

ANDAMAN ISLAND ADVENTURES – INDIA

The Andaman Islands is said to be the best destination for popping and jigging in South East Asia. The best description for this type of fishing would be “Total Hard-core Saltwater Fishing at its very best”!!

The fishing season in The Andamans, stretches from October until May. Many species can be caught depending on different seasons, but in the Andamans, we can catch GT's and Doggies almost the entire season through!

THE FISHING:

The Andaman Islands is said to be the best destination for popping and jigging in South East Asia. The best description for this type of fishing would be “Total Hard-core Saltwater Fishing At Its Best”!!

The fishing season in The Andamans, stretches from October until May. Many species can be caught depending on different seasons, but in the Andamans, we can catch GT's and Doggies almost the entire season through!

The Andaman Islands have to be some of the best destinations for popping and jigging in South East Asia, thanks to the incredible quantities and the large sizes of the GT found, with an average weight of more than 45-50lbs, with some over 100lbs!

There are also many other species that our anglers can catch while popping, spinning and jigging, like huge Red Snapper, many different Groupers, Coral Trout, big Spanish Mackerel, Barracuda, Pilot Trevally, Sail Fish, Wahoo, Marlin, Bluefin Tuna, Bigeye Tuna, Dog Tooth Tuna, Yellow Fin tuna and Bonito.

There are many excellent jiggging spots and drop-offs, all within 30 minutes to an hour's journey by boat from the jetty. You can pop and catch GT's within as little as 10-15 minutes from the jetty!

Popping and jigging is a tiring business. You need to be relatively fit to endure hours and hours of fishing and fighting big fish. GT's and Tunas especially are 'pullers', and will scream drag of your reel. You may be catching 'small' GT's of 30-40lbs and at any time a 90lb GT could make mincemeat out of you! These are the bullies of the sea, one of the most aggressive and impressive fish to hit top water lures and jigs in the world.

The weather is hot in general, so wear appropriate clothes and buffs to protect yourself from the sun at all times. Lather up with 50+SPF sunscreen. Gloves are a #1 here as your hands will also take a beating – see pic! It's a tough, rough sport, but so rewarding in many ways with plenty of species.

Fishing Boats and mates: Excellent local Captains and mates handle the boats and can put you onto fish quickly and efficiently. Our boats are 35ft centre console / Custom Built in 2015 / live bait tank / 1 x 250 HP Yamaha with 15 HP backup engine, VHF, GPS, latest Fish finder etc.
