Sterilized _____ If yes, provider & date _____

Vaccinations (type/most recent date) _____

OWNER'S NAME _____ DL # _____

Phone _____ Email _____

Physical address _____

Storybook Rescues (SBR) will provide a compartment at PetSmart in Brenham for 2 weeks, after which the cat must be picked up by the owner for a 2-week break. A maximum of two additional 2-week periods at PetSmart will be provided, *if and when space is available*.

The cat must be sterilized, microchipped, and up-to-date on vaccines before going to PetSmart. SBR will provide microchip, vaccinations, worming and flea medication. SBR will pay for sterilizing the cat only if it is done by SBR's veterinarian. Transportation to and from the vet clinic must be provided by the owner. Cats cannot go to PetSmart until 1 week after being spayed or neutered, and 48 hours after being vaccinated. If vaccinated or sterilized by the owner's vet, proof must be provided to SBR.

SBR will provide daily care for the cat while it is at PetSmart. SBR will list the cat on its Petfinder.com page. SBR will interview and screen potential adopters. If/when an adopter is approved, SBR will handle the adoption. Any adoption fee collected will go to SBR.

If the cat's listing remains on PetFinder.com during a break period, the owner must be willing to show the cat to potential adopters who have submitted an SBR Application for Adoption.

_____ *If a cat becomes ill, aggressive, otherwise unsuitable for adoption, or unable to remain at PetSmart, the cat must be picked up by the owner, who will re-assume responsibility for the cat's welfare.*

_____ *If a cat has not been adopted from PetSmart after any 2-week period at the store, the cat must be picked up by the owner, who will re-assume responsibility for the cat's welfare.*
