We explain the “so what” that others miss: fusing intelligence, risk, technology, culture, and operations into usable decision support.

CORE CAPABILITIES

- **All-Source & Fusion Intelligence:** INTSUMs, executive briefs, research, OSINT, indications & warning, predictive analysis, and tailored decision support.
- **Geopolitical & Supply Chain Risk:** scenario analysis, supplier/dependency mapping, critical-material and infrastructure exposure, and resilience planning.
- **Cyber / ICS-OT & Critical Infrastructure:** threat-informed risk support integrating cyber, physical, information, insider, and operational dependencies.
- **Counterintelligence & Technology Protection:** support to R&D, technical programs, insider-threat awareness, and protection of sensitive capabilities.
- **Program / Risk Management & SME Support:** fractional expertise, special projects, cross-functional facilitation, executive advisory, and mission-focused planning.
- **Training, Exercises & Workforce Development:** custom curricula, seminars, tabletop exercises, leadership up-skilling, and human-AI analytic integration.

REPRESENTATIVE PERFORMANCE

- **U.S. Military / Defense R&D:** counterintelligence support protecting technology, research, and development activities.
- **Energy / ICS-OT:** threat hunting and intelligence support to risk-management planning for energy-sector defense.
- **Special Operations Partner Program:** developed and delivered intelligence and staff-operations curriculum for an international partner force through translators.
- **Federal & National-Security Mission Support:** team experience across military, law enforcement, intelligence, financial-crime, emergency-management, and international operating environments.
- **Large / High-Consequence Programs:** team members have led or supported significant federal, defense, technology, financial, and academic programs; specific values available under appropriate disclosure.
- **Recent Strategic Partners:** DoW/DoD, HII Mission Technologies, QinetiQ, Dragos, New Hampshire Aerospace and Defense Consortium, Bank West, Utica University, George Mason University.

WHY FERNDON

- **Practitioner-led expertise:** SMEs are selected for direct experience with the problem set, not generic bench coverage.
- **Cross-functional fusion:** integrates geopolitical, intelligence, cyber, infrastructure, financial, cultural, and operational perspectives.
- **Usable outputs:** analysis is structured for decisions, risk registers, planning cycles, exercises, and executive action.
- **Agile small-business delivery:** scalable support through project, retainer, training, subcontract, and teaming models.
