

As summer's blazing sun starts to mellow and the first hints of autumn paint the trees, we're swapping our sun hats for cozy sweaters and gearing up for a different kind of excitement. Imagine this: fields bathed in golden light, the hum of engines, and the rumble of classic tractors proudly parading through the countryside. That's right—fall is the season for tractor shows, and we're thrilled to invite you to experience these impressive events with us. Whether you're a longtime tractor enthusiast or new to the scene, there's something magical about seeing these vintage machines in action. We can't wait to see you at one of the upcoming shows, where history and horsepower come together in a spectacular display!

As a reminder, when you spend time outdoors, it's crucial to take extra precautions against bug bites. Apply bug spray generously to keep insects away and reduce the risk of bites that can carry diseases. These pesky bugs aren't just a nuisance—they can pose serious health risks. Don't forget to pair your bug protection with sunscreen to shield your skin from harmful UV rays. Stay vigilant and enjoy your time outside safely!

We're excited to share some highlights from our Chapter 44 Spring State Show held in Houston, MS. Attached, you'll find a collection of photos capturing the spirit and excitement of the event. Enjoy the snapshots from a wonderful two days!
