

I've been an active member and player at East Portal Bocce for the past two years, but my love for the game goes back much further. I've played bocce on grass, gravel, front lawns, and anywhere a pallino could roll. I've always appreciated that bocce is a sport for every age and every stage—where competition and camaraderie meet. It's a game that brings people together, and that sense of community is what keeps me coming back.

In addition to my involvement here, I have previous board experience, including serving on the California Revenue Officers board, as well as community and volunteer roles through my work as a local Realtor. I enjoy creating welcoming spaces, supporting participation, and helping organizations run smoothly while also staying fun and engaging. I'd be honored to bring my creativity, enthusiasm, and commitment to connection to the East Portal Bocce board, and to support our club's growth, tradition, and community spirit.
