant crows, Dell and Squirrel can travel Awen's skies in safety.

## The Creatures

Possibly the one true creature native to Awen.

## The Medallion

Finding this necklace started Dell's journey.
