

The 2027 Vandal-Proof Step Lighter is designed for use in those areas subject to violent abuse by passersby. The 1/4" thick polycarbonate lens will withstand extreme impact including small caliber bullets. The lens frame of 3/4" thick aluminum is up to the job of holding the lens securely in place in case of heavy impact, and corrosion protection is provided by impactresistant powder coating in a choice of colors. The lens is held in place with tamper-proof machine screws from the bottom frame and the LED light source is mounted behind the polycarbonate lens. No back box is necessary behind the Fixture as terminations can be made within the lens housing on its integral terminal block.

The 10 Watt LED light source will accommodate 120 – 277 Volt input voltages (specify). The light source provides as much light out-put as two 13 Watt CFLs, making this fixture an energy efficient, low-maintenance and Ecofriendly option for installation where vandalism is a problem

**1200 Lumens****10" x 15" Overall Dimensions****50,000 Hour Rated Life****5 year warranty****Proudly manufactured in the USA**

**Component Features & Specifications**

<b>Dimensions:</b>	10" X 15" Overall Dimensions
<b>Construction:</b>	¼" Aluminum Back Plate & ¾" Lens Housing 1/4" Polycarbonate Vandal-Proof Lens with Stainless Steel Tamper-Proof Screws Finish: Powder-Coated Exterior Finish Light Source 10 Watt LED Light Source (comparable to 2- 13 Watt (CFL): 50,000 Hour Rated Life
<b>Finish:</b>	Powder-Coated Exterior Finish
<b>Light Source (CFL):</b>	10 Watt LED Light Source (comparable to 2- 13 Watt 50,000 Hour Rated Life
<b>Light Output:</b>	1200 Lumens
<b>Kelvin:</b>	4100K
<b>Electrical:</b>	120 – 277 Universal Voltage
<b>Power Consumption:</b>	10 Watts
<b>Mounting:</b>	Wall Mount
<b>Warranty:</b>	5 year warranty
