

To my fellow members of the East Portal Bocce Club, I am excited to seek your vote for a second term as Director. My journey, like many of yours, began on these very courts in 2018. Since then, the sheer joy of the game and the thrill of competition have deeply motivated me, leading me to hone my technical skills and proudly promote our club in regional and national tournaments across the country. I champion the EPBC mission to make bocce accessible and enjoyable for everyone, fostering comradery and friendly competition whether you play casually, in our leagues, or on the competitive circuit here on the very same courts. I ask for your support to continue bringing this energy and dedication to our board.

During my first term, I dedicated countless hours to enhancing the member experience and promoting our core objectives. I ensured our equipment was top-notch by sourcing high-quality bocce balls directly from Italy and led the research and replacement of our worn court surfaces, always prioritizing quality at a competitive price. From organizing successful annual friendship tournaments—including a collaboration that raised funds for a local charity (Hot Shots for Tots in 2025) — to creating our first-ever Summer League, my actions have consistently aligned with our goals to promote bocce, educate the public, and provide engaging social activities. Furthermore, I have poured energy into vital projects like involvement in the process of securing potential contractors and donations for the restoration of our court roof following its storm-related destruction in 2023 and even designed our new EPBC emblem seen on our website and original polo shirt logo, demonstrating my commitment to the club's presentation and future growth.

As an incumbent, I remain connected to the Italian heritage that gives bocce its spirit and to the unique significance of our courts situated in the heart of Sacramento's Little Italy. My goals are aligned with yours: to make our club the best it can be—a place where tradition meets growth, and every member, regardless of skill level, can have a great bocce experience. I will continue to focus on choices that enhance both social and competitive play, ensuring everyone has a great experience. I look forward to our journey together as we strive for the vibrant future of our East Portal Bocce Club.
