Air-MAX Blower Systems

Pre-Cleaner

Starter Panel

Material transfer blower package.
Compact design for easy mobility.
Gardner Denver CycloBlower, for
performance and reliability.

Standard Equipment

Blower - Gardner Denver positive displacement helical-lobe CycloBlower with oil level site window.

Motor - TEFC, 230/460/3/60 electric motor, E Pak efficiency 1.15 S.F., Class F Insulation, non-restricted Centri pre-cleaner.

Direct Drive - Easily to rebuild, Non-lubricated EDPM Rubber element, 1.5 S.F. with guard.

Discharge Check Valve - Eliminates back-flow of material into the blower.

Relief Valve - Auto reset pressure relief valve set at 15 psig which protects blower from over pressure.

Air Pressure Gauge - 3" Liquid filled dial.

Steel Base - Steel base with a epoxy painted finish for long lasting durability with drilled anchor pads.

Options - Starter and panel

*** Warning** - Running blower over 18 psi for long periods may overheat blower which will result in severe damage.
