

'MOLA MOLA' SKELETON COAST ADVENTURE

SHARK FISHING - NAMIBIA

'HARDCORE SHARK FISHING OFF THE BEACH ON THE RUGGED SKELETON COAST'.

***www.worldwidefishingadventures.com is the official worldwide representative for www.molaangling.com**

The Skeleton Coast of Namibia is one of the most nutrient rich areas of the Atlantic Ocean. Under the influence of the cold Benguella Current coming from the Antarctic Ocean, it feeds a huge eco-system of marine creatures, with the Copper / Bronze Shark (*Carcharhinus brachyurus*) at the top of the coastal food chain.

But it is not all about the 'Bronzies', as there are other shark species to test the angler, as well as a host of other non-shark species. The influence of the current seasonally does have an effect on the various species, though it is only a matter of where they have moved on this very dynamic and ever changing coastline.

The coastline of Namibia is under the jurisdiction of the Ministry of Fisheries and Marine Resources, who administer the regulations covering all fishing activities, including regular inspections on the beach. All our anglers will have pre-purchased licenses to fish.

The fishing from this coast is mostly using 14' purpose made beach rods and multiplier reels, that suit the strength of species being sought. The guides will bait and cast all tackles as required, however for the experienced angler, they can undertake these tasks themselves as they wish.

A typical day would start with clients being collected at their accommodation by a 4x4 vehicle and travel to the day's chosen fishing area. All fishing tackle and bait will be provided with no hidden costs. The clients actually decide on the target species for the day and this is best carried out in discussion with the guide, benefiting from their more intimate knowledge of local conditions, like weather, tide and sea conditions.

OTHER SPECIES

Many other species inhabit these cold waters, like Spotted Gully Sharks, Shovel-nose or Guitar Fish, Sand Sharks, Galjoen, Steenbras, Kob and more species.

It's always good to bring a lighter outfit and try to target some of these smaller species for a lot of fun!

TRANSFERS, SCHEDULES AND COSTS

- Day 1: arrive in Windhoek and fly onto Walvisbay. TOUR STARTS - transfer to B&B hotel and overnight.
- Day 2 - 7: 6 full days guided fishing
- Day 8: return to Walvisbay Airport and onwards journey home – TOUR ENDS
