

THE CERAMIC GARDEN
Afternoon Art Classes – Fall 2020
With Christine Terranova

CONVERSATIONAL FRENCH ages 5-12

This class uses interactive methods to learn French in an artistic safe environment. Lessons are reinforced with conversational French and exercises during class, taught by native French speaker and ran in French. Hand-outs are included.

WRITING ages 12-16

This class is designed to spark students' creativity, imagination, and critical thinking. We will be creating a crafty personalized journal/notebook from scratch according to four themes and using fun writing prompts students can develop into stories, poetry, or even songs. The goal is for young writers to find story telling satisfying and healing at the same time.

POTTERY (hand building, sculpture, and pottery on the wheel) ages 5-11

Students learn the basics of handling clay and numerous techniques to create decorative and functional pieces while hand building, sculpting, and throwing on the wheel. They will also learn about textures and glazes. This class culminates with an art show featuring tons of talent on the last day of class. Many children word creating with clay "very satisfying".

Christine Terranova has been teaching art to children and adults for 15 years. She is a self-taught artist who gave up Corporate America for Entrepreneurship. Her specialty is playing with clay, whether it's hand building or throwing on the wheel. She holds a Bachelor of Arts in Social Sciences and Journalism from New York University and a Paralegal degree from NYU's Institute of Paralegal Studies. She is published and is writing her memoirs. Christine enjoys nature, gardening, reading, crochet, and cooking.
