Emerge Matrix (Placental Allografts – Q4297)

EME-26222 (2×2 cm) – Small chronic wounds, diabetic ulcers.

EME-26223 (2×3 cm) – Small ulcers, minor pressure wounds.

EME-26224 (2×4 cm) – Linear wounds and surgical incisions.

EME-26244 (4×4 cm) – Moderate venous or diabetic ulcers.

EME-26246 (4×6 cm) – Larger chronic wounds and burns.

EME-26248 (4×8 cm) – Large irregular wounds or dehiscence.

Activate Matrix (Thicker Placental Allografts – Q4301)

ACT-27222 (2×2 cm) – Small deep wounds, post-surgical pockets.

ACT-27224 (2×4 cm) – Elongated surgical wounds.

ACT-27244 (4×4 cm) – Deep ulcers requiring support.

ACT-27248 (4×8 cm) – Large deep wounds or surgical openings.

Derm-Maxx (Acellular Dermal Matrix – Q4238)

MDRM-22 (2×2 cm) – Small deep wounds, trauma defects.

MDRM-24 (2×4 cm) – Incision reinforcement, elongated defects.

MDRM-44 (4×4 cm) – Moderate surgical defects or ulcers.

MDRM-48 (4×8 cm) – Large trauma wounds or burns.

MDRM-510 (5×10 cm) – Large soft-tissue defects.

Derm-Maxx Fenestrated (ADM with Drainage – Q4238)

MDRMF-22 (2×2 cm) – Small draining wounds.

MDRMF-24 (2×4 cm) – Draining surgical wounds.

MDRMF-44 (4×4 cm) – Moderate ulcers with exudate.

MDRMF-48 (4×8 cm) – Large draining traumatic wounds.

MDRMF-510 (5×10 cm) – Burn wounds with heavy drainage.

XCell Amnio Matrix (Amniotic Membranes – Q4280)

XAM-0202 (2×2 cm) – Superficial wounds, dermatology.

XAM-0204 (2×4 cm) – Surgical incisions.

XAM-0404 (4×4 cm) – Moderate diabetic or venous ulcers.

XAM-0407 (4×7 cm) – Burns and large wound defects.

Amnio-Maxx Dual Layer (Q4239 / Q4235)

AMN-22 (2×2 cm) – Small chronic wounds.

AMN-23 (2×3 cm) – Superficial wounds.

AMN-24 (2×4 cm) – Linear incisions.

AMN-44 (4×4 cm) – Medium ulcers and burns.

AMN-48 (4×8 cm) – Large wounds requiring strong dual-layer coverage.
