

AN INVESTMENT IN THE USA TRIATHLON FOUNDATION IS AN INVESTMENT IN OUR COMMUNITY, SPORT AND FUTURE.

ENCOURAGE YOUTH PARTICIPATION

Every child should have the opportunity to be active and experience the joys of multisport.

Currently our sport lacks the basic infrastructure inherent in other sports, and is missing youth-centric coaches, clubs and events in every major market that provides kids a safe environment to practice, train and participate in races with each other.

Help us build connections across the country between schools, clubs, coaches and race directors to offer training opportunities, equipment and resources, and to create the next generation of multisport athletes and leaders.

Join us in changing lives, schools and communities through multisport.

INSPIRE PATHWAYS TO ACCESS AND INCLUSION

Everyone should have the support and access to participate, grow and excel in triathlon/multisport.

Multisport can empower athletes to develop physical fitness, gain self-confidence, find independence, experience joy, and connect with an inclusive community. But it is an ambitious endeavor that requires an abundance of resources and we are underfunded.

The USA Triathlon Foundation is committed to giving those who don't have opportunities to compete the chance to realize their athletic dreams and progress through leadership pathways in the sport.

Be a part of sharing the opportunities that multisport offers and breaking through the barriers of entry.

IGNITE OLYMPIC AND PARALYMPIC DREAMS

Every aspiring elite athlete should get their shot at racing on the world stage and feeling the weight of an Olympic or Paralympic medal around their neck.

Unlike most of our competing nations, U.S. Olympic sport organizations and their athletes do not receive any government funding.

Support is more important than ever as governments around the world are increasing their financial commitment for our top competitors.

Together we can solidify the future of the USA Triathlon Olympic and Paralympic program for Paris 2024 and LA 2028.

CEO EXCELLENCE FUND

A quickly changing world requires a nimble organization and leader.

The COVID-19 pandemic showed the world, and particularly the endurance sports community, the importance of being flexible and adaptable in face of unforeseen challenges.

The CEO Excellence Fund provides our CEO Victoria Brumfield the flexible financial resources necessary to maintain USA Triathlon's top priorities while responding to changing internal and external demands.

Help us address the greatest needs of the sport.
